RMIT Digital Media Showcase 2021: Extremely Online

Free Online event – 6 - 9 June

Presented by RMIT Digital Media, this free online event showcases a range of student work including interactive, digital and performative pieces.

This is a great opportunity for prospective students to see various projects and opportunities available in our RMIT Media programs.

All are welcomed.

Are your students ready to work in the Music Industry?

Music Careers Expo – Tuesday 29 June, 10am – 4pm

The [Bachelor of Arts \(Music Industry\) program](#) at RMIT allows students to explore trends and issues in music and gain the skills to pursue a career in sound engineering, artist and event management, journalism and more.

Music Industry representatives will be available to chat at the Push Music Careers Expo on Tuesday 29 June from 10am to 4pm at Collingwood Yards.

RMIT Science Experience

Workshop – 29 June – 1 July

RMIT University's Science Experience gives budding scientists the opportunity to explore STEM at University in a safe and supportive environment.

With an underlying theme of food and its applications, students will participate in interactive exercises, excursions, workshops and guest presentations.

The program will feature a holistic STEM experience covering health sciences, engineering and traditional science to emerging areas like space science, food science and virtual reality. The program will have a strong focus on careers, pathways and journeys as supported by current STEM mentors from RMIT University.

Support for Indigenous Students

The Ngarara Willim Centre is pleased to welcome Jordan Carter to the team. Jordan is available for school visits to speak with your Aboriginal and Torres Strait Islander students and can be contacted at Jordan.Carter@rmit.edu.au or 0419 839 183.

Mid year applications are now open, and Ngarara Willim are once again offering scholarships to cover tuition fees for vocational education programs.

The Adaptor Project

Educators play a critical role in developing and supporting young people's transition to an increasingly complex and uncertain workplace – one that demands new skills, tools and mindset to help flourish.

The Adaptor Project (TAP) provides the toolkit to design and deliver exceptional enterprise learning experiences, that better prepare students for the modern economy.

This professional development opportunity is suitable for K-12, VET, VCAL or general high school educators across all disciplines who are enthusiastic about incorporating enterprise skills, tools and mindsets into their classrooms, institutions and programs.

Global High School Cybersecurity Competition - Call for Interest

Virtual competition – Friday 1 - Sunday 3 October

[RMIT Activator](#) would like to invite Victorian high schools to nominate students to represent Australia in the California Cyber Innovation Challenge (CCIC) virtually on Friday 1 - Sunday 3 October 2021.

The CCIC cyber security competition is designed to inspire technology career pathways in students and develop interest and knowledge in the cybersecurity industry, one of the key technology worker gaps identified.

This is a global challenge, filled with exciting Gamification & Esports elements to assist in developing their cyber security skills for their futures. Each school team not only gets access to the latest cyber security training but also receives a industry mentor to work with students teams and their teachers as they prepare for the competition.

[Register your interest](#)
