- > The Future of Business
- > Term 2 school group event winner
- > RMIT's Equitable Learning Services
- > RMIT 2022 Scholarships
- > Marieluise Jonas Scholarship for Landscape Architecture
- > 69<sup>th</sup> Australian Book Design Awards
- > Support for Indigenous Students
- > Global High School Cybersecurity Competition
- > Key Contacts

## The future of business

We've adopted a new agile, non-traditional course structure to equip students with greater hands-on learning opportunities and industry engagement. The Bachelor of Business and the Bachelor of Business Professional Practice have been designed with and for industry, ensuring that you'll develop relevant and highly sought-after skills and knowledge.

We've removed the traditional course structure focusing on lectures and exams (except where required by accrediting bodies) to concentrate on real-world business problem solving, that allows you to build a portfolio of industry-relevant achievements and transferable experiences.

## Term 2 Student Recruitment school group events winner

Congratulations to our winner, James P. in Year 10 at St Moncia's College!

Each term, RMIT Student Recruitment gives away a \$200 voucher of the student's choice from a range of options when students elect to stay in touch with RMIT. Not only do students then receive communications from RMIT specific to their interest area, they also go in the draw and could be the next winner!

## Making the transition to university easier with RMIT's Equitable Learning Services

Starting uni with a disability, long-term illness or mental health condition can be daunting at first, but RMIT's Equitable Learning Services (ELS) are designed to support students all the way.

At RMIT's on-campus Open Day events, parents and students will have the chance to speak to ELS advisors and learn more about the transition to uni. At Next Fest, featuring online and on-campus events, you'll also have the chance to chat with academics and future employers, explore our campuses and unlock a range of study options.

## RMIT 2022 Scholarships

RMIT has a range of scholarships to help students make the leap to study at RMIT University. We have a great range of scholarships including ones for Indigenous Australians, for migrants, for women in STEM, for those who need financial assistance, for those who need to move to study or for those studying particular courses.

Applications direct to RMIT are opening 30 July 2021 and most close on 30 October 2021. Students should put a reminder in their phones to check out RMIT's scholarship website in early August.

## Marieluise Jonas Scholarship for Landscape Architecture Students

In honour of Marieluise Jonas, an educator who inspired many with her passion for Asian urbanism, the Marieluise Jonas Scholarship has been established

at RMIT, where she spent eight years as part of the Landscape Architecture program.

This annual Scholarship provides Landscape Architecture students with the opportunity to undertake either an international internship in Landscape Design practice or self-guided research and exploration in Landscape Architecture. It allows for global activities, with a preference for activities in Asia in keeping with Marieluise's passion.

## 69th Australian Book Design Awards

Each year the Australian Book Design Awards celebrates the best and brightest in Australian book design. These awards are open to books designed and published for the first time in Australia.

Kespa Katsuk, currently in his final year of our bachelor of communication design, has been announced as the winner of the 'Best Designed Student Series' category. There were several other high-quality shortlisted works produced by RMIT students who also received nominations within this category.

At the 58 minute mark of [this broadcast](#) you can hear Kespa's thoughts about his winning designs, as well as view some of the other outstanding works in the category that were shortlisted.

## Support for Indigenous Students

All schools will soon receive updated information for your Aboriginal and Torres Strait Islander students from the Ngarara Willim Centre.

Upcoming events include the Kingston Koorie mob on-campus experience, Central Victorian Indigenous Careers Expo at Bendigo, and the VIEWS camp for aspiring Engineering students.

Contact Jordan at Ngarara Willim to arrange an experience with your school.

## Global High School Cybersecurity Competition - Call for Interest

### Virtual competition – Friday 1 - Sunday 3 October

[RMIT Activator](#) would like to invite Victorian high schools to nominate students to represent Australia in the California Cyber Innovation Challenge (CCIC) virtually on Friday 1 - Sunday 3 October 2021.

The CCIC cyber security competition is designed to inspire technology career pathways in students and develop interest and knowledge in the cybersecurity industry, one of the key technology worker gaps identified.

This is a global challenge, filled with exciting Gamification & Esports elements to assist in developing their cyber security skills for their futures.

Each school team not only gets access to the latest cyber security training but also receives a industry mentor to work with students teams and their teachers as they prepare for the competition.

[Register your interest](#)
