Tip

You can search for RMIT building numbers on Google Maps!

Ask the right questions at Open Day

It's natural to have questions about university and how it all works. Open Day is an excellent place to find your answers

What to ask current RMIT students:

- Why did you pick RMIT?
- Tell me about your experiences at RMIT so far?
- Do you recommend any clubs and societies?

What to ask at the General Info Marquee

- What are the entry requirements for my course?
- How do I apply to study at RMIT?
- What if I don't get the ATAR or study score for my course?
- What should I know if I'm interested in postgraduate study?

What to ask RMIT teachers at Info Points:

- How will I gain real-world experience in my course?
- What will the lectures and classes look like?
- What opportunities will there be to study overseas?

Tips to nail your day

Know your options

After visiting the Welcome Marquee, your first move should be learning more about the courses you're interested in. Some of them might have a tour, presentation or workshop that you won't want to miss!

Get a lay of the land

After you've found out all you need to know about your future course, have a wander around and see what excites you. There will be something around every corner, but if you're not sure where to look, head to Bowen Street and join a general campus tour. There are also more specialised study area tours if you want to see certain facilities.

Explore the non-academic side of RMIT

There is so much more to university than just studying and coursework, it's about making friends, exploring your passions and trying new hobbies. After exploring the student-run clubs at the Student Club Hub, keep an eye out for useful amenities and facilities, food vendors on campus and study spaces that match your vibe.
