

# RMIT impact assessment statement

## Special consideration application on medical/health grounds

### Please note

This impact assessment statement (IAS) is the best way to establish medical/health grounds for a special consideration application. A standard medical certificate can also be accepted if it states the dates and nature of the impact. If difficult personal circumstances are impacting your health, wellbeing and studies and you're unable to provide other supporting evidence, you may provide a completed IAS. This IAS must be completed by the registered medical/health practitioner who treated you for the condition (or supported you with your difficult circumstances). You may also include other documentation such as a letter from the practitioner.

I agree to RMIT University contacting my medical/health practitioner as necessary to clarify the information provided below.
