

EduTV Videos: Library Linking and Embedding Guide

All material on EduTV is licensed content and can be used in Blackboard, Canvas, Google Sites and Lecture capture.

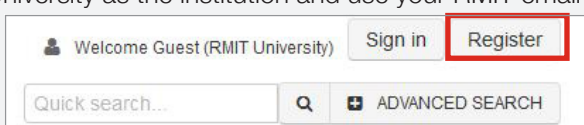

Go to rmit.edu.au/library > **Databases A-Z** > scroll down to **Videos** > [EduTV](#)

To gain full access to **EduTV** you need to login with your RMIT username and password to become a user. This allows you to Add to Favourites, Create Clips and Create My Projects:

To Register

1. Click the **Register** button.
2. From the Pop-up box fill out all the required fields
Tip: Select RMIT University as the institution and use your RMIT email address.

3. Click **Register**.

Quick search... Q ADVANCED SEARCH

Add to Favourites

Once you have created an account you can add programs to your Favourites list.

1. Search for a video on a topic of interest.
2. Click on the video title to see the full display.
3. Underneath the video window, click on the **Add to Favourites** button.
 A pop up box will appear. Type the name of a folder of your choice to add the video to.
Note: If the folder does not exist, a new one will be created.
4. Click **Save**.

The program will be saved into your 'My Favourites' section.

Linking to Blackboard and Canvas

You can Link the video into Google Sites or Canvas.

Start from the **Full Record** for the video, click on the **Link** button and copy the URL.

To link in BlackBoard

You can paste the video into BlackBoard.

1. In **Edit mode** type the name of the video in the required page in Blackboard.
2. **Select/Highlight** the text.
3. Click on the **Insert Link** button.
4. Paste the link into the **link path** box.

Link Path

5. Click **Insert**.
6. Click **Submit**.

Linking to a video in Canvas

Start from the Page where you want to link to the video.

1. Click the **Edit** Button, and in the **Rich Content** Editor mode type the name of the video relevant text in the required page.
2. Select/highlight the text.
3. Click on the '**Link to URL**' button. 
4. Paste the link in the 'Link to Website URL' box.

Link to Website URL x

This will make the selected text a link, or insert a new link if nothing is selected.

Paste or type a url or wiki page in the box below:

5. Click **Insert Link**.
6. Click **Save**. The link is inserted in your Canvas course and will open in a new tab.

Embed

You can embed into Blackboard and Canvas

Start from the **full record** for the video. Click the **Embed** button and copy the embed code.

To embed in BlackBoard

1. In **Edit** for the page, ensure you have all the edit options available by clicking on the **Show More** button. 
2. Work out where you want to embed the video, then click on the **HTML** button. 
3. Look at the code, then **paste** the embed code into the document.
4. Click **Update**.
5. Click **Submit**.

Turn the **Edit Mode** to **Off** to preview the video.

Embedding a video in Canvas

You can embed a video in Canvas.

Start from the Page where you want to embed the video.

1. Click the **Edit** Button.
2. Work out where you want to embed the video, then click the **HTML Editor** link to switch to html mode.
3. Look at the html code, then **paste** the embed code into the document.

```
<p>Air Crash Investigations: Bad Attitude&nbsp;&nbsp;&nbsp;<a
href="https://login.ezproxy.lib.rmit.edu.au/login?
qurl=http://edutv.informit.com.au/watch-screen.php?videoID=250645"
target="_blank" rel="noopener noreferrer"></a></p>
<p>&nbsp;&nbsp;&nbsp;</p>
```

4. Click **Save**.
 5. The video is embedded in your course.
- Note:** it may open in a new window and prompt users to sign in.

Creating Clips

Start from the **Full record** for the video.

1. Click on the **Create Clip** button. 
2. Create a name for your Clip project in the **Title** box.
3. Play the video and choose where you want your clip to begin by clicking on the **Begin** button. Alternatively, move the progress bar to the exact point that you want to start your clip and then click on the **Begin** button.
4. Move the progress bar to the end point of what you want to clip.

5. Click the **End** button.
6. Write a description of what the clip is about in the description field.
7. Name a folder that you want the clip to be located in.
8. Click **Save**. These items are then saved in the 'My Favourites' folder.

After **Creating Clips** these can then be sent via a **Link, Email, Facebook, Twitter** or **Embed**.

Email, Facebook and Twitter

You can also share the video link via Email, Facebook and Twitter. Start from the **Full Record** for the video, click on the **Mail**, **f (Facebook)** or **Twitter** icons.

A pop-up window will appear with the link of the program.

You can then choose which software program you want to send it through or copy the link and paste it into an open email or on Facebook or Twitter.

Creating Projects

Projects can also be created. Go to the **'My Projects'** section at the top of the screen.

1. Click on the **Create Project** button. 
2. Give your project a name.
3. Select a file type and a folder name.
4. You can add Videos or Clips, Documents or Resources to the Project using the **Project Tools** button. 

Projects can be shared using the **Link**, **Email**, **Facebook**, **Twitter** or **Embed** buttons.

Note: File types are required to be a specific format, e.g. pdf, docx, etc.

'Resources' are Study Guides that EduTV provides for some video content.
