# Eco-hackathon

With the continuous increase of the world's population, the demand for sustainably sourced food is expected to boom over the next decade. We've teamed up with Xylem Capital for an exciting innovation challenge\* filled with industry experts to find the answer to:

**How to create the next groundbreaking company while tackling climate challenge through regenerative agriculture?**

Come up with the next breakthrough idea that helps solve the world's climate crisis through business-oriented solutions and exploring what's next in addressing climate challenge.

\*Limited space available
