

Explanation:

This form is used to record bibliographical details and authorship arrangements associated with research outputs produced during candidature that are included in the thesis/project for examination. This includes publications and non-traditional research outputs whether they are reproduced in part **or** in full.

Instructions:

1. All candidates should complete section 1.
2. If your thesis/project contains sole-authored research outputs, please complete section 2.
3. If your thesis/project contains outputs involving collaborators please complete section 3 and attach a statement for each output that clarifies your contribution to the work. This may be in the form of a description of your precise contributions to the research output and/or a statement of your percentage contribution. This statement must be signed by all contributors. If signatures from all the contributors cannot be obtained, the statement detailing your contribution to the output must be signed by your senior supervisor.
4. If your thesis/project contains **both** sole and co-authored outputs please complete sections 2 and 3.
5. To formally report your outputs please see the process at: <http://www1.rmit.edu.au/staff/research/publish>

Section 1. Name and details

Student ID:

Family Name:

Given Name:

Program code:

School/Centre:

Section 2. Sole-authored research outputs

This thesis/project contains published or publicly presented work and/or work prepared for publication/public presentation, which has been **sole-authored**. The bibliographical details of the work and where it appears are outlined below. (Attach a separate statement if necessary)

Section 3. Co-authored research outputs

This thesis/project contains published or publicly presented work and/or work prepared for publication/public presentation, which has been **co-authored**. The bibliographical details of the work, where it appears in the thesis/project, and what contribution I made to the work/s are explained in the attached statements. I have the permission of all co-authors to include this work in my thesis/project.

Statement/s attached.

Senior supervisor's signature (only required if co-authors signatures have not been obtained):

Signature:

Name:

Staff number:

Date:

Section 3. Candidate signature

Signature:

Date:
