Notes

Section One

Percent in Agreement is calculated as follows. Students who did not answer a significant proportion of the questions in a set, e.g., Learner Engagement, are excluded from the calculations for that set.

Responses for the remaining students are then converted to a value between 0 and 100.

e.g., Not at all=0, Very little=25, Some=50, Quite a bit=75, Very much=100, for 5 point scales

e.g., Never=0, Sometimes=33.33, Often=66.67, Very often=100, for 4 point scales

Students with an average below 55 are regarded as "Not In Agreement".

The Percent in Agreement value is then the number of students In Agreement expressed as a percentage of all students that were not excluded.

The number of responses is shown for each question and the number of students included in the calculation for each set is also shown.

Section Two

The % agree is calculated as follows: sum of all agree/strongly agree responses divided by the total number of items answered by all respondents.

Blanks or N/As are excluded.

Charts are rescaled on valid responses to total 100%.

The number of valid responses shown is the number of students who responded to any of the GTS or OSI questions.

Overall Satisfaction is based on the question: "Overall, I was satisfied with the quality of this program"

Overall Quality is based on the question: "Overall how would you rate the quality of your entire educational experience this year?"

Some values may appear as 101 % due to rounding.

Valid responses exclude N/A and blank responses.
