

## Personal Statement

### Important

As part of the Diploma of Radiation Science program, you will undertake professional placement experience in a client care environment. The information you will find in the link below outlines examples of the fundamental tasks you will be expected to carry out during professional experience placement and on-campus learning activities.

These examples are provided for your information only and are not entry requirements. However, understanding the Inherent Requirements prior to completing your application for this program is crucial.

Please review the Inherent Requirements [here](#).

### Questions

1. I have read and understood the inherent requirements of this qualification: Yes ☐
2. Outline any experience you have working in the health industry, particularly where you have supported or assisted patients.

3. Describe what qualities you would bring to the role of medical radiation practitioner:

4. After researching the three different diagnostic streams of medical radiation, what interests you about your chosen stream?
