Certificate IV in Tertiary Preparation

Whether you have missed out on your first study preference, or feel like you need some extra time to prepare before uni, RMIT’s Tertiary Preparation program is the perfect stepping stone to your next study move.

This one semester program has specialist business, legal, engineering and science streams designed to give you an introduction to your area of future study and develop your academic skills and confidence.

Who is this program for?

If you’re looking to undertake further study this is the program for you.

Whether you’re a Year 12 student, or returning to study after a break and wanting to pursue further education in business, legal studies, engineering and science, this program will prepare you with the skills and academic rigour you need to succeed.

What are my career outcomes?

This program prepares you for further tertiary study and general employment opportunities.

At the end of this program you may:
- undertake further preparatory studies
- apply for vocational education studies
- apply for higher education programs
- seek employment.

How will I learn?

You will study five core modules and five electives from your selected specialist stream in business, legal studies, engineering or science.

You will take part in career and further education planning to explore different tertiary options and develop a pathway for your future.

You will be in a program that uses a variety of learning and teaching approaches including:
- face-to-face classroom instruction
- online/blended learning
- workshops and seminars
- presentations and tutorials

Pathways

Depending on the stream you choose, you can take further studies in the following programs:
