Notes

The % AGREE value is calculated by adding up all the items given Agree/Strongly Agree across all respondents. This is divided by the total number of items answered across all respondents. Blanks or N/As are excluded. Percentages represent the percentage of total valid responses per question, with the exception of the demographics section which represent the percentage of total responses. Charts are rescaled on valid responses to total 100%. The sum of the percentages may be 99% or 101% in some cases due to rounding. Valid responses exclude N/A and blank responses.
