## A message from the Vice-Chancellor Professor Alec Cameron

RMIT is an international university of technology, design and enterprise. Our mission is to empower people and communities to adapt and thrive across generations, through education, research and civic engagement that is applied, inclusive and impactful.

Our motto since 1887, 'a skilled hand, a cultivated mind', reflects RMIT's commitment to improving the lives and futures of people in a fast-changing world. Applying knowledge with skill, imagination and integrity is at the core of all our work, along with close connection and collaboration with the industries and employers our graduates seek to join.

RMIT's presence around the world enables our students and staff to benefit from the exchange of ideas and research across a broad ecosystem. Three substantial campuses in Melbourne are located in the City, Brunswick and Bundoora, along with other Victorian locations. We also have two campuses and a language centre in Vietnam, and a research and innovation hub in Barcelona, Spain. In addition, programs are offered through partners in Singapore, Hong Kong, Sri Lanka, Indonesia, India and China, with research and industry partnerships on every continent.

We continue to consolidate our reputation as one of the world's leaders in education and applied research. At the heart of this is our ability to graduate highly employable, global citizens who are ready to make a positive contribution. Our diverse community of 500,000+ graduates live and work in more than 150 countries around the world. We regularly welcome our alumni back throughout their careers to top up their skills or change their direction altogether, because we know education is lifelong.

Powered by the insight and ingenuity of our people, RMIT will evolve and thrive for the decades to come, working with our students and communities to achieve their goals. I encourage you to take part.

**Professor Alec Cameron**  
Vice-Chancellor and President

# Why choose RMIT?

Established in 1887, we are one of the top universities in Melbourne and one of Australia's oldest tertiary institutions.

RMIT is ranked among the world's best universities in 28 of 45 assessed subject areas, featured in the 2023 QS World University Rankings by Subject.

## RMIT is an international university of technology, design and enterprise.

### #1

in Australia and #19 in the world for Art and Design<sup>1</sup>

### #1

in the world for our efforts to reduce inequalities and take action against discrimination<sup>2</sup>

### #2

in Australia for Architecture and the Built Environment<sup>1</sup>

### #4

in Australia for Media and Communication<sup>1</sup>

### #5

in Australia for the actions we've taken to tackle the world's greatest environmental, social and governance challenges<sup>3</sup>

### Top 10

in Australia for Computer Science and Information Systems<sup>1</sup>

### Top 10

in Australia for Civil and Structural Engineering, Electrical and Electronic Engineering, and Mechanical Engineering<sup>1</sup>

### 3,000+

scholarships awarded to our students in 2023

### 19,730

RMIT students undertook work-integrated learning activities with 3,735 unique global industry partners in 2023<sup>4</sup>

### 91,548

students from 196 different countries studying with RMIT

### \$2.56M

allocated by RMIT Activator to more than 140 startups since 2015

### Largest

dual-sector university in Australia

### Global leader in sustainability

The 2023 Times Higher Education University Impact Rankings recognised RMIT as the top university globally for its impact towards multiple sustainable development goals, including reducing inequalities, supporting decent work and economic growth. RMIT also ranks equal second globally for partnering to achieve sustainable development goals.

### Informed by industry

Many of RMIT's programs are taught by experts with years of experience in the field. Our courses are also shaped in consultation with specialised Industry Advisory Boards who ensure that our students learn the skills employers are looking for – today and tomorrow.

### Champion of inclusion

RMIT offers 15 unique scholarships for women students and for women in STEM, with 93 recipients in 2023. RMIT's Equity Access Schemes help women, trans and gender diverse applicants attain entry to RMIT programs in which they are underrepresented.

RMIT also offers equity scholarships for students experiencing financial hardships, disabilities and long-term medical conditions, and other circumstances that impact their study.

### Forefront of innovation

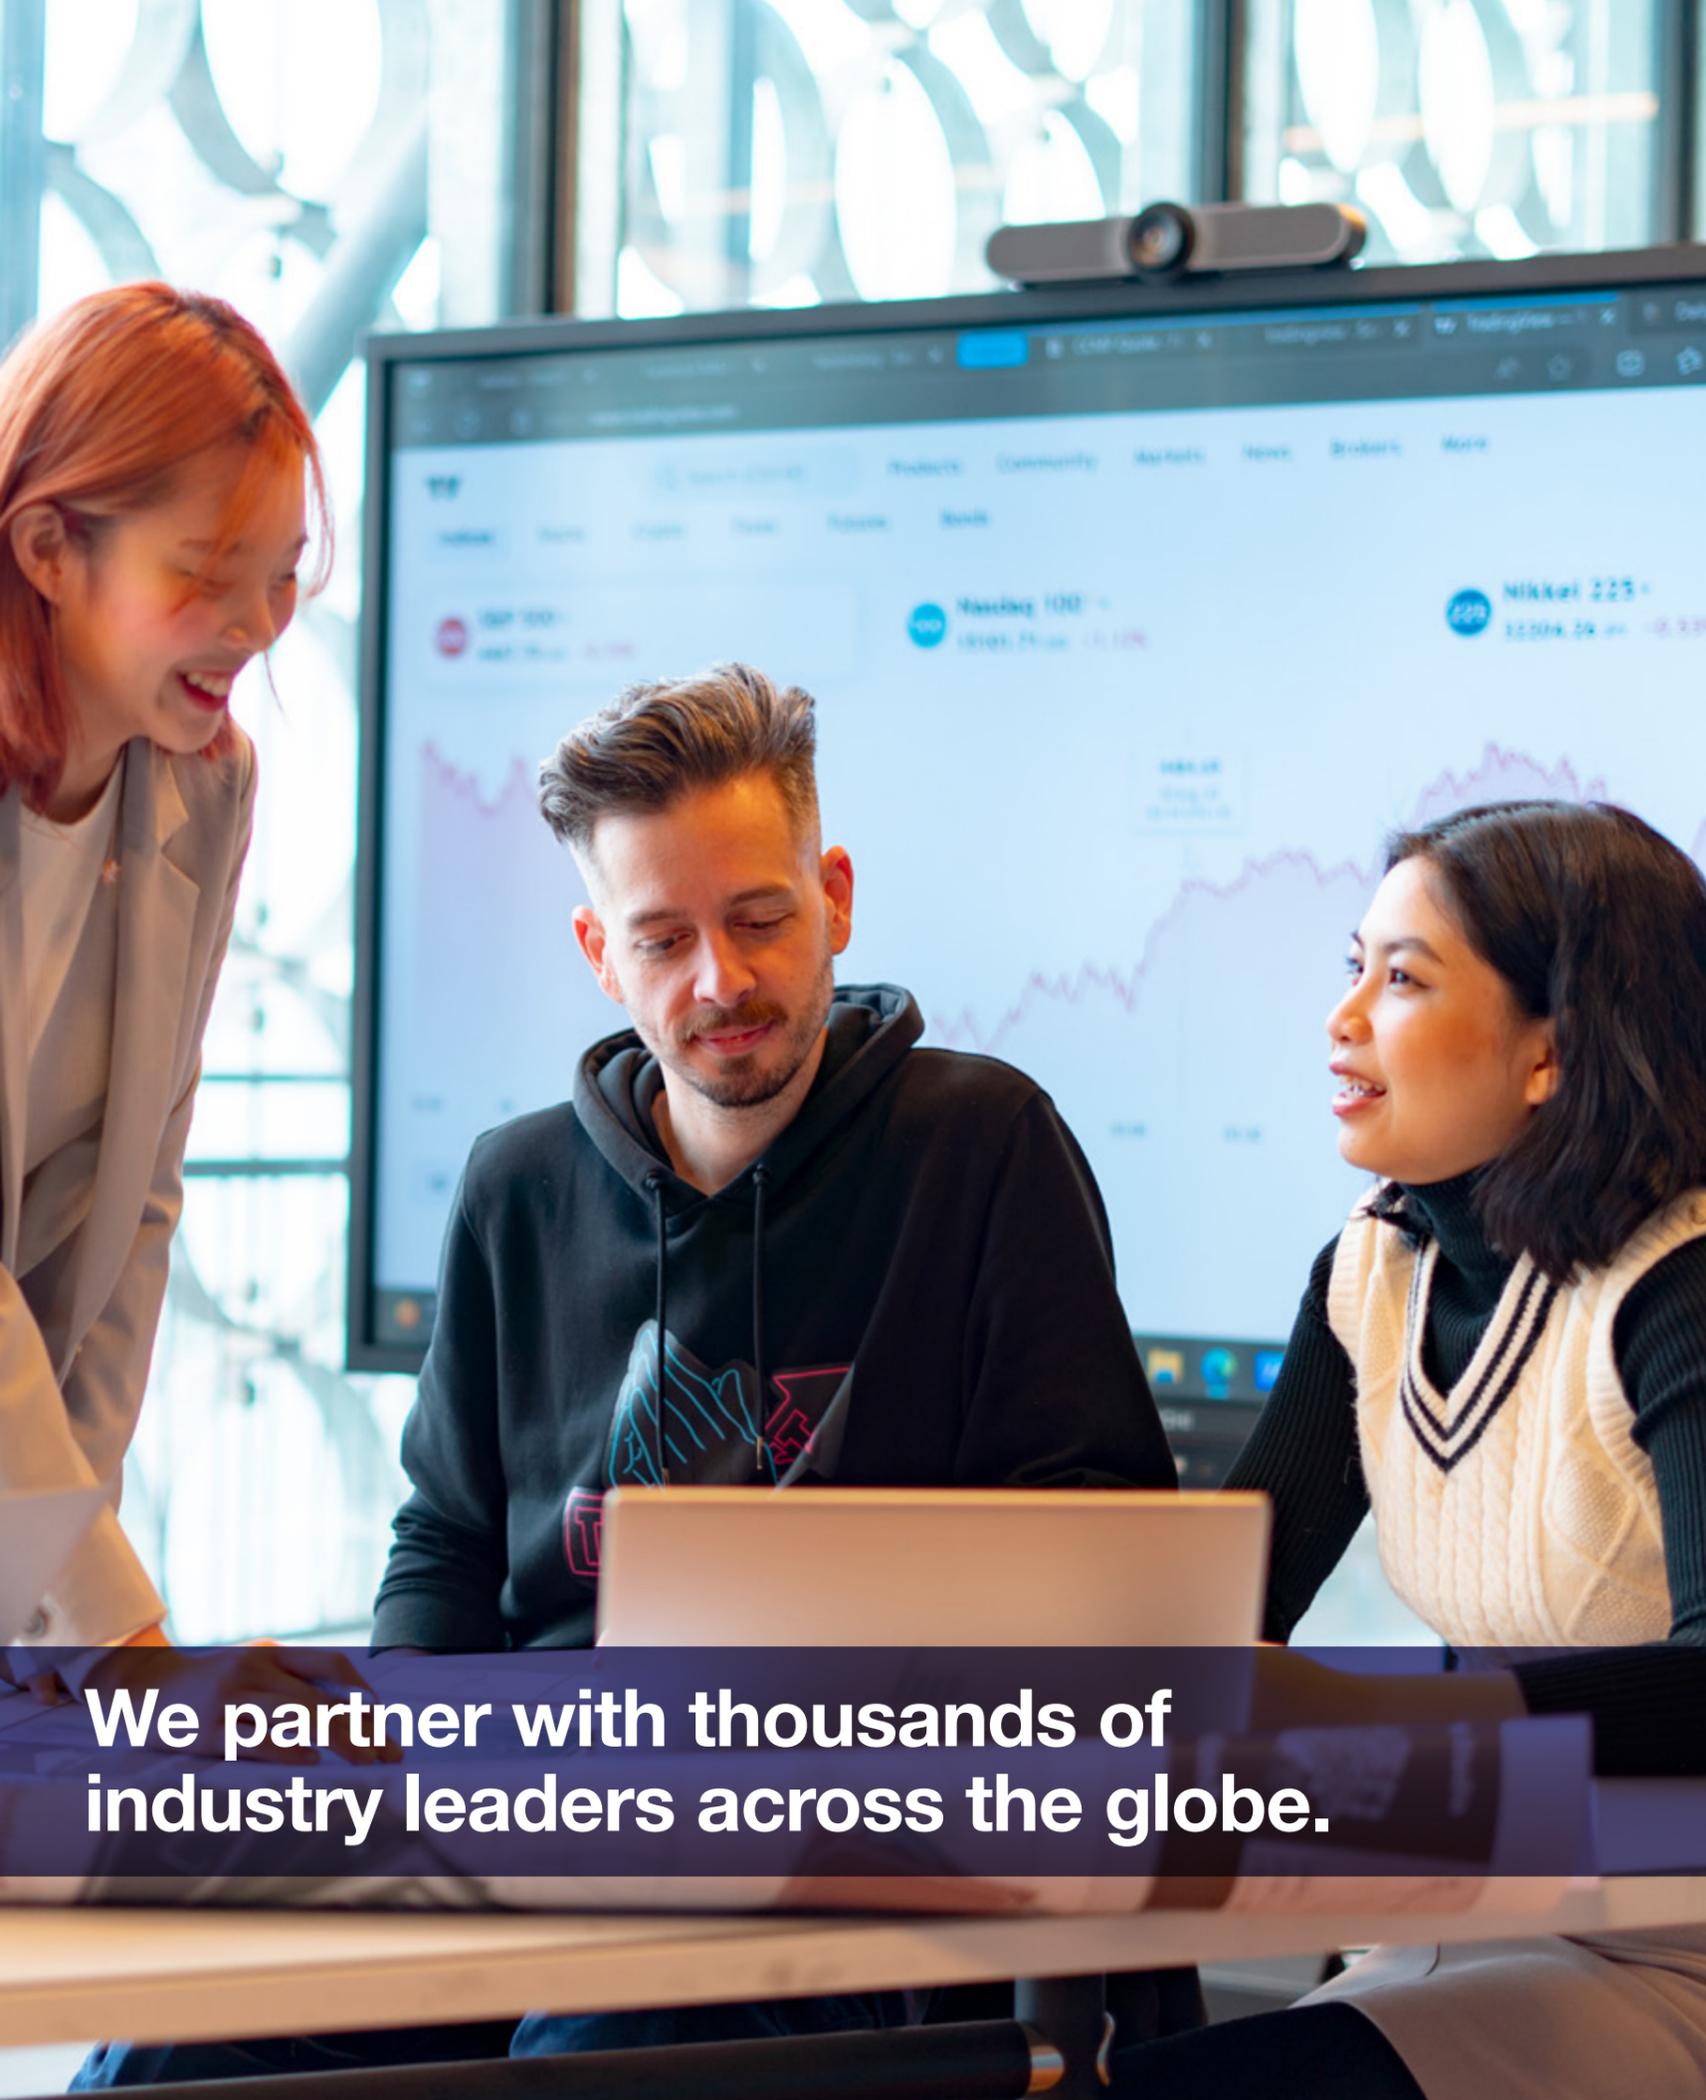

RMIT teaches programs that help students gain skills for the future of work, including roles that don't yet exist. In 2023 alone, RMIT introduced programs, short courses and co-designed initiatives across areas such as cyber security, conversational AI, disability and aged care, games design and aviation.

<sup>3</sup> QS Sustainability Rankings 2023

<sup>4</sup> RMIT InPlace data, as of January 2024

**We partner with thousands of industry leaders across the globe.**

## Industry partners

Connection to industry is proudly woven into RMIT's history. As a student, you'll build connections to your future employers while you learn, so you're ready to launch your career when you graduate.

### RMIT partners with industry in four key areas:

- **Learning that puts theory into practice**  
You'll gain résumé-worthy work experience at RMIT, from projects to internships, placements and global exchanges.
- **Teaching that's ahead of the curve**  
Our courses are taught by professionals with years of experience in your field. Course curriculums are also shaped alongside industry to ensure they stay ahead of workforce trends.
- **Mentoring that helps launch your career**  
RMIT Mentoring is a service for our students and fresh graduates, allowing you to get one-on-one career guidance from an experienced mentor.
- **Research that changes the world**  
As a research student, you could get involved in large, complex and multidisciplinary research projects by working with our industry, government, university and community partners.

# Explore our locations

Our award-winning locations are home to a thriving student population. They are constantly evolving and expanding to meet the needs of our students and of modern university life.

## Melbourne

Situated in the very heart of the CBD, the City campus has been an iconic part of the Melbourne skyline for more than 130 years.

## Bundoora

Situated in the north of Melbourne, the leafy Bundoora campus is home to many of RMIT's education, biomedical, health and science courses.

## Vietnam

Study abroad at RMIT Vietnam and experience an unforgettable semester in Asia. Our urban Hanoi campus and clean, green Ho Chi Minh campus offer expansive study spaces and student environments.

## Brunswick

Our Brunswick campus is a creative and multicultural hub. It is home to many of RMIT's design courses, including fashion, textiles, graphic and industrial design.

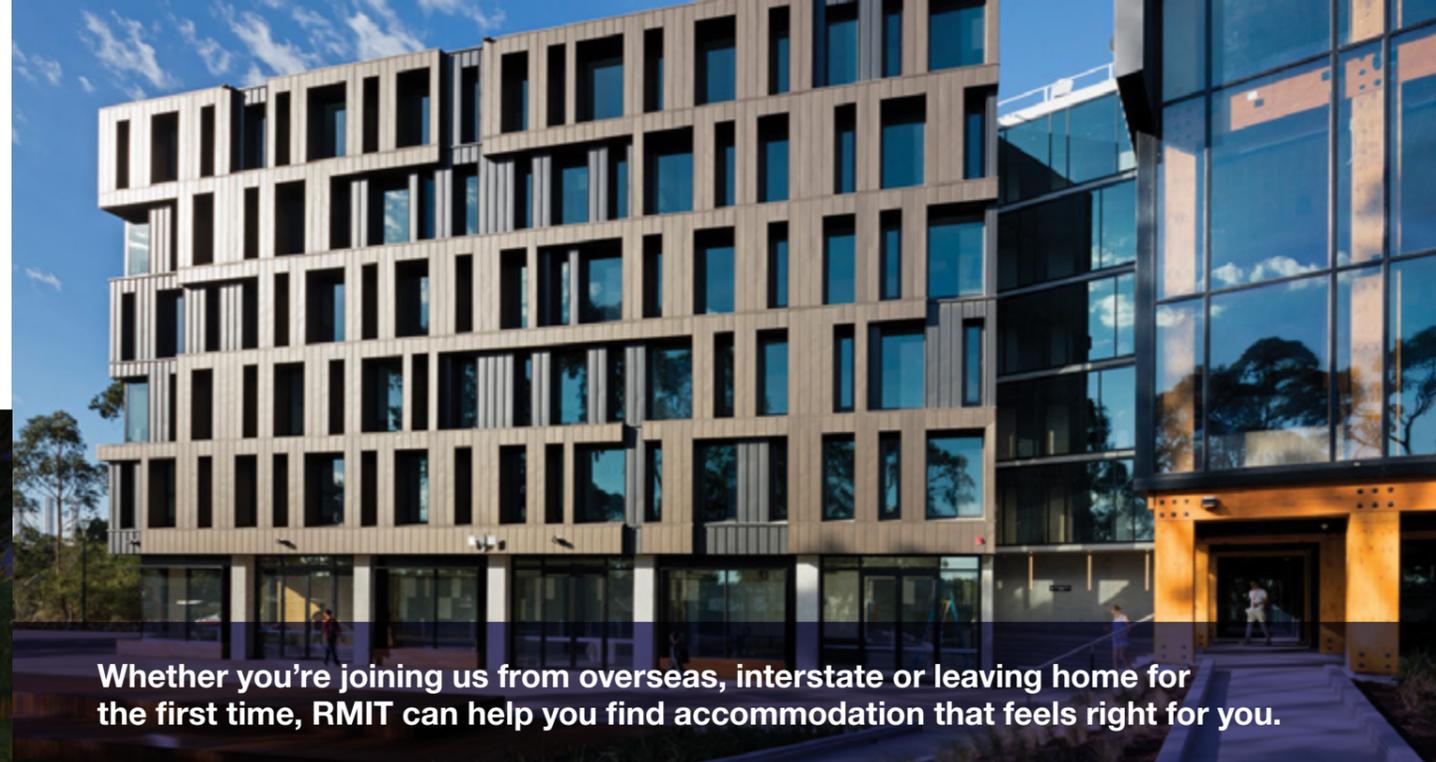

## Aviation Centres

Our Point Cook and Bendigo aviation centres provide easy access to airspace, terrain and urban development to maximise navigational experiences.

## Europe

Opportunities exist for students to engage with our European centre in Barcelona through study tours, internships and research, as well as online opportunities including industry projects, mentoring and guest lectures.

Whether you're joining us from overseas, interstate or leaving home for the first time, RMIT can help you find accommodation that feels right for you.

# Accommodation

## Purpose-built student accommodation

Want to live somewhere fully furnished, reasonably priced and with other students? RMIT has selected a number of student apartments, located close to the City, Bundoora and Brunswick campuses, that meet our quality standards.

Alternatively, if you'd like to have RMIT right on your doorstep, UniLodge at our Bundoora campus provides state-of-the-art student accommodation with a range of self-contained apartments or studios to choose from.

Many accommodation providers offer scholarships to help students with accommodation costs.

To view our recommended accommodation options and explore accommodation scholarships, visit [rmit.edu.au/accommodation](http://rmit.edu.au/accommodation)

## Renting and sharing

You can rent a house, apartment or studio in Melbourne through a real estate agent or private landlord. Here are just a few places to look for private rentals:

- [view.com.au](http://view.com.au)
- [realestate.com.au](http://realestate.com.au)
- [realestateview.com.au](http://realestateview.com.au)
- [domain.com.au](http://domain.com.au)
- [studentaccommodationone.com](http://studentaccommodationone.com)

## Shared accommodation

Shared accommodation is a popular choice for students looking for reduced living expenses and the opportunity to meet new people.

Students looking for an existing household can find advertisements on shared accommodation websites, but it is important to inspect rooms and meet all the people you may be sharing with before moving in.

- [gayshare.com.au](http://gayshare.com.au)
- [flatmatefinders.com.au](http://flatmatefinders.com.au)
- [realestate.com.au](http://realestate.com.au)
- [sharehouses.com.au](http://sharehouses.com.au)

## Need help with housing?

Student Welfare Advisors at Student Connect can help you with:

- information on housing options that suit your budget
  - advice on rental and tenancy issues
  - information about moving in and out of your property
  - advice on finances, housing, welfare and Centrelink
  - referrals to support services
- [rmit.edu.au/support-housing](http://rmit.edu.au/support-housing)

Explore your accommodation options

# Global experiences

RMIT has partnerships with more than 200 universities around the world. From international study opportunities to overseas work placements, you'll gain invaluable life and work experience through our network of global partners.

# Life at RMIT

Whether you're sporty, creative or just curious, RMIT's clubs, collectives, events and trips will help you meet people, make connections and discover more of Melbourne.

## Student clubs and communities

From cheerleading to chess, fashion to futsal – whatever you're into, RMIT has a club or society for you.

We have more than 160 student-run clubs that engage more than 15,000 students and alumni, so whether you're chasing adventure, want to meet new people, build new skills, or just do more of something you love – RMIT has the perfect group for you.

## Campus life

Uni is about so much more than just going to class. Engaging in campus life is one of the best ways to make life-long friends, get healthy and grow, both personally and professionally.

At RMIT, there are hundreds of weekly events for students across all campuses, with free food, music and entertainment. You can unleash your creativity with our public art trails or collaborative art projects, get active with our social sports and excellent fitness facilities, or go on a group trip and visit somewhere you've never been before!

## Student exchange programs

Spend an unforgettable semester or two at one of RMIT's 200+ partner institutions.

## Study tours

Join fellow students on a two to four-week trip to the Americas, Asia or Europe under the leadership of an RMIT academic.

## Global leadership programs

Develop your own leadership style and enhance your cultural intelligence with a range of free programs offered in Melbourne and across Asia.

## Study at RMIT Vietnam

Study at RMIT Vietnam's Ho Chi Minh City or Hanoi campuses for up to a year.

## Study with RMIT in Asia

Study part of your degree at RMIT's joint teaching partners, including: Singapore Institute of Management, Shanghai University of International Business and Economics, Hong Kong Arts School and VTC Shape.

## Industry experience

As an RMIT student, you can access work-integrated learning, volunteer opportunities, internships, leadership training and research programs around the world.

## Kirrip at RMIT

Starting uni can be daunting, especially if you're new to Melbourne, so our Kirrip program is designed to help you settle in and make friends.

'Kirrip' means 'friend' in the Woi wurrung language of the Wurundjeri people, one of the Traditional Owners of Naarm (Melbourne), and RMIT has a large number of Kirrip stewards (existing students) who can answer your questions and show you around. Connect online or in person.

## Melbourne Experiences

From coffee tours and gallery visits to big sporting events, our Melbourne Experiences program is ideal for those who want to discover more of Melbourne and meet people in a small group.

These experiences are led by friendly and helpful Kirrip stewards and serve as a great starting place to expand your university social network and feel comfortable in your new city.

Explore life at RMIT

## Get future ready

Find a job, plan your career and check out all the opportunities for work and study at RMIT.

### Job Shop

RMIT's Job Shop is your drop-in service centre for all things career-related. Job Shop offers services such as:

- help finding and applying for casual, part-time and graduate jobs
- free résumé and cover letter workshops
- industry events and networking sessions
- one-on-one career consultation appointments
- course or program advice

In 2022, the Job Shop at RMIT was awarded the Most Popular Career Service by the Australian Association of Graduate Employers (AAGE) at the Graduate Recruitment Industry Awards (AGRIA).  
[rmit.edu.au/jobshop](https://rmit.edu.au/jobshop)

### RMIT Creds

RMIT Creds are a suite of micro-credentials that help develop your skill set beyond your area of study. These credentials have been co-designed with industry to ensure you're ready for the changing world of work. They cover subjects such as digital literacy, leadership, sustainability, innovation, collaboration and communication.

Most Creds are available online and are short in duration, ranging from 60-minute snippets to several hours of learning. After you complete a Cred, you can claim a digital badge, which is a verified certification and a great way to communicate your achievements. You publish and manage your badge using Credly, RMIT's credentialing platform partner. From there you can share your badge with peers, clients, employers or on social networks such as LinkedIn.

[rmit.edu.au/creds](https://rmit.edu.au/creds)

### RMIT Activator

Activator is RMIT's home of entrepreneurship. Its workshops, online learning and startup programs position students to solve the biggest problems out there and take on the future of work.

At Activator, you can access mentors, attend masterclasses, request business coaching, apply for funding and learn the enterprise skills you need to support your ideas.

No matter what your future looks like, plug into Activator's ecosystem of entrepreneurs, intrapreneurs, startup founders and innovators and let it help you on your journey to success.

[rmitactivator.edu.au](https://rmitactivator.edu.au)

### Future Edge employability program

Future Edge is a flexible, co-curricular program designed to help you to identify and achieve your career goals. You can complete the program at your own pace, and it will complement your time at RMIT by helping you to build the transferable skills that employers look for.

Through Future Edge, you will be supported to:

- design a personalised plan that outlines your goals and areas for development
- build your skills and experiences by engaging in workshops, industry events, global experiences, volunteering, part-time work and more
- learn how to communicate your skills and experiences to employers

[rmit.edu.au/future-edge](https://rmit.edu.au/future-edge)

### Work-integrated learning (WIL)

WIL is an activity where you apply your academic learning in a real-life situation with an industry or community partner.

Higher education and vocational education students can complete a WIL activity, which is formally assessed for credit towards your qualification. The type of WIL activities you undertake will depend on your program and study discipline, and can occur on or off campus. They may be:

- work placements such as clinical placements, internships or field education or professional practices
- projects with industry and community-based organisations
- art projects with exhibitions

WIL simulations are activities where you practise using technology, equipment or activities that are not possible to complete in an industry setting, e.g. moot courts.

## Support services

RMIT's support services and networks are there to help you succeed at university, while ensuring you stay healthy and happy. They will support you through every step of your journey with RMIT.

### Equitable learning and disability support

We aim to support and create equal opportunities for students with a disability, mental health condition, long-term illness and/or neurodivergence and neurological conditions. Services provided may include study adjustments, assistive technology and enabling support staff (Auslan interpreters, notetakers, participation assistance etc.)

[rmit.edu.au/student-support-ELS](https://rmit.edu.au/student-support-ELS)

### Counselling

Counselling at RMIT offers students a safe, friendly and confidential environment to seek help. Whether you're struggling with personal issues, mental health, or you just have something you want to talk through, we offer counselling in person or online.

[rmit.edu.au/student-support-counselling](https://rmit.edu.au/student-support-counselling)

### Financial assistance

Student Welfare Advisors at Student Connect can provide advice on a wide range of financial matters including personal budgeting and issues relating to government payments. You can also speak with them about one-off and short-term emergency support and financial assistance.

[rmit.edu.au/students/support-services/financial-legal-support/financial-welfare-advice](https://rmit.edu.au/students/support-services/financial-legal-support/financial-welfare-advice)

### Safer Community

At RMIT, we are committed to providing a respectful and safe place to study. If you are feeling unsafe or unsure of what to do about threatening or unwanted behaviour, including sexual harassment or family violence, you can talk to a member of Safer Community about your concerns and options, even if the behaviour happened off campus.

[rmit.edu.au/safercommunity](https://rmit.edu.au/safercommunity)

Email us: [safercommunity@rmit.edu.au](mailto:safercommunity@rmit.edu.au)

Call us: 03 9925 2396

### Support for Aboriginal and/or Torres Strait Islander students

The Ngarara Willim Centre is a place at RMIT for Aboriginal and/or Torres Strait Islander students to engage with their education and to be supported and encouraged throughout their studies. The team offers ongoing guidance with study, living and cultural needs while you reach your potential.

[rmit.edu.au/students/support-services/indigenous](https://rmit.edu.au/students/support-services/indigenous)

### Chaplaincy

The Chaplaincy provides compassionate help and spiritual support for all students, whatever their religious beliefs may be. We offer quiet spaces and a listening ear, and we welcome you to join us for one of our many multi-faith events.

[rmit.edu.au/student-support-chaplaincy](https://rmit.edu.au/student-support-chaplaincy)

### Legal support

RMIT Student Legal Service offers free, confidential legal advice to students. We can advise on issues such as renting, employment, fines, criminal law, debts, motor vehicle accidents, your safety, your consumer rights and more.

[rmit.edu.au/student-support-legal](https://rmit.edu.au/student-support-legal)

### SafeZone

Your safety is our priority at all times. To help you feel safe on campus, download SafeZone, a free app that is available for any smartphone. SafeZone allows you to instantly access support and help if you need it. It includes an emergency alert button, instant help calls to campus security and a first aid request button.

[rmit.edu.au/safezone](https://rmit.edu.au/safezone)

# Unscored VCE and VCE Vocational Major

If you are an unscored VCE student or a VCE Vocational Major (VCE VM) student, you might find yourself wondering how to get into university without an ATAR.

At RMIT, pathways and vocational study are great places to start.

## Pathways

If you have completed an unscored VCE or VCE VM, don't have the prerequisite subjects you need, or didn't get the results you were hoping for, one of your options is a pathway into university.

Pathways usually involve studying a vocational course or associate degree before using the credits from your completed or partially completed studies to transfer to your dream undergraduate degree.

## Vocational study

If you have completed an unscored VCE or VCE VM, you are eligible to apply for RMIT's vocational study options (also known as TAFE). Some of these courses may look at your ATAR as part of selection; however, those who have completed VCE VM or are unscored VCE students are eligible to apply.

As the largest dual-sector university in Australia, RMIT offers different types of vocational study that help you gain hands-on experience for your future career.

## Discover vocational study options

### Certificate II and pre-apprenticeships

A Certificate II, also known as a pre-apprenticeship, is designed to help you gain the practical experience to start a building or trades apprenticeship. If you choose to progress into a Certificate III, that's where you'll get fully qualified.

### Apprenticeships and traineeships

Apprenticeships and traineeships combine training and employment. At RMIT they're available across many study areas, from textiles to engineering, at both the certificate and diploma levels of study.

### Certificates III and IV

Certificates are a great place to start gaining hands-on knowledge in your field. Through a certificate, you can gain job-ready skills in as little as six months. Certificates can also open pathways to further study at RMIT.

### Diplomas and advanced diplomas

Diplomas and advanced diplomas help you gain specialised knowledge to work in skilled or paraprofessional areas. Diplomas and advanced diplomas can also open pathways to further study at RMIT.

## Pathways

The traditional path to university isn't the only one. Pathways provide opportunities for students to access undergraduate study by first studying one of our many vocational courses.

### Guaranteed Pathways

Also known as pathway packages, Guaranteed Pathways enable you to preference your pathway course and dream degree at the same time in VTAC. That means:

- you don't need to reapply for your dream degree upon completion of your pathway course – just preference the pathway package in VTAC
- after you complete your pathway course and undergraduate degree, you'll graduate with two qualifications!

### Vocational education pathways

RMIT's certificates, diplomas and advanced diplomas help you gain the practical skills you need for excellent job prospects. They also provide credit towards RMIT degrees, with some courses providing up to two years' credit towards a bachelor's degree.

### Associate degree pathways

An associate degree is a two-year university course that gives you a strong grounding in your field. Many of RMIT's associate degrees allow you to transfer into one of our related bachelor's degrees with credit. This can reduce the time it would take for you to complete both undergraduate degrees.

### Formal and informal pathways

Formal pathways are recognised by RMIT, meaning the credits for your vocational and associate-level study are pre-approved. You can find formal pathways into your program through RMIT's Pathways Finder or under the 'Pathways' section on the program page.

Some programs don't have any formal pathways – but you still have options for alternative entry through informal pathways! You can create your own pathway, which involves starting another similar course before applying for your desired one. There are often specific subjects you can take in your starting course that count for additional credits, so be sure to ask our Study@RMIT team about your options.

## Early Offer program

Use your extracurricular experience to secure an early spot in your dream course at RMIT.

RMIT's Early Offer program considers your hobbies, weekend projects and interests alongside your ATAR.

From captaining your footy team to building your own website, your experience can enable you to be accepted into your course on a lower ATAR, taking some of the pressure off your final year at high school.

It's part of RMIT's commitment to diversity and equitable learning, and it means you'll get your conditional uni offer before your final exams.

- Browse Early Offer courses and learn how to apply through our website
- Submit an application during the key application period
- Add your Early Offer course to your VTAC preferences
- Successful applicants will receive a conditional Early Offer!

Discover the Early Offer program

Use the Pathways Finder

Learn more about vocational study

You don't need to have all the answers about your future by the end of Year 12. At RMIT, there are lots of ways to transfer between courses, but here are some tips to find a starting point in the course selection process.

# How to choose your course after high school

## Understand what's important to you in a job or career

You might not know what career you want but are certain you'd like to get a job straight after graduating. How important to you are factors such as flexibility creativity, stability, enjoyability, salary and global opportunities?

## Ask yourself what you're curious about

You might be curious about specific career paths and what they involve, such as engineering. Alternatively, your curiosity might be related to broader questions such as "What goes into creating a video game?"

## Consider your favourite subjects at school

If none stand out, think about specific classes you've enjoyed and why. For example, you might find VCE Business Management difficult as a whole subject, but really enjoyed the classes where you learned how businesses are planned and started. University courses are much more diverse than school subjects – at RMIT, you could study anything from artificial intelligence to footwear design!

## Think about what you're good at

Your hobbies and interests are big clues for course selection because they reflect what you enjoy and are good at. For example, if you're a debating captain, your strengths might be in communication, leadership and advocacy.

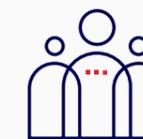

# What are you interested in?

You like **to design, create, express yourself and explore new ideas**

### You might like to explore

- Art
- Architecture
- Communication
- Design
- Fashion
- Media

You like **working with people, and you're passionate about protecting their welfare and future**

### You might like to explore

Discover our courses, designed to help build your dream career

Preparing for university is an adjustment for the whole family. RMIT is committed to supporting parents and guardians through all the big decisions, exciting opportunities and proud moments.

## Information for parents and guardians

### Supporting your Year 9 or Year 10 child

Year 9 and 10 is when your child will start being exposed to their future study options. Their interests and strengths may become clearer as they consider VCE subject selection.

Attend Open Day with your Year 9 or 10 child to become familiar with:

- VCE subject selection, which generally occurs later in Year 10
- prerequisites, also known as the VCE subjects your child needs to complete to enter some courses
- the differences between high school and tertiary study

### Supporting your Year 11 child

In Year 11, your child will start their VCE subjects, also known as VCE Units 1 and 2. This may be when they start obtaining the prerequisites they need for their future university course.

Attend Open Day with your Year 11 child to become familiar with:

- how ATARs, unscored VCE and VCE Vocational Major work
- the differences between tertiary study options, such as vocational and undergraduate courses
- how your child can get a head start at university through the RMIT Extension program

### Supporting your Year 12 child

Year 12 is when your child completes their VCE, VCE Vocational Major or International Baccalaureate. It's normal for both of you to experience mixed emotions in their final year of schooling, but staying informed is the key to navigating big decisions together.

Attend Open Day with your Year 12 child to become familiar with:

- Pathways
- Change of Preference
- RMIT's Early Offer program, Schools Network Access Program and other alternative entry methods that could help your child get into their course with a lower ATAR
- RMIT's Equitable Learning Services for students with disabilities, long-term illnesses or mental health conditions
- your child's future lecturers, facilities, career outcomes and hands-on opportunities
- any selection tasks your child will need to complete for their course

More information for parents and guardians

### Guiding your child through their high school journey

The below guide outlines examples of the steps your child may start from Year 9, using VTAC domestic student dates as a guideline.

#### Year 9 or earlier

Learn about prerequisites

#### Year 10

Decide between VCE and VCE VM, and select VCE subjects if applicable

#### Year 11

Start VCE or VCE VM

#### Year 12 and beyond

Select VTAC preferences and pay VTAC fees in September

Complete VCE exams in October and November

VTAC releases ATARs and VCE results in December

Change of Preference starts in December

VTAC releases offers in December, January and February

Accept and enrol before the deadlines outlined in the offer letter

### University

Welcome to RMIT!  
Classes start in February

### Did you know?

Prerequisites ensure your child will be able to understand topics in their course at RMIT.

Knowing the prerequisites for a course can indicate whether it will suit your child's interests and strengths. For example, if your child is passionate about helping people and wants to study nursing at RMIT, but doesn't want to complete the VCE mathematics prerequisite, this is good encouragement to explore areas such as social work or community services instead.

# 3,000+

new scholarships awarded to our students in 2023, including:

# 1,750+

scholarships awarded to financially disadvantaged students

# 330+

scholarships awarded to students with a long-term medical condition or disability

# 280+

scholarships awarded to Indigenous students

# 240+

scholarships awarded to current or former refugees

# 220+

scholarships awarded to students in specific disciplines

# 130+

accommodation scholarships awarded to assist students from rural, regional or interstate locations

## Scholarships, access and equity

**RMIT is committed to enriching and transforming the lives of our students. To make our courses more accessible to students of all backgrounds, we offer more than 3,000 scholarships every year.**

RMIT offers scholarships for:

- access and equity
- Aboriginal and Torres Strait Islander students
- asylum seeker students
- academic achievement
- discipline-specific learning
- accommodation
- travel

Learn more about RMIT's scholarship programs and how you can apply at [rmit.edu.au/scholarships](https://rmit.edu.au/scholarships)

### Access and equity

RMIT Access and VTAC's Special Entry Access Scheme (SEAS) will take into consideration disadvantages and circumstances that may have impacted your academic performance.

Eligible applicants can receive an adjustment to the calculation of their selection rank, which can increase their chances of receiving an offer.

To apply for equity consideration, you must be:

- applying to study a certificate IV, diploma, advanced diploma, associate degree or undergraduate degree, and
- an Australian or New Zealand citizen, or
- an Australian permanent resident, or
- an Australian permanent humanitarian visa holder, or
- a person seeking asylum.

Individual equity access schemes have their own eligibility criteria.

[rmit.edu.au/equity-access](https://rmit.edu.au/equity-access)

Explore our equity access schemes

Explore our scholarships

## Fees

### Associate, bachelor's and honours degree tuition fees

#### Commonwealth Supported Places (CSP)

A Commonwealth Supported Place (CSP) at university means your tuition fee is jointly paid by you and the Australian Government.

Your share of the fee (student contribution) is set by the government and determined by the discipline area (band) of your individual enrolled subjects, not the overall program.

The below table indicates what your annual fee would be for a commencing enrolled student in a full-time study load in 2024 (if you enrolled in subjects from a single band).

[rmit.edu.au/fees-local](https://rmit.edu.au/fees-local)

#### Commonwealth assistance (HELP loans)

As a CSP student, you may be eligible to apply for a HECS-HELP loan, which can be used to defer payment of your student contribution to the Australian Tax Office up to your HELP limit.

For more information and to check your eligibility, visit [studyassist.gov.au](https://studyassist.gov.au)

Student contribution band by course (subject)	Maximum annual student contribution amount (per EFTSL) in 2024
Education, Postgraduate Clinical Psychology, English, Mathematics, Statistics, Nursing, Indigenous and Foreign Languages, Agriculture	\$4,445 per standard year \$555 per standard (12 credit point) course
Allied Health, Other Health, Built Environment, Computing, Visual and Performing Arts, Professional Pathway Psychology, Professional Pathway Social Work, Engineering, Surveying, Environmental Studies, Science, Pathology	\$8,948 per standard year \$1,118 per standard (12 credit point) course
Dentistry, Medicine, Veterinary Science	\$12,720 per standard year \$1,590 per standard (12 credit point) course
Law, Accounting, Administration, Economics, Commerce, Communications, Society and Culture	\$16,323 per standard year \$2,040 per standard (12 credit point) course

### Certificate, diploma and advanced diploma tuition fees

If you enrol in one of RMIT's vocational education courses, how much you'll pay will depend on whether you're offered a Victorian Government subsidised place or a full-fee paying place.

#### Subsidised places

You will be offered a government-subsidised place if you meet the eligibility criteria based on your citizenship, age, state of residence and educational history.

#### Free TAFE

RMIT offers certificates and diplomas that are part of the Victorian Government's Free TAFE program, featuring no tuition fees for eligible students.

[rmit.edu.au/free-tafe](https://rmit.edu.au/free-tafe)

#### Full-fee places

If you don't meet the criteria for a government-subsidised place, you'll be offered a full-fee place.

#### Other fees

In addition to tuition fees, you will be charged a student services and amenities fee. You may also be required to purchase items related to your course. For more information, visit

[rmit.edu.au/programs/fees/other](https://rmit.edu.au/programs/fees/other)

Explore fee information

#### Fee concession

The government subsidises student fees in select courses. If you meet the eligibility criteria, you may be able to access a 'fee concession'.

[rmit.edu.au/programs/fees/vocational](https://rmit.edu.au/programs/fees/vocational)

#### VET student loans

RMIT students enrolled in approved courses at the diploma level or above can access the Australian Government's VET student loan program for fee support.

For more information and to check your eligibility, visit [dewr.gov.au/vet-student-loans](https://dewr.gov.au/vet-student-loans)

#### Fee refund

For information on how to apply for a refund as a domestic student, visit

[rmit.edu.au/students/my-course/fees-loans-payments/fee-refunds](https://rmit.edu.au/students/my-course/fees-loans-payments/fee-refunds)

For more information, visit [rmit.edu.au/architecture](https://rmit.edu.au/architecture)

Take risks, engage with new technologies and explore the implications and possibilities of design through architecture, landscape architecture and interior design at RMIT.

Through project-based learning, you will develop a rich understanding of design and build a diverse set of skills that you'll use throughout your career, including visual communication, drawing, 2D and 3D design and problem-solving.

# Architecture

## Study at a top-ranked university

RMIT is ranked #2 in Australia and #25 in the world for studies in Architecture and the Built Environment.<sup>1</sup>

## Learn from award-winning architects

We are renowned for longstanding links with industry through our teaching staff, many of whom are award-winning architects, landscape architects and interior designers.

## Start designing from day one

You'll learn in hands-on workshops and build industry experience with design studios offered by leading local and international design practices.

<sup>1</sup> QS World University Rankings by Subject 2023

## Architecture

### Bachelor of Architectural Design

RMIT Architecture has an international reputation for design excellence. From your very first semester, you will be immersed in hands-on creative studios developing advanced design skills and a rich understanding of the built environment.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

#### ATAR

Range of criteria

- BP250
- City
- 3 years
- Selection task
- VTAC** 3200332731

### Advanced Diploma of Building Design (Architectural)

This hands-on course focuses on the practical and technical application of building design skills. You'll explore several techniques from freehand drawing to digital design as you learn about the presentation, documentation and architectural workflow processes for building projects. Graduates of this course may be eligible for exemptions for the Bachelor of Architectural Design, subject to meeting the course entry requirements (which include a folio and interview).

#### Prerequisite

There are no prerequisite subjects required for entry into this qualification.

#### ATAR

Not applicable

- C6188
- City
- 2 years
- VTAC** 3200372034

**NCC** 22627VIC

#### Pathway options

- **Cert IV in Design** (0.5 years) plus **Adv Dip of Building Design (Architectural)** (2 years) = 2.5 years' total study

## Interior design

### Bachelor of Interior Design (Honours)

In this ideas-led design course, you will focus on the dynamic relationship between people and the environment, exploring the potential and future of interior design as a practice. Different interiors are considered, including architectural, retail, exhibition and urban environments; digital and filmic spaces; performance and theatre design; art installations; and more.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

#### ATAR

Range of criteria

- BH115
- City
- 4 years
- Selection task
- VTAC** 3200332691

#### Guaranteed pathways

- **Assoc Deg in Interior Decoration and Design** (2 years) plus **Bachelor of Interior Design (Honours)** – Semester 1 entry to BH115 (additional 3 years, some semesters at a reduced load) = 5 years' total study
- **Adv Dip of Building Design (Architectural)** (2 years) plus **Bachelor of Interior Design (Honours)** – Semester 1 entry to BH115 (additional 3 years, some semesters at a reduced load) = 5 years' total study

#### Other pathways

- **Dip of Interior Design** (2 years) plus **Bachelor of Interior Design (Honours)** – Semester 1 entry to BH115 (additional 3 years) = 5 years' total study
- **Cert IV in Interior Decoration** (1 year) plus **Dip of Interior Design** (2 years) plus **Assoc Deg in Interior Decoration and Design** (additional 1 year) plus **Bachelor of Interior Design** (3 years, some semesters at reduced load) = 7 years' total study

### Associate Degree in Interior Decoration and Design

Develop specialised knowledge and skills to explore and deliver unique design solutions for a broad range of interior concepts. Graduates may work across a range of commercial and residential interior design offices and boutique design and decoration consultancies.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 20 in English other than EAL or at least 25 in English as an Additional Language (EAL).

#### ATAR

Range of criteria

- AD020
- City
- 2 years
- Selection task
- VTAC** 3200333541

#### Pathways options

- **Dip of Interior Design** (2 years) plus **Assoc Deg in Interior Decoration and Design** (additional 1 year) = 3 years' total study
- **Cert IV in Design** (0.5 year) plus **Dip of Interior Design** (2 years) plus **Assoc Deg in Interior Decoration and Design** (additional 1 year) = 3.5 years' total study
- **Cert IV in Interior Decoration** (1 year) plus **Dip of Interior Design** (2 years) plus **Assoc Deg in Interior Decoration and Design** (additional 1 year) = 4 years' total study

### Diploma of Interior Design

This practical course will teach you 2D and 3D design skills, with an emphasis on the decorative elements of design. You'll develop documentation and technical skills in order to present your ideas to residential and commercial clients in a professional brief.

#### Prerequisite

There are no prerequisite subjects required for entry into this qualification.

#### ATAR

Range of criteria

- C5431
- City
- 2 years
- Selection task
- VTAC** 3200310034

**NCC** MSF50222

#### Pathways options

- **Cert IV in Design** (0.5 year) plus **Dip of Interior Design** (2 years) = 2.5 years' total study
- **Cert IV in Interior Decoration** (1 year) plus **Dip of Interior Design** (2 years) = 3 years' total study

### Certificate IV in Interior Decoration

This course is your entry into the field of interior design and decoration. Plan, design and decorate an interior with a focus on the development of the project's aesthetic, environmental and spatial aspects, as well as your client presentation skills.

#### Prerequisite

There are no prerequisite subjects required for entry into this qualification.

#### ATAR

Not applicable

- C4431
- City
- 1 year full-time
- Selection task
- VTAC** 3200310874

**NCC** MSF40122

## Landscape architecture

### Bachelor of Landscape Architectural Design

Landscape architectural design at RMIT equips you with the skills and knowledge to design outdoor environments, from beautiful gardens to liveable urban open spaces and thriving rural landscapes. You will engage with the challenges of urbanisation such as water, energy and food security, as well as ensuring equitable access to transport, work, leisure, health and happiness. Landscape architectural designers work to improve the lives of everyone.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

#### ATAR

Range of criteria

- BP256
- City
- 3 years
- Selection task
- VTAC** 3200332101

#### Pathways options

- **Dip of Conservation and Ecosystem Management** (2 years) plus **Bachelor of Landscape Architectural Design** (additional 3 years) = 5 years' total study
- **Adv Dip of Building Design (Architectural)** (2 years) plus **Bachelor of Landscape Architectural Design** (additional 3 years) = 5 years' total study

## Career outcomes

### Architecture\*

- Architectural designer
- Architectural draftsperson
- Designer and fabrication consultant
- Production designer
- Researcher

### Interior design

- Design journalist
- Event strategist
- Exhibition designer
- Furniture designer
- Graphic designer
- Homeware designer
- Hospitality designer
- Production designer
- Researcher
- Residential designer
- Retail designer
- Set designer
- Workplace designer

### Landscape architecture\*\*

- Ecological designer
- Garden designer
- Landscape architectural designer
- Landscape project manager
- Landscape technician

\* Students must complete the Master of Architecture to be eligible to apply for accreditation as an architect

\*\* To be eligible to become an accredited landscape architect, you must complete the Master of Landscape Architecture

Hone your creative practice in Australia's leading art and photography school.

RMIT's art courses are focused on developing your interests in studios and facilities that will support, challenge and expand your body of work.

You'll graduate with the skills to be an active, independent and critically informed artist or photographer, with specialisations available in ceramics, drawing, print, photography, sculpture, painting, video and sound, and gold and silversmithing.

# Art

## Study at Australia's top art school

RMIT is ranked #1 in Australia and #19 in the world for studies in Art and Design.<sup>1</sup> Our School of Art is led by accomplished professionals who are bold in their approach and strive to operate at the cutting edge of research and innovation.

## Establish your career as an exhibiting artist or photographer

We own and operate five public galleries and exhibition spaces that provide formal opportunities for you to integrate hands-on experience into your studies and showcase your work to a diverse audience.

## Gain a global perspective

We run regular study tours to experience festivals and meet prominent artists in New York, Hong Kong, Paris, Nepal, Japan and Berlin. Students are also given the opportunity to study at our interlocation partner, Hong Kong Art School, where RMIT delivers its fine art course.

For more information, visit [rmit.edu.au/art](http://rmit.edu.au/art)

<sup>1</sup> QS World University Rankings by Subject 2023

## Fine and visual art

### Bachelor of Arts (Fine Art)

Be immersed in fine art studios with practising artists who'll provide you with face-to-face mentoring. You will have focused time to create and exhibit personal works in RMIT's extensive galleries and studio spaces. Studio specialisations include: ceramics, gold and silversmithing, sculpture, video and sound, drawing, painting and print (including screen printing and digital imaging).

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

ATAR  
Range of criteria

- BP201
- City
- 3 years
- Selection task
- VTAC** 3200339771

#### Pathway options

- **Dip of Visual Arts** (1 year) plus **Adv Dip of Visual Arts** (1 year) plus **Bachelor of Arts (Fine Art)** (additional 2 years) = 4 years' total study
- **Dip of Music (Sound Production)** (1 year) plus **Adv Dip of Music (Sound Production)** (1 year) plus **Bachelor of Arts (Fine Art)** (additional 2 years) = 4 years' total study (video and sound studio only)
- **Assoc Deg in Screen and Media Production** (2 years) plus **Bachelor of Arts (Fine Art)** (additional 2 years) = 4 years' total study (video and sound studio only)
- **Dip of Screen and Media (Content Creation)** (1 year) plus **Assoc Deg in Screen and Media Production** (additional 1 year) plus **Bachelor of Arts (Fine Art)** (additional 2 years) = 4 years' total study (video and sound studio only)
- **Dip of Screen and Media (Content Creation)** (1 year) plus **Adv Dip in Screen and Media Production (Directing)** (additional 1 year) plus **Bachelor of Arts (Fine Art)** (additional 2 years) = 4 years' total study (video and sound studio only)
- **Dip of Screen and Media** (1 year) plus **Assoc Deg in Screen and Media Production** (additional 1 year) plus **Bachelor of Arts (Fine Art)** (additional 2 years) = 4 years' total study (video and sound studio only)

### Diploma of Visual Arts

#### Advanced Diploma of Visual Arts

Prepare for a career as a visual artist by studying practical and theoretical courses taught by practising artists. Studio specialisations include: digital imaging, painting, sculpture, printmaking and public art.

**NCC** **Dip** CUA51120 **Adv Dip** CUA60720

#### Prerequisite

There are no prerequisite subjects required for entry into this qualification.

ATAR  
Range of criteria

- Dip** C5414
- Adv Dip** C6174
- City
- Dip** 1 year
- Adv Dip** 1 year
- Selection task
- VTAC** 3200372154

## Photography

### Bachelor of Arts (Photography)

Build a personal style of conceptual and commercial photographic practice through intensive courses in photo studios that replicate professional shooting environments. You'll gain expertise in the latest photography equipment and explore emerging technologies in image making across multiple industries: fashion, advertising, documentary, architecture, music and more.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

ATAR  
Range of criteria

- BP117
- City
- 3 years
- Selection task
- VTAC** 3200332681

#### Pathway options

- **Cert IV of Photography and Photo Imaging** (1 year) plus **Dip of Photography and Digital Imaging** (1 year) plus **Bachelor of Arts (Photography)** – Semester 1 entry to BP117 (additional 2 years) = 4 years' total study
- **Dip of Visual Arts** (1 year) plus **Adv Dip of Visual Arts** (1 year) plus **Bachelor of Arts (Photography)** (additional 3 years) = 5 years' total study

### Certificate IV in Photography and Photo Imaging Diploma of Photography and Digital Imaging

Develop core photographic skills in the key areas of lighting and image capture (studio and on location), digital manipulation, high-end print and video output and photo theory. These courses emphasise hands-on industry knowledge, collaboration and professionalism to enable you to work as a photographic assistant, digital operator or retoucher.

**NCC** **Cert IV** CUA41120 **Dip** CUA50920

#### Prerequisite

There are no prerequisite subjects required for entry into this qualification.

- Architectural or industrial photographer
- Commercial or advertising photographer
- Digital compositor
- Digital retoucher
- Fashion photographer
- Media photographer
- Photojournalist
- Portrait photographer
- Sports photographer
- Wedding photographer

Launch your career in the skies.

With the largest university-owned aircraft fleet in Australia, cutting-edge technologies to support student learning and a choice of two aviation centres, RMIT is well equipped to help you start your dream career.

Throughout your studies, you'll develop the knowledge and skills you need to apply for a recreational pilot licence (RPL), a private pilot licence (PPL) and an air transport pilot licence (ATPL).

# Aviation

## Join a renowned flight school

RMIT has trained more than 3,000 pilots since 1994, and we have more than 75 years of involvement in aerospace and aviation education.

## Learn in facilities that prepare you for the job

We conduct flight training at our Bendigo and Point Cook aviation centres. Point Cook is the oldest operating airfield in the world and the birthplace of the Royal Australian Air Force.

## Gain experience with industry leaders

The Qantas Future Pilot Program connects selected students with experienced pilots during their degree. The program includes an intensive 12-week airline transition course and employment with QantasLink as first officers flying the airline's Dash 8 200/300 or Q400 fleet.

For more information, visit [rmit.edu.au/aviation](https://rmit.edu.au/aviation)

## Flight training

### Associate Degree in Aviation (Professional Pilots)

Gain the practical and theoretical skills you need to achieve CASA certification as a commercial pilot and start your career in the sky. You'll also develop the necessary knowledge and skills to apply for a recreational pilot licence, a private pilot licence and required knowledge for an air transport pilot licence.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 20 in English other than EAL or at least 25 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics.

#### ATAR

67.25

65.15

AD023	Bendigo and Point Cook	2 years
VTAC	Bendigo 3200933592	Point Cook 3200733592

### Bachelor of Applied Science (Aviation)

This degree focuses on the operational and management aspects of airlines, airports and associated industries, safety, leadership and professional skills. You can tailor the degree to suit your interests and desired career path by choosing general, business or aviation electives.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics.

#### ATAR

73.15

BP070	City	3 years
VTAC	3200332911	

### Bachelor of Aviation (Pilot Training)

Gain the skills to become a commercial pilot while also learning extensively about the aviation industry. Conducted at both the City campus and at the RMIT Flight Training School at Point Cook or Bendigo, this degree will equip you with the skills to critically review and analyse all aspects of the aviation industry. In addition to extensive theory work, this degree includes flight training. Flight training will assist you to gain a recreational, private and commercial pilot licence, which enables you to fly commercially within Australia.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics.

#### ATAR

65.05

BP345	City and Point Cook or Bendigo	3 years
VTAC	3200532931	

**Note: For the pilot stream, students must be able to obtain a CASA Class 1 Medical Certificate.**

#### Pathway options

▪ **Assoc Deg** in Aviation (Professional Pilots) (2 years) plus **Bachelor of Aviation (Pilot Training)** (1 year) = 3 years' total study

### Bachelor of Applied Science (Aviation)/

### Bachelor of Business **Double degree**

Develop management skills while gaining a broad awareness of the aviation operating environment. Prepare for employment in a range of operational, management and planning roles in the aviation industry.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics.

#### ATAR

VTAC	3200333571	

## Career outcomes

### Flight training

- Air-work or agricultural operations
- Beach patrols
- Charter and freight operation
- Chief pilot
- Emergency services
- Fleet manager
- Flight operations manager or inspector
- Flight training organisations
- Major and regional airlines
- Seasonal bushfire spotting

For more information, visit  
[rmit.edu.au/biomedical-sciences](https://rmit.edu.au/biomedical-sciences)

Provide practical solutions to global health issues and gain a better understanding of the role that technology plays in how our bodies function in biomedical sciences at RMIT.

In selected biomedical sciences degrees, you can try a mix of electives before you decide where to specialise, and shape your degree around your interests.

# Biomedical Sciences

## Launch your career with practical experience

RMIT's biomedical sciences degrees include work placements during third and fourth years. Past students have been placed at major hospitals, including Royal Children's, Peter MacCallum and Osteon Health, as well as in private laboratories.

## Study in cutting-edge facilities

The award-winning \$32-million biosciences building at our Bundoora campus is at the centre of our biomedical science courses.

## Learn abroad

Laboratory medicine provides opportunities for students to travel overseas and undertake up to 10 weeks of professional practice in an approved lab across countries such as the UK, the US, Ireland, Singapore, Korea and Sweden.

## Biomedical sciences

### Bachelor of Biomedical Science

Study topics such as cell biology, biochemistry, molecular biology, physiology and anatomy, pathology and microbiology. This course prepares you for careers in research (at universities, hospitals and biomedical research institutes) and in medical and pharmaceutical research. Students in third year undertake 40 to 80 hours of work-integrated learning activities that provide authentic work-related experiences.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics or Physics.

VCE Units 3 and 4 – a study score of at least 20 in one of Biology or Chemistry.

**ATAR**

# Building

## Learn from hundreds of industry partners

RMIT's property, construction and project management courses maintain relationships with more than 250 industry partners through our Employer of Choice program.

## Study an accredited, job-ready course

Our courses are accredited by major industry associations, including the Australian Institute of Building and the Royal Institution of Chartered Surveyors.

## Uncover the intersection of building and technology

Our construction management courses are among the first in the world to embed 4K spherical virtual technology and building information modelling into the curriculum.

## Building and trades

### Bachelor of Construction Management (Honours)

Learn to organise and manage vast numbers of people and resources across the building process. Graduates may be involved in constructing high-rise office buildings, apartments, factories, hotels, houses or tourist facilities.

<b>Prerequisites</b>	VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).	<b>ATAR</b>	70.05		BH114
	VCE Units 3 and 4 – a study score of at least 20 in any Mathematics.				4 years
					VTAC 3200332641

#### Guaranteed pathway

- **Adv Dip** of Building Design (Architectural) (2 years) plus **Bachelor of Construction Management (Honours)** (additional 2.5 years) = 4.5 years' total study
- **Dip** of Building and Construction (Building) (2 years) plus **Bachelor of Construction Management (Honours)** (additional 3 years) = 5 years' total study

### Diploma of Building and Construction (Building)

Examine principles, techniques and regulations of the building and construction industry for all types of medium-rise and wide-span buildings. Completing this course is a minimum requirement for Associate membership to the Australian Institute of Building.

**NCC** CPC50220

<b>Prerequisite</b>	There are no prerequisite subjects required for entry into this qualification.	<b>ATAR</b>	Not applicable		C5415
					2 years full-time or 5 years part-time
					VTAC 3200372014

### Certificate IV in Instrumentation and Control

This course is for those employed as instrument or electrical apprentices, or for licensed electricians who would like to upskill in the area of instrumentation and become a dual tradesperson.

**NCC** UEE42220

<b>Prerequisites</b>	Training contract as an apprentice by the Australian Government or 'A' class electrician's licence recognised in Australia.	<b>ATAR</b>	Not applicable		C4426
					4 years part-time

### Certificate III in Air-Conditioning and Refrigeration

This course provides you with the skills to select components, install, set up, test, repair and maintain refrigeration systems, large-scale equipment for food storage, preservation and air-conditioning and air distribution equipment.

**NCC** CPP50121

<b>Prerequisites</b>	Students must be an apprentice under the Australian Apprenticeships Scheme and be registered with an Australian Apprenticeship Centre.	<b>ATAR</b>	Not applicable		C3408
					4 years part-time

## Building and trades

### Certificate III in Carpentry **Apprenticeship**

This course is for those employed as carpentry apprentices. The Certificate III in Carpentry offers you diverse career options, such as a carpenter, joiner, shop fitter or form worker.

**NCC** CPC30220

<b>Prerequisites</b>	Students must be an apprentice under the Australian Apprenticeships Scheme and be registered with an Australian Apprenticeship Centre.	<b>ATAR</b>	Not applicable		C3410
					4 years part-time

### Certificate III in Electrotechnology Electrician **Apprenticeship**

The Certificate III in Electrotechnology Electrician is for people who are employed as electrical apprentices. This course provides you with the skills to select, install, set up, test, repair and maintain electrical systems and equipment.

**NCC** UEE30820

<b>Prerequisites</b>	Students must be an apprentice under the Australian Apprenticeships Scheme and be registered with an Australian Apprenticeship Centre.	<b>ATAR</b>	Not applicable		C3409
					4 years part-time

### Certificate III in Plumbing **Apprenticeship**

This course provides training for plumbing apprentices and covers the practical and theoretical aspects of the industry. You will specialise in gasfitting, water, sanitary, roofing and drainage.

**NCC** CPC32420

<b>Prerequisites</b>	Students must be an apprentice under the Australian Apprenticeships Scheme and be registered with an Australian Apprenticeship Centre.	<b>ATAR</b>	Not applicable		C3411
					3 years part-time through block release

### Certificate II in Building and Construction **Pre-apprenticeship**

The Certificate II in Building and Construction has been designed to assist you in developing broad and basic skills and knowledge relevant to construction sites, as well as manufacturing and mining fields. It may also help increase your opportunities to land an apprenticeship.

**NCC** 22338VIC

<b>Prerequisites</b>	Students must be an apprentice under the Australian Apprenticeships Scheme and be registered with an Australian Apprenticeship Centre.	<b>ATAR</b>	Not applicable		C2227
					18 weeks full-time

### Certificate II in Electrotechnology **Pre-apprenticeship**

The electrotechnology pre-apprenticeship provides you with an introduction to two industries: electrical and refrigeration/air-conditioning.

**NCC** 22499VIC

<b>Prerequisites</b>	Applicants are expected to have the equivalent of Year 10-level skills in literacy and numeracy.	<b>ATAR</b>	Not applicable		C2225
					Bundoora and City 18 weeks full-time

### Certificate II in Plumbing **Pre-apprenticeship**

The Certificate II in Plumbing pre-apprenticeship is a nationally recognised qualification that prepares you for a plumbing apprenticeship and provides you with the basic skills and training in the plumbing field.

**NCC** 22569VIC

<b>Prerequisites</b>	Applicants are expected to have the equivalent of Year 10-level skills in literacy and numeracy.	<b>ATAR</b>	Not applicable		C2226
					18 weeks full-time

## Urban planning

### Bachelor of Urban and Regional Planning (Honours)

Gain expertise in the many considerations that go into creating prosperous, liveable and sustainable cities and regions. Graduates are accredited by the Planning Institute of Australia and work in state and local government, private sector planning consultancies and development companies.

<b>Prerequisites</b>	VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).	<b>ATAR</b>	71.60		BH108
					4 years
					VTAC 3200332141

## Career outcomes

### Building and trades

- Air-conditioning mechanic
- Building and construction labourer
- Building and construction supervisor or manager
- Contracts administrator
- Electrician
- Estimator
- Plumber

In this major learn about how businesses can become more socially aware and take concrete action to address social issues and challenges.</p>	

## Majors and Minors in the Bachelor of Commerce

### Majors

#### Cybersecurity Law and Governance

Gain an understanding of cybersecurity's legal and governance aspects, and build the skills to navigate and manage the complex regulatory and legal issues related to data protection, privacy and cyber threats. You'll emerge with skills for risk management, compliance and governance roles in various sectors.

#### Enterprise AI and Business Analytics

Leverage AI and analytics tools to solve business problems, improve operational efficiency and create strategic advantage. This major prepares you for roles such as data analyst, business intelligence analyst or AI specialist.

#### International Business

Deepen a crucial understanding of international business in an increasingly globalised world. In this major, you'll explore the complexities of conducting business in different international markets and gain skills for roles that involve international market analysis, foreign investment decisions and managing multinational businesses.

#### Marketing Technology

Discover how digital technologies have revolutionised marketing practices. This major equips you with the knowledge of various marketing technologies and digital tools used in today's industry, preparing you for digital marketing, social media strategy, SEO/SEM and content marketing roles.

#### Quantitative Economics and Finance

Develop strong quantitative skills that can be applied to economics and finance. This major will teach you to analyse economic data, understand financial markets and make informed financial decisions. It prepares students for financial analysis, economic forecasting, risk management or investment banking roles.

### Minors

Students may also undertake a minor in all areas offered as majors, as well as internships and international experiences.

## Pathways

If you didn't get the ATAR you were aiming for, don't worry – at RMIT, there's more than one way to get into your dream course!

That's where pathways come in. A pathway is simply an alternate way of getting into a course if you don't meet all its prerequisites. Our pathways can help you move through different levels of study (say, from a diploma to a bachelor's degree) to ultimately reach the qualification you're aiming for.

If you successfully complete any Australian diploma or advanced diploma (or equivalent), you'll meet the minimum entry requirements for the Bachelor of Business, Bachelor of Accounting and Bachelor of Business Professional Practice. Plus, studying a diploma or advanced diploma will reduce the time it takes to complete your bachelor's degree.

The table below shows how much credit students can gain through different pathway options. Please note the amount of credit varies depending on the major being completed.

Pathway courses	Bachelor of Business	Bachelor of Business (Professional Practice)	Bachelor of Accounting
<b>Diploma of Commerce</b>	8 credits (96 credit points)	8 credits (96 credit points)	8 credits (96 credit points)
<b>Diploma (cognate*)</b>	Up to 8 credits (96 credit points)	Up to 8 credits (96 credit points)	6 credits (72 credit points)
<b>Diploma (non-cognate**)</b>	Up to 8 credits (96 credit points)	Up to 8 credits (96 credit points)	6 credits (72 credit points)
<b>Advanced Diploma (cognate*)</b>	Up to 12 credits (144 credit points)	Up to 10 credits (120 credit points)	8 credits (96 credit points)
<b>Advanced Diploma (non-cognate**)</b>	Up to 8 credits (96 credit points)	Up to 8 credits (96 credit points)	6 credits (72 credit points)
<b>Advanced Diploma of Accounting<sup>^</sup></b>	Up to 12 credits (144 credit points)	Up to 10 credits (120 credit points)	16 credits (192 credit points)
<b>Associate Degree in Business</b>	Up to 16 credits (192 credit points)	Up to 16 credits (192 credit points)	12 credits (192 credit points)
<b>Associate Degree (non-cognate**)</b>	Up to 8 credits (96 credit points)	Up to 8 credits (96 credit points)	6 credits (72 credit points)

\*cognate A discipline or branch of study that is closely allied or related to business.

\*\*non cognate A discipline that is not closely allied or related to business.

<sup>^</sup>Students are required to complete the RMIT Cert IV, Diploma and Advanced Diploma of Accounting (totalling 2 years). Advanced Diploma of Accounting credits are only applicable to students who select a Bachelor of Accounting degree or double degree

Write your own future with an industry-connected communication course based in RMIT's Media Precinct and publishing houses.

Whether you're interested in covering news stories, running high-profile events and ad campaigns, or creative writing and publishing, you'll graduate with the skills to work across the media landscape.

# Communication

### Study at a top-ranked university

RMIT is ranked #4 in Australia and #42 in the world for Communication and Media Studies.<sup>1</sup> We have been teaching journalism for more than 50 years.

### Build experience that puts you ahead of the rest

You'll work with industry during placements, collaborative projects and in workforce development and research. Past students have worked with organisations such as ACMI, SBS Radio, Ogilvy and the Emerging Writers' Festival.

### Gain a global perspective

Our communication students have gained international industry experience in exciting locations such as New York, India, Cambodia and the South Pacific.

For more information, visit [rmit.edu.au/communication](http://rmit.edu.au/communication)

<sup>1</sup> QS World University Rankings by Subject 2023

## Communication and writing

### Bachelor of Arts (Creative Writing)

Develop skills as a creative writer with a range of theoretical and practical approaches. Graduates typically work in publication of print and new media, screenplay and script development, or education and other research fields.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 32 in any English.

#### ATAR

Range of criteria

- BP257
- City
- 3 years
- Selection task
- VTAC** 3200332551

#### Guaranteed pathway

- **Assoc Deg** in Professional Writing and Editing (2 years) plus **Bachelor of Arts (Creative Writing)** – Semester 1 entry to BP257 (additional 2 years with some semesters at a reduced load) = 4 years' total study
- **Adv Dip** of Professional Screenwriting (2 years) plus **Bachelor of Arts (Creative Writing)** – Semester 1 entry to BP257 (additional 2 years with some semesters at a reduced load) = 4 years' total study

### Bachelor of Communication (Journalism)

Combine theory and practice in this highly respected degree that includes live radio bulletins and a news and current affairs subject. Career options include all fields of journalism, such as print, radio, television and digital.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 30 in any English.

#### ATAR

71.25

- BP220
- City
- 3 years
- VTAC** 3200332091

#### Pathway options

- **Assoc Deg** in Professional Writing and Editing (2 years) plus **Bachelor of Communication (Journalism)** (additional 3 years) = 5 years' total study

### Bachelor of Professional Communication

This career-oriented degree is one of the world's premier professional communication qualifications. It produces multiskilled communicators with cross-platform skills in digital, broadcast and print media. The degree will develop your skills and knowledge in the key professional areas of journalism, advertising, media and public relations.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

#### ATAR

70.00

- BP354
- City
- 3 years
- VTAC** 3200311521

#### Pathway options

- **Dip** of Business (Public Relations) (1 year) plus **Bachelor of Professional Communication** (additional 2 years for a single major; 2.5 years for a double major) = 3–3.5 years' total study
- **Dip** of Social Media Marketing (1 year) plus **Bachelor of Professional Communication** (additional 2 years for a single major; 2.5 years for a double major) = 3–3.5 years' total study
- **Cert IV** in Marketing and Communication (0.5 years) plus **Dip** of Marketing and Communication (1 year) plus **Bachelor of Professional Communication** (additional 2 years for a single major; 2.5 years for a double major) = 3.5–4 years' total study
- **Assoc Deg** in Professional Writing and Editing (2 years) plus **Bachelor of Professional Communication** (additional 2 years for a single major; 2.5 years for a double major) = 4–4.5 years' total study

### Associate Degree in Professional Writing and Editing

This industry-focused course allows you to explore your creative potential while gaining valuable skills to work as a professional writer and/or editor. Study the craft of writing and the fundamentals of effective communication and editing.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

#### ATAR

Range of criteria

- AD016
- City
- 2 years

- Novelist
- Publicist
- Screenwriter
- Script editor
- Script consultant

### Public relations

- Change manager
- Event manager
- Fundraising and sponsorship manager
- Internal or external communication manager
- Issues and crisis manager
- Media relations and publicity
- Public affairs and lobbying

### Screen and media

- Broadcaster
- Director
- Producer
- Production manager
- Special effects specialist
- Videographer

**Ellen Weigall**  
Communication (Public Relations) alum

I liked the idea of having a specialised communications degree. RMIT is well-known for having [some of] the best communications courses in Australia, so it was of course my first pick for public relations.

My course at RMIT gave me the skills to work with clients, write copy and produce ethical strategy for large and small companies.

## Majors and Minors in the Bachelor of Professional Communication

At RMIT, we've created an extensive range of career-focused areas of study (majors and minors), which allow you to customise your degree and gain an edge in the areas you're most interested in.

Put simply, a major is a primary focus for your study and a minor is a secondary focus.

### Majors

When you study the Bachelor of Professional Communication, you will have the option to undertake majors in advertising, digital communication and/or public relations to hone your expertise or expand your knowledge with a selection of up to three four-course minors in a range of communication, media, business and creative disciplines.

### Minors

#### Advertising

Acquire industry-relevant creative and strategic skills while gaining an understanding of advertising in the broader context of communication and marketing practice. Learn about advertising's pivotal role in driving brand awareness, influencing consumer perceptions and achieving business objectives.

#### Asian Media and Culture

Asia's diverse cultures, politics and societies are among the world's most vibrant, dynamic and complex. Deepen your understanding of the rise of Asia, the impact of digital media on mobility and popular culture, and the interrelation of gender and social change.

#### Cinema Studies

Cinema Studies uses film as a lens to illuminate history, culture, contemporary society, technology and the medium itself. Students develop essential skills in audiovisual analysis and critical thinking, arriving at understandings of cinema texts and cultures in a global context.

#### Digital Communication

Create engaging content, collect and analyse data, develop digital and social media skills, and understand the rapidly changing digital media landscape. Prepare yourself for a variety of communication roles with the flexibility to work in any industry sector.

#### Literary Studies

Explore and examine the ways language and imagination combine to create exemplary literary works reflecting real-world concerns – from short stories to novels, poems, plays and film, to non-fiction, lyric and critical essays.

#### Media

Blend practical skills with creativity so you can build the knowledge needed to work across film, television, radio, social and digital media. You will produce innovative and compelling content across a wide range of existing and emerging media platforms.

#### Public Relations

Prepare for the fast-evolving landscape of corporate, government, non-profit and consulting sectors. Public relations is for enquiring minds – develop expertise in strengthening relationships, boosting reputation, and adeptly conveying organisational messages to diverse audiences.

#### Approaches to Popular Culture

Examine different pop culture environments, social trends and histories from celebrity, screen and music culture to new and old forms of technology.

#### Business and Technology

Digital technology is completely changing the world of business. Learn how by studying topics such as cybersecurity, fintech and managing in digital contexts.

#### Contemporary Politics and Communication

Investigate big questions – decarbonising economies, audience democracy, turmoil in political journalism, making publics for social change, the housing crisis and the Voice, automation and how we govern ourselves at work – while staying focused on the communication angle.

#### Journalism

Build practical journalism skills required for a contemporary or allied journalism career. Using RMIT's world-class facilities, you'll address practical and theoretical aspects of journalism, including reporting and writing, ethics, law, podcasting and photography.

#### Marketing

Become prepared to take on roles in fields such as digital marketing, brand management, campaign strategy and customer analytics.

#### Photography

Learn from practising photographers, artists and leading academics in purpose-built studios using modern photographic equipment and specialist software.

For more information, visit  
[rmit.edu.au/design](https://rmit.edu.au/design)

Reimagine the future, push the boundaries of design and immerse yourself in hands-on studio learning.

At RMIT you will investigate the contemporary, cultural and environmental aspects of design and technology.

You'll learn from local and international practising designers, lecturers and academics who are connected with industry and the design community, and graduate as a highly trained designer and visual problem solver.

# Design

## Study at Australia's top design school

RMIT is ranked #1 in Australia and #19 in the world for studies in Art and Design.<sup>1</sup>

<sup>1</sup> QS World University Rankings by Subject 2023

## Learn alongside industry leaders

Work on client projects and pursue internships with organisations such as ANZ, Mecca Cosmetics, Australian Red Cross and more.

## Kickstart your global career

Discover our exchange partnerships with prestigious universities, including the Parsons School of Design in New York City.

## Animation and interactive media

### Bachelor of Design (Animation and Interactive Media)

Become a specialist in digital media and design, including 2D and 3D animation, digital video, motion graphics, special effects, interactive media and sound design. Graduates work in a variety of areas across design, media and art disciplines.

<b>Prerequisites</b>	VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).
<b>ATAR</b>	Range of criteria
<b>BP203</b>	City
	3 years
	Selection task
<b>VTAC</b>	3200333261

### Bachelor of Design (Digital Media)

This degree will teach you to be a digital media specialist in screen design, time-based media or interactive media. You will focus on some of the core disciplines of the field including visual effects and compositing, motion graphics, interactive media and design, sound design and digital media theory.

<b>Prerequisites</b>	VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).
<b>ATAR</b>	69.30
<b>BP309</b>	City
	3 years
<b>VTAC</b>	3200310071

#### Pathway options

- **Dip of Music (Sound Production)** (1 year) plus **Adv Dip of Music (Sound Production)** (1 year) plus **Bachelor of Design (Digital Media)** (additional 1.5 years) = 3.5 years' total study
- **Dip of Screen and Media (Animation, Gaming and Visual Effects)** (1 year) plus **Adv Dip of Screen and Media (Content Creation and Design)** (1 year) plus **Bachelor of Design (Digital Media)** (additional 1.5 years) = 3.5 years' total study

## Games design

### Bachelor of Design (Games)

This unique degree provides specialist training in computer-generated design with particular emphasis on game studies and art practice. You will study design, narrative, imaging, modelling and animation (2D and 3D), concept art and game environments.

<b>Prerequisites</b>	VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

Make a positive impact on the next generation of students.

When you study education at RMIT, you'll be taught by recognised leaders in the field, partner with peer mentors and build experience with your future employers.

No matter what teaching discipline you choose, you'll graduate with the ability to shape tomorrow's minds and foster a lifelong love of learning.

# Education

## Learn by doing the job

RMIT education students complete 80+ days of work-based learning through supervised local and international placements, including opportunities to teach in disability settings and remote communities.

## Make a difference in a variety of settings

Aside from traditional educational settings, our education graduates have the skills, knowledge and experience to work in private enterprise, government agencies and community service organisations.

## Choose an accredited degree

Our Bachelor of Education is accredited by the Victorian Institute of Teaching. The Primary and Early Childhood stream is also accredited by the ACECQA.

For more information, visit [rmit.edu.au/education](https://rmit.edu.au/education)

## Teacher education

### Bachelor of Education (Primary)

Prepare for the demands of 21st-century learning and teaching, combining hands-on experiences with leading research. Graduates are eligible for registration with the Victorian Institute of Teaching and can teach nationally and overseas.

#### Pathway options

- **Dip** of Teacher Education Preparation (1 year) plus **Bachelor of Education (Primary)** (4 years) = 5 years' total study. Subject to completing the Casper test.

#### Prerequisites

Minimum ATAR of 70, inclusive of selection rank adjustments.

VCE Units 1 and 2 – satisfactory completion in two units (any study combination) of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics, or VCE Units 3 and 4 – any Maths.

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

Build the professional and technical skills you need to put your innovation and creativity into practice.

There are many career paths for an engineer and at RMIT, you'll develop internationally recognised skills in the areas that interest you most – designing and creating products, systems, structures and services that transform the world and improve lives.

# Engineering

## Study at a top-ranked university

RMIT is ranked among the top 10 universities in Australia for civil and structural engineering, electrical and electronic engineering, and mechanical engineering.<sup>1</sup>

## Shape your degree around your interests

In our engineering degrees, you can try a mix of electives before you decide where to specialise, combine your engineering major with cross disciplinary minors, or study a double degree in engineering and business.

## Choose an accredited degree

Our engineering programs are designed in accordance with the Australian Qualifications Framework and most are accredited through Engineers Australia.

What kind of engineer are you?

For more information, visit [rmit.edu.au/engineering](https://rmit.edu.au/engineering)

<sup>1</sup> QS World University Rankings by Subject 2023

## Engineering with options

### Bachelor of Engineering (Honours)

Know you want to be an engineer but not sure what specialised degree you're interested in? Spend your first year of study experiencing the breadth of engineering options available at RMIT University before entering your specialised course in second year with a strong technical foundation.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics.

**ATAR**  
75.00

BH126  
 City  
 4 years  
**VTAC** 3200310711

### Associate Degree in Engineering Technology

Be introduced to the fundamental principles of engineering that apply across a range of fields. In second year you can choose from a range of specialisations. You also have an opportunity to take a pathway into a relevant degree.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 20 in English other than EAL or at least 25 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in any Mathematics.

- Mechatronics engineer

# Choose your specialisation in the Bachelor of Engineering (Honours)

Interested in engineering but not sure where to begin? RMIT's Bachelor of Engineering (Honours) empowers you to build a foundation in broad engineering principles before you find your specialisation.

In your first year, you'll be exposed to the fundamentals of engineering through science, mathematics, engineering design and professional practice skills. You will also take a number of electives to help you decide which stream of engineering to specialise in from your second to fourth years of the degree.

After your first year of study, you'll have the opportunity to choose one of the engineering specialisations below.

## Choose your engineering specialisation

### Aerospace engineering

Build highly specialised analytical, technical and design skills required to pursue an exciting career in aeronautics and astronautics. Design aircraft and spacecraft, develop propulsion systems, research new materials, test new engines, develop rockets and plan maintenance subjects.

### Chemical engineering

Immerse yourself in the role of technology in science and design creative solutions to global issues. Learn to improve industrial processes such as water purification, food production and processing, or to develop products such as cosmetics or pharmaceuticals.

### Electrical engineering

Find better ways to power the world. Understand the production and distribution of electricity, develop advanced technical skills and focus on areas such as energy conversion, power systems, renewable energy, high-voltage equipment and control engineering

### Environmental engineering

Solve critical global challenges with specialist study in land contamination, water and air pollution, energy, sustainable cities, and more.

### Advanced manufacturing and mechatronics engineering

Learn about mechatronics, robotics, advanced materials, automated systems, and the simulation and modelling of manufacturing processes.

### Biomedical engineering

Play a vital role in the evolution of healthcare and the development of technology that supports it, including assistive technologies and biomaterials.

### Civil and infrastructure engineering

Discover how civil and infrastructure engineering shapes our world. Developed with an environmental sustainability focus, this specialisation will teach you to plan, design, construct, supervise, manage and maintain infrastructure projects in Australia and overseas.

### Electronic and computer systems engineering

Study everything from digital electronics to image processing to instrumentation, and realise electrical and electronic and computer systems engineering's vital role in society.

### Mechanical engineering

Discover the vast discipline of mechanical engineering and explore computer-aided design, renewable energy, mechatronics and more.

### Mechatronics engineering

Gain the skills for an exciting career that lets you design, build and implement smart mechatronic systems which can be deployed across a wide range of engineering companies.

Discover ways to protect our precious ecosystems, rethink approaches to urban development, and find sustainable solutions to our world's most imminent environmental challenges.

With an industry-backed environment qualification from RMIT, you'll make a positive difference in a wide range of careers that strive to shape the future.

# Environment

## Choose a university committed to change

RMIT is ranked among the top five universities in Australia for taking action to tackle the world's greatest environmental, social and governance challenges.<sup>1</sup>

## Get hands-on experience with our industry partners

Our students learn by getting hands-on experience in fieldwork and placements. Previous students have worked with organisations such as CSIRO, Parks Victoria and Melbourne Water.

## Shape your degree around your interests

In our environmental science degrees, you can try a mix of electives in your first semester before you decide where to specialise.

For more information, visit [rmit.edu.au/environment](https://rmit.edu.au/environment)

<sup>1</sup> QS Sustainability Rankings 2023

## Environmental science

### Bachelor of Environmental Science

Understand the evaluation and management of the environment. Gain extensive hands-on experience with equipment in the laboratory and in the field. This degree prepares you for a career in government, resource management, research, education and consulting.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics.

**ATAR**

- Sustainability consultant

Build a beautiful portfolio of work to help get your start in the fashion industry.

RMIT's internationally recognised fashion courses are informed by global trends and will help you develop your identity as a designer. You'll graduate with the entrepreneurial skills to thrive in the competitive fashion industry, including designing, textile development, merchandising and marketing.

For more information, visit [rmit.edu.au/fashion](https://rmit.edu.au/fashion)

# Fashion

## Study at our Brunswick campus

Learn from the best at RMIT's creative campus, located in the vibrant Design District of Brunswick. Our campus is equipped with specialist facilities – from studios, print rooms and showcase spaces to our \$8 million Fashion Hub.

## See your work on the runway

Past students have worked alongside brands such as Myer and Country Road, and displayed their work at the Melbourne Fashion Festival and London Graduate Fashion Week.

## Global study opportunities

We offer exchange partnerships with top fashion schools such as the Parsons School of Design in NYC, Amsterdam Fashion Institute and London College of Fashion.

## Fashion and textiles

### Bachelor of Fashion (Design)

Highly regarded by the international fashion community, this course challenges the boundaries of fashion. It embraces the latest design directions and explores potential future practices of fashion design. This degree allows you the creative freedom to develop original ideas through to final designs and challenges you through exploration and reflection to develop the skills and knowledge to formulate your voice as a designer. Collections are showcased at premier Australian and international fashion festivals.

#### Pathway options

- **Assoc Deg** in Fashion Design and Technology (2 years) plus **Bachelor of Fashion (Design)** (additional 2 years) = 4 years' total study. *Entry into the Bachelor of Fashion (Design) is competitive.*

### Bachelor of Fashion (Enterprise)

In this course, students examine environmental, ethical, corporate and consumer dimensions of the fashion and textiles industry through the lens of product management, marketing and retail. Students gain a strong understanding of consumer buying patterns, as well as how to design, develop, source, communicate and sell fashion product.

#### Pathway options

- **Assoc Deg** in Fashion and Textiles Merchandising (2 years) plus **Bachelor of Fashion (Enterprise)** (additional 1.5 years) = 3.5 years' total study.

### Bachelor of Fashion and Textiles (Sustainable Innovation)

Technology innovations and improved environmental, social and ethical practices are changing how clothes are made, consumed and experienced. The Bachelor of Fashion and Textiles (Sustainable Innovation) provides students with practical, theoretical and technical skills to develop solutions, products and systems, using user-centred approaches at the intersection of design, technology, science and art.

#### Pathway options

- **Assoc Deg** in Fashion and Textiles Merchandising (2 years) plus **Bachelor of Fashion and Textiles (Sustainable Innovation)** (additional 2.5 years) = 4.5 years' total study.
- **Assoc Deg** in Fashion Design and Technology (2 years) plus **Bachelor of Fashion and Textiles (Sustainable Innovation)** (additional 2.5 years) = 4.5 years' total study.

## Career outcomes

### Fashion and textiles

- Creative director
- Creative pattern-maker
- Digital content creator
- Fashion, accessories, costume, material or colour designer
- Fashion events producer
- Stylist

### Sustainable innovation

- Corporate social responsibility manager
- Digital fashion innovator
- Fashion or textile technologist
- Fashion sustainability compliance officer
- Materials designer researcher
- Product developer
- Sustainable sourcing manager

### Enterprise

- Brand manager
- Fashion business manager
- Fashion buyer or range planner
- Fashion merchandise planner
- Fashion retail and ecommerce manager
- Fashion sourcing or logistics manager
- Fashion trend analyst
- Product manager

### Merchandising

- Buying assistant
- Ecommerce supervisor
- Retail operations
- Visual merchandiser

Make a difference to people's lives, pursue a rewarding career and help find solutions to global health problems.

RMIT's health courses are developed in consultation with practising professionals and many offer industry placements, student clinics and work experience in Australia and overseas. You'll graduate with the skills to pursue essential roles in pharmacies and laboratories, dentistry practices, hospitals, aged care facilities and more.

For more information, visit [rmit.edu.au/health-science](http://rmit.edu.au/health-science)

# Health

## Get clinical training on campus

RMIT's registered Health Clinic in Bundoora is open to the public and helps students gain experience for independent practice.

## Learn using industry-grade equipment

You'll study in cutting-edge facilities, including our remedial and myotherapy clinic, nursing wards, and Digital Human Biosciences Facility.

## Shape your degree around your interests

In our health degrees, you can try a mix of electives before you decide where to specialise, or combine your health major with versatile minors in the health industry.

## Complementary medicine

### Bachelor of Health Science/Bachelor of Applied Science (Osteopathy) **Double degree** \*

Osteopathy improves patient health by treating the musculoskeletal system. Learn to make treatment decisions in relation to patients and their conditions and to advise on posture, exercise, lifting procedures, nutrition and other areas.

\* This course will be updated for the 2025 intake. This may result in changes to the course structure, content and fees. Please check the RMIT website for the latest information

### Diploma of Remedial Massage Advanced Diploma of Myotherapy

Myotherapists assess, treat and manage musculoskeletal conditions. You'll learn a variety of treatment techniques and assessment skills to provide remedial massage to clients with specific needs. Students will also develop advanced techniques to treat myofascial, joint and neuropathic pain from the nervous system. Prepare yourself for career opportunities in private clinics, sporting clubs and more, or discover how to manage staff and run your own practice in RMIT's teaching clinic.

**NCC** **Dip** HLT52015 **Adv Dip** 22316VIC

#### Pathway options

■ Graduates of the **Diploma of Remedial Massage** are guaranteed entry into the **Advanced Diploma of Myotherapy**.

## Dental studies

### Advanced Diploma of Dental Prosthetics

Dental prosthetists work independently and in public clinics to provide denture services and mouthguards to the public. Develop theoretical, clinical and practical skills required for registration as a dental prosthetist in Australia.

**NCC** HLT65015

### Diploma of Dental Technology **Apprenticeship**

This course provides you with the underpinning knowledge and practical skills required to safely and effectively perform the entry-level roles and responsibilities of a dental technician. This course is also available as an apprenticeship.

**NCC** HLT55118

<b>Prerequisites</b>	VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

Pursue one of the most in-demand fields in today's digital age and gain skills that can launch your career in any sector.

From software development to data science and cybersecurity, RMIT has a course that will propel you into the IT career you are aspiring to.

# Information Technology

## Study at a top-ranked university

RMIT is ranked among the top 10 universities in Australia for Computer Science and Information Systems.<sup>1</sup>

## Shape your degree around your interests

In our IT degrees, you can tailor your study by combining your IT major with cross-disciplinary minors, or adding a fourth year of work experience in addition to our three-year degrees.

## Build hands-on experience while you study

You'll get the chance to complete internships and work on real-world projects with leading organisations such as ANZ and Victoria Police.

For more information, visit [rmit.edu.au/it](http://rmit.edu.au/it)

### Bachelor of Information Technology (Professional)

Learn how to influence an organisation's technology infrastructure and work with clients who use IT. With an extensive range of cutting-edge IT subjects that reflect today's emerging technologies and a focus on your professional development, you'll have the freedom to find, and then follow, the career path that you are most passionate about. This degree comprises three years of study followed by a one-year industry internship in your final year of study.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 25 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics.

### Associate Degree in Information Technology

Enter the workforce with relevant skills for today's IT industry. In this degree, you'll learn how to build a secure network for an office environment, develop a suite of skills to troubleshoot common technical problems, set up VPNs, develop software to meet business needs, and configure data centre virtualisation. This project-based course also provides a pathway into relevant degrees to further strengthen your analytical and practical skills.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 20 in English other than EAL or at least 25 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in any Mathematics.

### Nicole Abiad Software engineering student

It was exciting to start the course with a bootcamp and get straight into coding for the first six weeks. I had no coding experience, but I learned so much in a short amount of time and then went straight into studio class where we got to apply everything we'd learned.

At the end of it we built a website and a database from scratch. What we are being taught is relevant and up to date.

Prepare for an evolving legal system and society and make your mark in the field of law.

In law and justice at RMIT, you'll learn how criminal justice systems work to serve individuals and the community through law enforcement, policy, practice and reform. You'll also be able to explore all perspectives of the legal system, including business, policy, politics, sociology, and criminology in contemporary Australian and international society.

# Law

## Apply your skills in real-world settings

Many of RMIT's justice and legal courses offer an internship elective, and some programs include placements of up to 50 days. Past students have completed placements or internships with organisations such as Victoria Police.

## Join the Law Students' Society

Our Law Students' Society runs social, education and careers events year-round, from mooting competitions to networking events.

## Choose from diverse electives in justice and criminology

Discover your passion with electives such as forensic studies, youth justice and international policing.

For more information, visit [rmit.edu.au/law](http://rmit.edu.au/law)

## Justice

### Bachelor of Criminal Justice

Whether it's at the frontline of Australia's border protection or working with the Australian Federal Police, criminal justice opens up all kinds of local and international career options. Graduates have also gained work in corrections, courts, customs and other government agencies.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

Learn to tell stories that cut through the rest.

RMIT offers a diverse selection of media courses that enable you to explore mediums of sound, film, animation, digital media, radio and television. You'll blend theory with hands-on tutorials, and graduate with the practical and future-focused skills you need to launch a successful career in media.

For more information, visit [rmit.edu.au/media](https://rmit.edu.au/media)

# Media

## Study at a top-ranked university

RMIT is ranked #4 in Australia and #42 in the world for Communication and Media Studies.<sup>1</sup> We have been teaching journalism for more than 50 years.

<sup>1</sup> QS World University Rankings by Subject 2023

## Learn in industry-grade facilities

Discover world-class sound and live production facilities at our Media Precinct, featuring 4K TV studios, virtual set technologies, control rooms and more.

## Gain hands-on experience with the best in industry

You'll collaborate with industry on projects and placements. Past students have worked with organisations such as ABC, SBS and Channels 10, 9 and 7.

## Music and audiovisual

### Bachelor of Arts (Music Industry)

Throughout this course you will explore contemporary trends and issues through practical, project-based work, as well as academic, theoretical study. You will learn about key music technologies, global music cultures, popular music scenes, music business practice and live music production.

#### Pathway options

- **Dip of Music (Sound Production)** (1 year) plus **Adv Dip of Music (Sound Production)** (additional 1 year) plus **Bachelor of Arts (Music Industry)** (additional 1.5 years) = 3.5 years' total study

### Diploma of Music (Sound Production) Advanced Diploma of Music (Sound Production)

Combine technical and creative talents using modern industry-standard equipment to develop skills across multiple technologies. Graduates can work as sound technicians to amplify, enhance, record, mix or reproduce sound. The sound production suite at RMIT is made up of two years of study, with each year being an individual, nationally recognised qualification. The diploma provides you with studio, lab and live venue-based training, while the advanced diploma will deepen your skills alongside internationally recognised audio engineers.

**NCC** **Dip** CUA51120 **Adv Dip** CUA60720

#### Pathway options

- Property valuer

Explore the mysteries of the mind and make a positive impact in people's lives with an RMIT psychology qualification.

You'll graduate with the ability to specialise in a diverse range of fields, including counselling, sport psychology, educational psychology, organisational psychology and forensic psychology.

# Psychology

## Study an accredited degree

Several of RMIT's psychology degrees are accredited by the Australian Psychology Accreditation Council (APAC) and can lead to national and international registration as a psychologist.

## Learn by doing the job

In addition to evidence-based learning material, you'll have access to up to 132 days of industry placement in real-world settings. You'll gain experience in settings such as hospitals, clinics or justice organisations – all before you've graduated.

## Shape your degree around your interests

In our Bachelor of Psychology, you can try a mix of electives before you decide where to specialise.

For more information, visit [rmit.edu.au/psychology](https://rmit.edu.au/psychology)

## Psychology

### Bachelor of Criminology and Psychology

Learn to provide high-quality services to clients in the criminal justice system, particularly those with mental health issues. Graduates can undertake further study to qualify as a psychologist or work in a wide variety of public, private and community sectors.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

**ATAR**  
65.25

BP295  
City  
3 years  
VTAC 3200333651

### Bachelor of Psychology

Ever wondered what makes humans tick? Explore the science of the mind and human nature and the biological factors that influence our behaviour. You will examine mental state processes and motivations that affect our personality. This course prepares you for a career in organisational management, sport, cross-cultural studies, counselling, human resources and, with further study, teaching, researching or practising psychology.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

**ATAR**  
66.15

BP154  
City  
3 years  
VTAC 3200332021

#### Pathway options

■ **Assoc Deg in Health Sciences** (2 years) plus **Bachelor of Psychology** (additional 2.5 years) = 4.5 years' total study

### Bachelor of Social Science (Psychology)

Study human experience and behaviour in this psychology degree that combines a strong social grounding. You will also have the opportunity to apply your skills in an industry-based field placement with a professional organisation of your choice. Graduates can undertake further study to become an accredited psychologist or work in a wide variety of public, private and community sectors.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

**ATAR**  
66.05

BP112  
City  
3 years  
VTAC 3200333191

## Social work

### Bachelor of Social Work (Honours)/Bachelor of Social Science (Psychology) **Double degree**

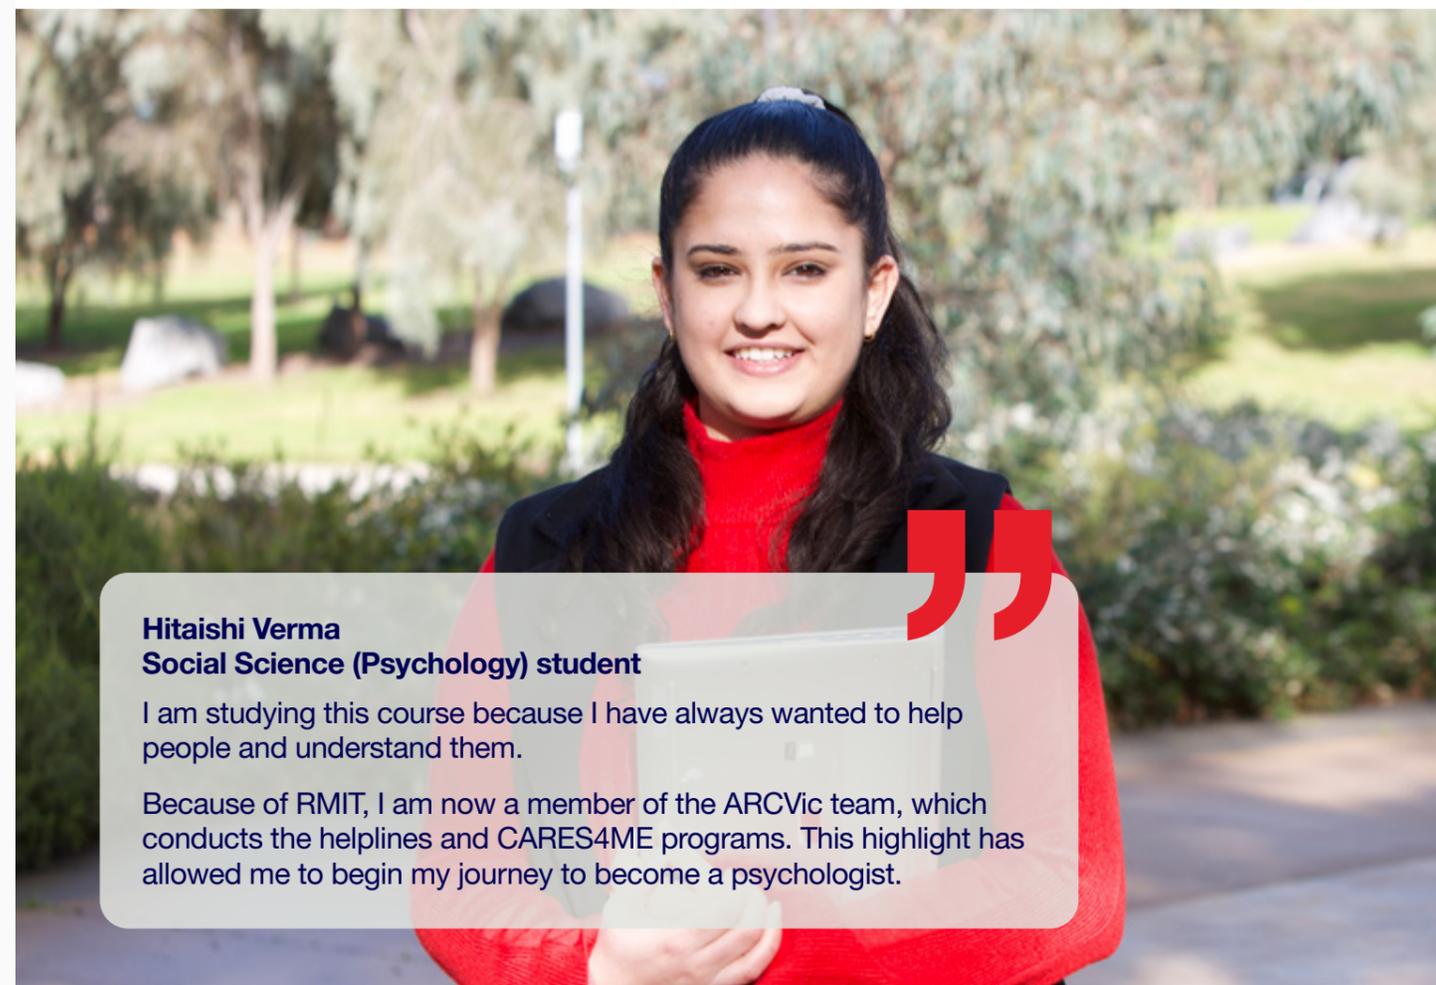

See page 77 for details

## Career outcomes

### Psychology

- Counsellor
- Disability worker
- Human resources manager
- Organisational behaviour specialist
- Social policy officer
- Social psychologist
- Social researcher
- Welfare service officer

**ATAR** Lowest selection rank (including any adjustment factors) to receive an offer up to and during Round 1 for the 2024 intake **RMIT Code** **Campus** **Duration** **Selection Mode**  
**VTAC** Victorian Tertiary Admissions Centre Code **NCC** National Curriculum Code **Assoc Deg** Associate Degree **Adv Dip** Advanced Diploma **Dip** Diploma **Cert IV** Certificate IV

### Hitaishi Verma Social Science (Psychology) student

I am studying this course because I have always wanted to help people and understand them.

Because of RMIT, I am now a member of the ARCVic team, which conducts the helplines and CARES4ME programs. This highlight has allowed me to begin my journey to become a psychologist.

# Science

## Study at a top-ranked university

RMIT is ranked among the top five universities in Australia for Materials Sciences.<sup>1</sup>

## Go beyond the classroom

You'll have the chance to put theory into action through local field trips, mapping the environment, exploring the aquatic environment, and even going overseas to tackle environmental challenges in other countries.

## Shape your degree around your interests

In our science degrees, you can try a mix of electives before you decide where to specialise, combine your science major with cross-disciplinary minors, study a double major, or choose from our standalone specialist degrees.

For more information, visit [rmit.edu.au/science](https://rmit.edu.au/science)

Test and learn how and why things work in RMIT's science courses, from monitoring the spread of infectious disease to exploring the vast reaches of space.

Whether you want to study mathematics or data, food technology, micro or nanotechnology, chromatography or spectrometry, you'll find your niche in the broad study of science and build a skill set in STEM that prepares you to join tomorrow's innovators.

## Applied science

### Bachelor of Science

**Streams available** Specialise, generalise or study a combination of science disciplines. Choose from one of nine majors in Biological Sciences, Biotechnology, Chemistry, Food Science and Technology, Geospatial Science, Mathematics, Nutrition Science, Physics or Statistics.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics.

**ATAR**  
70.05

**BP350**  
City  
3 years  
**VTAC** 3200311261

#### Guaranteed pathways

- **Assoc Deg in Applied Science** (2 years) plus **Bachelor of Science (Biological Sciences major)** (additional 2 years) = 4 years' total study
  - **Assoc Deg in Applied Science** (2 years) plus **Bachelor of Science (Biotechnology major)** (additional 2 years) = 4 years' total study
  - **Cert IV in Laboratory Techniques** (1 year) plus **Dip of Laboratory Technology** (1 year) plus **Bachelor of Science** (additional 2 years\*) = 3 years' total study
- \*Total study duration varies depending on science majors chosen.

### Associate Degree in Applied Science

Explore the principles of chemistry, biology, anatomy and physiology, biochemistry, microbiology, and more. Learning in a laboratory setting and working in a professional work placement, you will gain essential skills in problem solving and teamwork to help you work effectively in industry.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 20 in English other than EAL or at least 25 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in any Mathematics.

**ATAR**  
40.30

**AD012**  
City  
2 years  
**VTAC** 3200332061

#### Pathway options

- **Cert IV in Laboratory Techniques** (1 year) plus **Assoc Degree in Applied Science** (additional 2 years) = 3 years' total study

## Biotechnology and biomedical sciences

### Bachelor of Science (Biotechnology)/Bachelor of Biomedical Science **Double degree**

Gain an insight into the fundamentals of biology and biotechnology as you explore ways to improve health and treat disease. Careers exist in research, production and testing laboratories in government and private industry.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics.

VCE Units 3 and 4 – a study score of at least 20 in Chemistry.

**ATAR**  
75.10

**BP293**  
City and Bundoora  
4 years  
**VTAC** 3200433621

## Chemistry

### Bachelor of Science (Applied Chemistry)/Bachelor of Engineering (Chemical Engineering) (Honours) **Double degree**

Combine chemistry, analytical science and chemical engineering as you prepare to work at the forefront of developing technologies. Graduates work in oil, gas, food, biotechnology, pharmaceuticals, agricultural chemicals and polymers industries.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics.

VCE Units 3 and 4 – a study score of at least 20 in Chemistry.

**ATAR**  
85.75

**BH098**  
City  
5 years  
**VTAC** 3200332121

## Food science and technology

### Bachelor of Food Technology and Nutrition

Learn the science of large-scale food manufacturing and how to apply nutrition to food product standards. You'll also be able to develop novel, healthy and functional food products that meet consumer demands and comply with government and industry's strict safety and health guidelines. Graduates can choose from a broad range of career roles in the food industry.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics.

**ATAR**  
71.10

**BP199**  
City and Bundoora  
3 years  
**VTAC** 3200433441

#### Guaranteed pathways

- **Assoc Deg in Applied Science** (2 years) plus **Bachelor of Food Technology and Nutrition** (additional 2.5 years) = 4.5 years' total study

### Bachelor of Food Technology and Nutrition/Bachelor of Business **Double degree**

Gain the technical knowledge to work in the food industry and the management and marketing skills to design and promote innovative products. Develop skills to manage global and large-scale food processing companies with a global operational focus.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English (EAL).

VCE Units 3 and 4 – a study score of at least 20 in one of Maths: General Mathematics (previously Further Mathematics), Maths: Mathematical Methods or Maths: Specialist Mathematics.

- Licensed cadastral survey or project survey or remote sensing analyst

# Majors and Minors in the Bachelor of Science

At RMIT, we've created an extensive range of career-focused areas of study (majors and minors), which allow you to customise your degree and gain an edge in the areas you're most interested in.

Put simply, a major is a primary focus for your study and a minor is a secondary focus.

## Majors

### Biological Sciences

Study life in all its forms – from molecules to ecosystems. Gain practical lab and field skills, specialising in environmental biology and ecosystems or biotechnology.

### Biotechnology

Investigate global biotechnology challenges, including human health, the adaptation of animals and plants, the changing climate and environment, food shortage, and renewable energy production.

### Chemistry

Gain the lab practice and industry experience to lead innovation in industrial chemistry, functional materials and nanotechnology, medicinal chemistry or environmental chemistry.

### Food Science and Technology

Leverage our strong links with major food industry companies and well-equipped labs to build up your practical experience in food science.

### Geospatial Science

Experiment with the latest technologies and infrastructures available to build skills in the analysis, management, capture and visualisation of spatial information.

### Mathematics

Solve problems, link theory to practice, think logically and identify similar patterns in a variety of applications and contexts.

### Nutrition Science

Gain insights such as optimal growth and development, health and vitality, and prevention of chronic diseases. Build skills to address global challenges like malnutrition, obesity and food insecurity.

### Physics

Combine the theoretical with the practical, exploring studies in chemical and quantum physics, atomic and molecular modelling, materials sciences, geophysics, optics and medical physics.

### Statistics

Discover the study of data, from collection to visualisation, analysis and interpretation. Learn to think logically, approaching theoretical and real-world problems in analytical and creative ways.

## Generalist minors

- Biosciences
- Chemistry
- Environmental Science
- Food Science
- Foundations of Teaching
- Geospatial Science
- Mathematics
- Nutrition Science
- Physics
- Statistics

## Specialist minors

- Advanced Chemistry
- Advanced Physics
- Biodiversity and Ecology
- Biotechnology
- Environmental and Analytical Chemistry
- Environmental Biology and Ecosystems
- Geospatial Studies
- Geospatial Systems
- Molecular Biotechnology
- Nanotechnology
- Space Science

Discover a rewarding career devoted to helping others, solving social issues and advocating for global change.

At RMIT, you'll learn from passionate and engaged academics and teachers who actively work towards a fairer world for all. You'll graduate with skills and experience to make an impact in local and global communities.

For more information, visit [rmit.edu.au/social-science](https://rmit.edu.au/social-science)

# Social and Community

## Study at a top-ranked university

RMIT is ranked among the top 10 universities in Australia for Development Studies.<sup>1</sup> We have been teaching social work for more than 50 years.

## Gain real-world experience that stands out to employers

Many of our social science courses offer internships or placements. Human service and community service organisations, NGOs, advocacy groups and government agencies are all part of our extensive network of partners.

## Choose a university committed to change

RMIT is ranked #1 in the world for our efforts to reduce inequalities.<sup>2</sup> We are also among the top five universities in Australia for taking action to tackle the world's greatest environmental, social and governance challenges.<sup>3</sup>

<sup>1</sup> QS World University Rankings by Subject 2023

### Angela Kolsch Community Services student

One of the reasons why I chose to do the diploma was because there was an element of placement, and you had to do 140 hours on the job. That really stood out to me because I am an on-the-job learner. I was lucky enough to have placement at two amazing organisations. The Killara Foundation works with young Indigenous people to close the gap in employment, and part of what they do is finding stable housing and employment for Indigenous young people.

My second placement was at the Headspace national office, working with them in the mentoring space, which is helping young people between 15 and 25 find work.

## Languages, translating and interpreting

### Diploma of Interpreting (Auslan)

Gain the skills you need to confidently interpret general dialogue and monologue settings in Auslan. Learn how to communicate across a range of subjects, including health and education, incorporating relevant cultural contexts and standards of ethical practice. Graduates pursue fulfilling roles in the community services sector, including education, welfare, government and more.

**NCC** PSP50922

#### Prerequisites

All applicants must meet both the English language requirements and the LOTE requirements specified below.

**ATAR**  
Not applicable

**C5423**  
City  
1 year  
Selection task

#### If you are a native English speaker, you will need to provide evidence one of:

- Completing your primary and secondary education (equivalent to Australian secondary education Year 12) at an institution/s where English was the primary language of instruction; **or**
- Completing your secondary (equivalent to Australian secondary education Year 12) and tertiary education (Certificate IV or higher) at an institution/s where English was the primary language of instruction; **or**
- Successfully completing a tertiary qualification (bachelor level or higher) where the language of instruction was English and the qualification was from one of the RMIT recognised English-speaking countries; **or**
- Successfully completed an approved English proficiency test within the past two years.

#### AUSLAN skills assessment requirements:

- Applicants for the Auslan Interpreter stream must undertake a skills assessment in Auslan and English, which tests receptive (sight) comprehension skills, and appropriate sign production and articulation skills in Auslan.
- Applicants will be contacted to schedule the skills assessment.

### Diploma of Interpreting (Spoken Language)

#### Advanced Diploma of Interpreting (Spoken Language)

Learn how to help people overcome language barriers when accessing community services. The diploma is suitable for those who have bilingual skills, but have not yet reached a specialised language proficiency. The advanced diploma is designed for those who have advanced bilingual skills and want to interpret in specialised settings, use communication media in interpreting, and study and apply ethical principles in professional contexts.

**NCC** **Dip** PSP50922 **Adv Dip** PSP60922

#### Prerequisites

All applicants must meet both the English language requirements and the LOTE requirements specified below.

**VTAC** 3200331101

#### Pathway options

- Dip** of Community Services (Case Management) (1 year) plus **Bachelor of Social Work (Honours)** (4 years) = 5 years' total study

### Bachelor of Social Work (Honours)/Bachelor of Social Science (Psychology) **Double degree**

Gain a unique and broad grounding of both social work and psychology in this combined degree. You'll develop a working knowledge of social science, social work and psychology, providing you with a range of career options in human services and community roles. Graduates are eligible for membership with the Australian Association of Social Workers.

#### Prerequisites

VCE Units 3 and 4 – a study score of at least 25 in English other than EAL or at least 30 in English as an Additional Language (EAL).

**ATAR**  
**70.30**

**BH106**  
City  
5 years  
**VTAC** 3200333351

## Career outcomes

#### Community services

- Assessor
- Case manager
- Community services officer
- Welfare worker

#### International studies

- Diplomat
- Foreign affairs officer
- Global security consultant
- International development worker
- International political analyst

#### Languages, translating and interpreting

- Communications officer
- Linguist
- Professional interpreter
- Professional translator

#### Social work

- Care coordinator
- Community development officer
- Counsellor
- Group worker
- Support and outreach worker

# Index

## Courses

<b>A</b>					
accounting	33, 34	cinema studies	41	electrotechnology	31
accounting/laws	33	civil and infrastructure engineering	48, 51	electrotechnology electrician	31
advanced manufacturing and mechatronics	50	civil and infrastructure engineering/business	48	engineering	46-51
advanced manufacturing and mechatronics/business	50	cloud computing (computer science/IT)	59, 60	engineering (aerospace)	47
advanced networking (IT)	60	cloud engineering	60	engineering (applied technologies)	50
advertising	41	commerce	33, 34, 37	engineering (aviation)	47
aeronautical engineering	47	communication (media)	65	engineering (biomedical)	47
aerospace engineering	47, 51	communication, and politics	41	engineering (chemical)	47
aerospace engineering/business	47	communication (public relations)	39	engineering (civil and infrastructure)	48
ageing and disability support	75	communication design	43	engineering (computer)	48
air-conditioning/refrigeration	30	community services	74	engineering (electrical)	48, 49
alcohol and other drugs	75	computer and network engineering	48	engineering (electronic)	48, 49
allied health assistance	57	computer and network engineering/computer science	48, 59	engineering (electronic and computer systems)	48
animation and interactive media	42	computer systems engineering	48, 51	engineering (electronics and communications)	49
animation, gaming and visual effects	65	conservation and ecosystem management	53	engineering (environmental)	49
application programming (computer science/IT)	58, 59	construction	30	engineering (honours)	47
applied chemistry	71	content creation and design (screen and media)	65	engineering (manufacturing)	50
applied chemistry	71	creative writing	39	engineering (mechanical)	49
chemical engineering	71	criminal justice	63	engineering (mechanics)	50
applied science	71	criminology and psychology	69	engineering (software)	61
applied science (aviation)	27	culture, popular	41	engineering (tertiary preparation)	50
applied science (osteopathy)	56	custom-made footwear	55	engineering/business	47, 48, 50
applied science (medical radiations)	57	cybersecurity	59, 60	engineering/computer science	48
architecture	22-23	cybersecurity law and governance	37	engineering technology	47-50
art	24-25			entrepreneurship	34, 36
artificial intelligence (enterprise AI and business analytics)	37	<b>D</b>		environment	52-53
artificial intelligence (computer science)	59	data science	59	environment and society	53
Asian media and culture	41	dental assisting	57	environmental engineering	49, 51
Auslan (interpreting)	77	dental prosthetics	56	environmental science	53
aviation	26-27	dental radiography	57	environmental science/environment and society	53
aviation (pilot training)	27	dental technology	57	<b>F</b>	
aviation (professional pilots)	27	dental studies	56-57	fashion	54-55
aviation/business	27	design	42-43	fashion (apparel, fashion and textiles)	55
<b>B</b>		design (animation and interactive media)	42	fashion and textile merchandising	55
big data (computer science)	59	design (communication)	43	fashion and textiles (sustainable innovation)	54
biological sciences	73	design (fashion)	54	fashion (design)	54
biomedical engineering	47, 51	design (furniture)	43	fashion (enterprise)	54
biomedical sciences	28-29, 71	design (games)	42	fashion design and technology	55
biotechnology	71, 73	design (graphic)	43	fashion styling	55
biotechnology/biomedical science	71	design (industrial)	43	finance	34, 36
blockchain	36	design (product)	43	finance and mortgage broking management	34
bookkeeping	34	design (product)	43	management	34
building	30-31	digital technologies (advanced manufacturing)	50	financial planning	36, 38
building design	22	disability support	75	financial planning (paraplanning)	34
business	32-37	design and technology (fashion)	55	fine art	25
business and administration	34	digital communication	41	flight training	27
business and technology	36, 41	digital imaging	25	food science and technology	71, 73
business/accounting	33	digital media	42, 59	food technology and nutrition/business	71
business analytics	37	<b>E</b>		footwear	55
business applications (IT)	60	early childhood education	45	furniture design	43
business information systems	36	economics (business)	36	<b>G</b>	
business/leadership and management	34	editing and writing	39	games (computer science)	59
business professional practice	33	education	44-45	games design	42
business (tertiary preparation)	35	education (primary)	45	games, graphics and digital media (computer science)	59
<b>C</b>		education (primary and early childhood)	45	gaming (media)	65
carpentry	31	education support	45	geospatial science	71, 73
chemical engineering	47, 51	electrical and	45	global business	36
chemical engineering/pharmaceutical sciences	47	electronic engineering	48	graphic design	43
chemistry	71, 73	electrical engineering	48, 51		
chemistry (applied)/chemical engineering	71	electrical instrumentation	30		
		electronics and communications engineering	49		

<b>H</b>					
health	56-57	health science/osteopathy	56	health sciences	57
health (tertiary preparation)	57	<b>I</b>			
individual support (ageing and disability)	75	individual support (ageing and disability)	75	industrial design	43
industrial design	43	information systems (business)	36	information technology	58-61
information systems (business)	36	instrumentation and control	30	interior design	23
information technology	58-61	interior decoration	23	interior decoration and design	23
instrumentation and control	30	international business	37	international studies	75
interior design	23	interpreting	77		
interior decoration	23	<b>J</b>			
interior decoration and design	23	journalism	39, 41	justice	63
international business	37	<b>L</b>			
international studies	75	laboratory medicine	29	laboratory technology	29
interpreting	77	laboratory techniques	29	landscape architectural design	23
<b>J</b>		languages	77	law	62-63
journalism	39, 41	law/business	63	law/commerce	63
justice	63	leadership and management	34	legal and dispute studies	63
<b>L</b>		legal practice (paralegal)	63	literary studies	41
laboratory medicine	29	live production and technical services	86	logistics	35, 36
laboratory technology	29	logistics and supply chain	35, 36	<b>M</b>	
landscape architectural design	23	management and leadership	34	management and leadership	34
languages	77	management and change	36	marketing	35, 36, 41
law	62-63	marketing and communication	35	marketing and communication	35
law/business	63	manufacturing engineering	50	marketing technology	37
law/commerce	63	massaging/myotherapy	56	mathematics	71, 73
leadership and management	34	mechanical engineering	49, 51	mechanical engineering/business	49
legal and dispute studies	63	mechanical engineering/business	49	mechanical engineering/industrial design	49
legal practice (paralegal)	63	<b>Q</b>			
literary studies	41	quantitative economics and finance	37		
live production and technical services	86				
logistics	35, 36				
logistics and supply chain	35, 36				

<b>M</b>					
mechatronics engineering	50, 51	media	41, 64-65	media and culture, Asian	41
media	41, 64-65	medical imaging	57	medical radiations	57
media and culture, Asian	41	mental health	75	mental health peer work	75
medical imaging	57	merchandising (fashion)	55	mobile computing	59, 60
medical radiations	57	multimedia design (IT)	60	mortgage broking management	34
mental health	75	music and audiovisual	64	music industry	64
mental health peer work	75	myotherapy/massage	56	<b>R</b>	
merchandising (fashion)	55	radiation therapy	57	refrigeration/air-conditioning	30
multimedia design (IT)	60	remedial massage	56	<b>S</b>	
music and audiovisual	64	science	70-73	science (space)	71
music industry	64	science (teaching practice)	45	science (tertiary preparation)	72
myotherapy/massage	56	screen and media	65	screen and media production	65
<b>N</b>		screenwriting	65	security (computer science)	59
nuclear medicine	57	social and community	74-77	social impact (business)	36
nursing	57	social media (IT)	60	social media (IT)	60
nutrition science	71, 73	social science (psychology)	69	social science (psychology)	69
<b>O</b>		social work	77	social work/psychology	77
osteopathy	56	software engineering	61	software engineering	61
<b>P</b>		sound production	64	space science	71
paralegal	63	spatial information systems	72	statistics	71, 73
paraplanning	34	strategy and innovation	36	strategy and innovation	36
people and organisation	36	supply chain and logistics	35, 36	supply chain and logistics	35, 36
pharmaceutical sciences	29, 47	surveying	72	sustainable	72
pharmacy	29	systems engineering	48	systems engineering	48
photography	25, 41	system administration (IT)	60	<b>T</b>	
photo imaging	25	teacher education preparation	45	teaching/science	45
physics	71, 73	teaching/science	45	tertiary education preparation (business, engineering, health or science)	35, 50, 57, 72
pilot training (aviation)	27	textile design and technology	55	textile design and technology	55
planning (urban)	31	translating	77	translating	77
plumbing	31	<b>U</b>			
politics and communication	41	urban and regional planning	31		
popular culture	41	<b>V</b>			
primary and early childhood education	45	visual arts	25		
product design	43	visual effects (media)	65		
professional communication	39	<b>W</b>			
professional screenwriting	65	web systems	59, 60		
professional writing and editing	39	(computer science/IT)	59, 60		
project management	34, 67	writing and editing	39		
property	66-67	<b>Y</b>			
property development, investment and valuation	67	youth work	74, 75		
psychology	68-69				
psychology and criminology	69				
psychology/social work	77				
public relations	39, 41

# RMIT 2024

## Open Day

**Sunday 4 August 2024**  
Bundoora Campus

**Sunday 11 August 2024**  
City and Brunswick Campuses

## Aviation Academy

### Open Day

**Sunday 18 August 2024**  
Point Cook Aviation Centre

**Sunday 25 August 2024**  
Bendigo Aviation Centre

For more information, visit  
[rmit.edu.au/openday](https://rmit.edu.au/openday)

**School Holiday Campus Tours**  
**Monday 8 to Friday 12 April 2024**

Take a tour of our City, Brunswick or Bundoora campuses, guided by a current student.

**Tech & Trades Experience Day**  
**Thursday 4 July 2024**

Get hands on with vocational workshops focusing on trades and future technologies.

**RMIT Student for a Day**  
**Tuesday 24 September 2024**

Experience RMIT for yourself with a sneak peek into life as a student.
