

Sage Video: Library Linking and Embedding Guide

This guide will help you enrich your courses with videos from **Sage Video**. All material in Sage Video is licensed content and can be used in Blackboard, Canvas, Google Sites, or in Lecture Capture.

Go to rmit.edu.au/library > **Databases A-Z** > **All databases A-Z** > **S** > [Sage Video](#)

Note: RMIT University only has access to the **Counselling and Psychotherapy collections** in Sage Video.

To gain full access to **Sage Video** you need to login with your **RMIT username** and **password** and then **Create A Profile** to become a user. This allows you to **Create Clips**, **Embed** and **Share**:

To create a profile:

1. Click the **Profile** Button next to Login.
2. Click the **create profile** button
3. Fill in the required information.
4. Click **Save**.

Add to My Lists

Once you have created an account you can add programs to your 'My Lists'.

1. **Search** for video on a topic of interest.
2. RMIT University does not have full access to all of **Sage Video**. Select the button on the right hand side of the screen to limit to **Available to me**. The list will automatically update.

You can add videos to your **My Lists**.

1. Click on the **Add to my List** link below the video icon in your brief list view, or
2. Click on the **video title** and choose the **Add** button from the menu banner.

When you have added videos to your **My Lists**, they are located in the drop down menu next to the login icon at the top of the screen.

Linking to Blackboard and Canvas

You can Link the video into Blackboard or Canvas.

1. Start from the full record of the video.
2. Click on the **Link** (brackets) button.
3. Copy the URL.
4. Copy the full URL.

To link in BlackBoard

You can paste the video into BlackBoard.

1. In **Edit** mode type the name of the video in the required page in Blackboard.
2. **Select/Highlight** the text.
3. Click on the **Insert Link** button.
4. Paste the link into the **link path** box.

Link Path

5. Click **Insert**.
6. Click **Submit**.

Linking to a Video in Canvas

Start from the Page where you want to link to the video.

1. Click the **Edit** Button, and in the **Rich Content Editor** mode type the name of the video or relevant text in the required page.

2. Select/highlight the text.

3. Click on the 'Link to URL' button.

4. Paste the link in the 'Link to Website URL' box.

5. Click **Insert Link**.

6. Click **Save**. The link is inserted in your Canvas course and will open in a new tab.

Email, Facebook, Twitter, etc

You can share the videos via **Email, Facebook, Twitter, LinkedIn** and **Pinterest**. Click on the icons or fill out the email form to send it directly to a person. Scroll down to the bottom of the **Share icon box** and the social media options are available.

Embed

Embedding links into Canvas or Google Sites can be done through the Link (brackets) button.

1. Click on the **Link** button.

2. From the dropdown menu highlight the code in the **Embed Code** box.

3. Hit **Ctrl + C** to copy the Embed address

To embed in BlackBoard

1. In **Edit** for the page, ensure you have all the edit options available by clicking on the **Show More** button.

2. Work out where you want to embed the video, then click on the **HTML** button.

3. Look at the code, then **paste** the embed code into the document.

4. Click **Update**.

5. Click **Submit**.

Turn the **Edit Mode** to **Off** to preview the video.

Embedding a video in Canvas

You can embed a video in Canvas.

Start from the Page where you want to embed the video.

1. Click the **Edit** Button.

2. Work out where you want to embed the video, then click the **HTML Editor** link to switch to html mode.

3. Look at the html code, then **paste** the embed code into the document.

```
<p>&nbsp;</p>
<p><iframe src="https://login.ezproxy.lib.rmit.edu.au/login?
url=https://search.alexanderstreet.com/embed/token/06disc9n74q3idhp" width="470" height="390"
allowfullscreen="allowfullscreen"></iframe></p>
<p>&nbsp;</p>
```

4. Click **Save**.

5. The video is embedded in your course and will play in the frame. **Note:** users may be prompted to sign in.

Creating Clips

1. Click on the **Create Clip** button.

2. Select the start and end times for your clip.

3. Write a description of what the clip is about in the description field.

4. Name a folder that you want the clip to be located in and then save it. These items are then saved in the **'My Lists'** folder.

5. After Creating Clips these can then be shared via a **Link, Email, Embed** or **social media**.

Sharing Folders

Show List Items | Share | Edit | Cite All | Delete

Sage Video folders can be **Shared, Edited, Cited** and **Deleted**.

- **Show List Items** displays the folder and all of the videos in the list in full display view.
- **Share** allows you to share your entire clips or folder list to another person via email only.
- **Edit** allows you to edit the video list.
- **Cite All** allows you to export the video citations into Endnote or other citation software.
- **Delete** allows you to delete the entire folder.
