城市介绍

Qinhuangdao

If comparing the Great Wall to a dragon then Qinhuangdao is located at the head facing the sea. This wonderful summer resort is lauded as the back garden of Beijing and Tianjin, boasting a beautiful coastline and perfect ecological environment. Qinhuangdao is a time-honored city named after the first emperor in Chinese history Qin Shi Huang who once made his east inspection tour to this place and sent people to the sea to look for immortals. The city has rich tourism resources varying from unique and diverse landscapes to waterfalls, springs, and numerous wildlife and plant resources. There are many cultural relics and historic sites dotted in the city such as the Great Wall. It is also an important harbor city in North China with the time-honored Port of Qinhuangdao and a new rising industrial city.

中国·北戴河  
INTERNATIONAL

BEIDAIHE

FOR  
CHINA

Beidaihe is a famous and scenic summer resort located at the southwest of Qinhuangdao Municipality. An alluring coastal village with a small-town ambience, it provides a welcome break from city life. Its charm lies mostly in the lively inhabitants, bustling night stalls and, of course, the seaside views. From long stretches of pebbled sand to small coves, it is easy for travelers to escape the masses.

The Beidaihe Beach Resort stretches 10km east to west from the Yinjiao Pavillion to the mouth of the Daihe. In Changli, southwest of Beidaihe, there are also plans to convert a local bathing beach into another resort. This naturally pristine beach, like the rest of the Beidaihe Beach Resort, will attract millions of visitors from all over the world each summer.

合作学校简介

NEUQ

Northeastern University (NEU) was founded in 1923. It has a complete discipline structure, strong academic strength, and a national key university directly under the Ministry of Education with distinctive features in technological innovation, transfer, and industry-university-research cooperation. It is included in the first batch of national "211 Project", "985 Project" and "first-class university" in China. Located in Shenyang City, Liaoning Province, the university has another campus in Qinhuangdao City, Hebei Province.

Northeast University is a multi-disciplinary university with a focus on engineering. Its engineering discipline is in the top 1 % of ESI world ranking. The university has 68 undergraduate programs, 182 master's programs and 121 doctoral programs.

Northeastern University at Qinhuangdao (NEUQ) is an important part of Northeastern University. It is a full-time general higher education institution officially approved by the Ministry of Education. It trains all kinds of senior professional talents including undergraduates, postgraduates, and doctoral students. Since its establishment in 1987, the campus has undertaken key construction projects such as the "211 Project", "985 Project", and the major projects of the National Social Science Fund through the implementation of an open development strategy, a talent-strengthening strategy and an educational innovation strategy, and has actively integrated into Northeastern University. "Double first-class" construction, build a diversified talent training mechanism, establish a scientific management system mechanism, promote the connotative development of the school, and continuously improve the overall level of the school. The comprehensive strength and social influence of the school have been significantly improved. Now it has become an open, multi-disciplinary and coordinated development of a distinctive university. NEUQ actively promotes international schooling and carries out education for international students.
