Certificate II in Electrotechnology Studies

This pre-apprenticeship is designed to give you an edge when competing for an apprenticeship in the fields of electrical, instrumentation and air conditioning/refrigeration.

The electrotechnology pre-apprenticeship provides you with an introduction to two industries: electrical and refrigeration/air-conditioning. Taught full-time at RMIT, it mixes theory with the practical skills required across these industries.

The program allows you to develop a broad range of skills and knowledge to help you make informed decisions about your career path. It leads to an apprenticeship as an electrician or an air-conditioning and refrigeration mechanic.

*Programs may change as training packages are updated.

Learning and teaching
This program combines classroom-based activities with a range of hands-on practical tasks that will prepare you for employment as an apprentice in your chosen field.

You’ll have access to online resources through the myRMIT student portal.

Assessment methods include exams, assignments, projects and practicals.

Industry connections
Guest speakers from industry will enhance your learning experiences.

An industry engagement day is organised near the end of your program to provide you with relevant information on regulations, key employers and employment opportunities.

Students are also connected through industry associations and RMIT Skills and Jobs Centre to assist with securing a full-time apprenticeship.

Career outlook
Completion of the program will provide you with skills suitable to enhance your opportunities for apprenticeships as either an electrician or an air-conditioning and refrigeration mechanic.

After completing your apprenticeship, you can choose to work for a company or for yourself.

Professional recognition
This qualification is recognised by the Electrical Trades Union (ETU) and the National Electrical and Communications Association (NECA).

Pathways
Graduates of this pre-apprenticeship will receive exemptions in the first year of study of:
- Certificate III in Air-Conditioning and Refrigeration
- Certificate III in Electrotechnology Electrician

Program snapshot
Program code: C2219
National code: 2261VIC

Duration
Full-time: 10 weeks

Location
City campus or Bundoora

Selection mode
Direct application

How to apply
Applicants must apply directly to the School of Vocational Engineering, Health and Sciences via the Expression of Interest form.

Fees
For local fee information: rmit.edu.au/programs/fees
