## What is a seeded gift card?

Our seeded gift cards have Swan River Daisy seeds in them and are intended to be planted into the ground or potting mix once you're done with the card. Planting directions are on the back.

## Can you write in the card for me?

Of course, we can! Simply choose which card you'd prefer, seeded or non-seeded, and when you check out complete your message (maximum of 150 characters). We ask that you keep messages respectful and appropriate.

## Can I send this internationally?

Sure, we can. We do suggest that if you're buying a gift card to select a non-seeded gift card due to possible biosecurity when entering the country of your choice. Please contact us at [rmitstore@rmit.edu.au](mailto:rmitstore@rmit.edu.au) for an international delivery quote.
