Note:
New funding clusters and contribution amounts took effect in the 2021 academic year. Grandfathering arrangements are in place for students who would see an increase in their contribution amounts. Under these arrangements, students who commenced their course of
study before 1 January 2021 facing increased student contribution amounts for a unit, will instead have their student contribution and Australian Government contribution amounts remain as they were under the previous arrangements (with existing rates being indexed
by CPI each year). If continuing students are enrolled in units that will see their student contribution amount lowered, their student contributions will be the lowered amount and the Australian Government contribution would be the new rate.

Professional Pathway Psychology and Social Work

Commencing students in these programs will be charged student contribution fees based on their program type for the units (courses) that meet the Australian Government's Professional Pathway Psychology or Professional Pathway Social Work requirements.
