What's next...

A message from the Vice-Chancellor Martin Bean

At RMIT we focus on giving everyone the chance to be their best, shape their future and belong.

That's what our Ready for Life and Work strategy is all about and thanks to the passion of our extraordinary people we're making it a reality.

We exist to prepare our students for workplaces that are rapidly evolving and we play a part in shaping a changing world.

It began in 1887 when Francis Ormond had a vision for helping workers acquire real-world skills. The people of Melbourne matched his enthusiasm to start a very practical place of learning where students would leave ready for employment.

We still live this vision today – but now on a global scale.

RMIT has been part of every new development in work and industry since our inception.

As society and the economy have become more sophisticated and complex, RMIT has grown and changed alongside.

Now, we're a global university of design, technology and enterprise, with more than 93,000 students and 10,000 amazing teachers and staff who proudly live and breathe our purpose every day.

We're passionate about the communities we're part of and we're driven to make a purposeful contribution.

We shape the world with our research and impactful partnerships with industry, government and enterprise.

We provide life-changing experiences when we give our students their first, second or even third opportunity to prepare for the world of work they aspire to.

Today, more than ever, the transformational power of education is lifelong, generations deep and worldwide.

The one certainty is more and greater change in every industry and every location.

So with the world unlike it's ever been before, we're focused on ensuring our students are ready for life and work, whatever form that takes.

At RMIT, as we look to 2021 and beyond, we're excited about the possibilities.

Martin Bean CBE
Vice-Chancellor and President

Acknowledgement of Country

RMIT University acknowledges the people of the Woi wurrung and Boon wurrung language groups of the eastern Kulin Nations on whose unceded lands we conduct the business of the University. RMIT University respectfully acknowledges their Ancestors and Elders, past and present.

RMIT also acknowledges the Traditional Custodians and their Ancestors of the lands and waters across Australia where we conduct our business.

Why choose RMIT?

RMIT has been awarded 5 QS stars in all possible categories:

- Teaching
- Innovation
- Employability
- Facilities
- Inclusiveness
- Research
- Internationalisation
- Specialist criteria (art and design)

Top 1%

of universities globally¹

#22

in the world out of all universities under 50 years old²

#5

graduate employment rate in Australia⁵

#1

Victorian university for student engagement⁴

2000+

Explore our campuses

Our award-winning campuses are home to a thriving student population.

They are constantly evolving and expanding to meet the needs of our students and of modern university life.

Melbourne

Situated in the very heart of the CBD, the City campus has been an iconic part of the Melbourne skyline for more than 130 years.

Bundoora

Situated in the north of Melbourne, the leafy Bundoora campus is home to many of RMIT's education, biomedical, health and science courses.

Brunswick

Our Brunswick campus is a creative and multicultural hub. It is home to many of RMIT's design courses, including fashion, textiles, graphic and industrial design.

Vietnam

Study abroad at RMIT Vietnam and experience an unforgettable semester in Asia. Our beautiful Hanoi and Saigon South campuses offer clean, green environments and expansive study spaces.

Europe

Although not a student campus, RMIT's European hub in Barcelona acts as a gateway for European research, industry, government and enterprise to connect with innovative talent in Australia. Opportunities exist for students to engage with our European centre through study tours, mentoring, internships and research.

Global experiences

RMIT has partnerships with 215 universities around the world

From international study opportunities to foreign work placements, you'll gain invaluable life and work experience through our network of global partners.

Student exchange programs

Spend an unforgettable semester or two at one of RMIT's 200+ partner institutions.

Study tours

Join fellow students on a two to four-week trip to the Americas, Asia or Europe under the leadership of an RMIT academic.

Global leadership programs

Develop your own leadership style and enhance your cultural intelligence with a range of free programs offered in Melbourne and across Asia.

Cross-campus study

Study at RMIT Vietnam's Ho Chi Minh City or Hanoi campuses for up to a year.

Our interlocation partners

RMIT delivers a range of courses internationally with our interlocation partners. These include Singapore Institute of Management, Shanghai University of International Business and Economics, Hong Kong Arts School and VTC Shape.

Industry experience

As an RMIT student, you can access work-integrated learning, volunteer opportunities, internships, leadership training and research programs around the world.

Get future ready

Find a job, plan your career and check out all the opportunities for work and study at RMIT.

Job Shop

RMIT's Job Shop is your drop-in service centre for all things career-related. Job Shop offers services such as:

- resumé and cover letter reviews
- help finding job opportunities
- career workshops and events
- careers consultations

rmit.edu.au/jobshop

RMIT Activator

Activator is RMIT's home of entrepreneurship. Our workshops, online learning and start-up programs position students to solve the biggest problems out there and take on the future of work. At Activator, you can access mentors, attend masterclasses, request business coaching, apply for funding and learn the enterprise skills you need to support your ideas.

No matter what your future looks like, plug into our ecosystem of entrepreneurs, intrapreneurs, start-up founders and innovators and let us help you on your journey to success.

rmitactivator.edu.au

RMIT Creds

RMIT Creds are micro-credentials that develop your skill set beyond your area of study. These credentials have been co-designed with industry to ensure you're ready for the changing world of work. They cover subjects such as digital literacy, leadership, sustainability, innovation, collaboration and communication.

Most Creds are available online and are short in duration, ranging from 60-minute snippets to several hours of learning.

rmit.edu.au/creds

Work-integrated learning

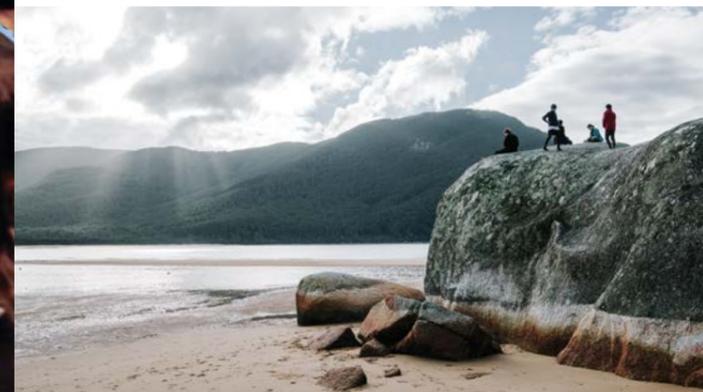

At RMIT, work-integrated learning (WIL) is embedded into every stage of your student experience, so you have the opportunity to put what you've learnt in the classroom into practice. Through industry work placements, internships, seminars, field trips, projects and mentoring, you'll be ready to make an impact from day one of your career.

Future Edge employability program

Future Edge is a flexible, co-curricular program designed to increase the employability of all RMIT students. The program helps you to craft and build your 'personal brand' in order to stand out in an incredibly competitive employment landscape. It will complement your time at RMIT and help you build industry-specific and practical skills to help you transition into your career.

rmit.edu.au/future-edge

Life at RMIT

Trips and tours

Looking for adventure? Take a break from the books and explore the city of Melbourne or the mountains, beaches and forests of Victoria on a student tour.

Cuddle a koala, go skiing on Mount Hotham, visit the Twelve Apostles, or just find the best brunch spot in town. See and experience it all with RMIT.

Sports and fitness

At RMIT we have more than 40 sports clubs, from basketball to Brazilian jiu jitsu. Join a club at RMIT and you're not just keeping fit and doing something you love; you'll also make lots of new friends and may even get to do some travelling.

The Redbacks are RMIT's sports team collective. Redback teams compete at a national level in the Australian University Games.

Whether you're sporty, creative or just curious, RMIT's clubs, collectives, events and trips will help you meet new people, make connections and discover more of Melbourne.

Mates at RMIT

New to Melbourne? If you're joining us from a regional, rural, interstate or international location, we'll help you settle in to your new home. Mates at RMIT connects you with current students to help make navigating university life a little easier.

Sign up as a student mentee and you'll get your own mentor to show you where to go and what to do around RMIT.

RMIT creative clubs

No matter what you choose to study, RMIT has a creative group, activity or collective that's open to you.

Our dance classes, performing arts troupes and media makers are always looking for new members and they're open to extroverts and introverts alike.

What are you interested in?

You like to design, create, express yourself and explore new ideas

You like to discover, observe, investigate and experiment

You like finding solutions to problems, making and fixing things or working with tools and equipment

You like being outdoors, moving and working outside. You're inspired by the natural world

You like working with people and you're passionate about protecting their welfare and future

You like meeting and talking to people, debating ideas and leading others

Pathways

The traditional path to university isn't the only one. Pathways provide opportunities for students to access undergraduate study by first studying one of our many vocational courses.

Vocational Education pathways

RMIT's certificates, diplomas and advanced diplomas help you gain the practical skills you need for excellent job prospects. They also provide credit towards RMIT degrees, with some courses providing up to two years credit towards a bachelor degree.

Associate degree pathways

An associate degree is a two-year university course that gives you a strong grounding in your field. You may also gain credit towards a related RMIT bachelor degree.

Sarah's pathway

Sarah wants to become a mechanical engineer. She has just completed Year 12, but her ATAR score does not qualify her for entry into any undergraduate engineering degree and she did not study mathematics during VCE.

Advanced Diploma of Engineering (Mechanical)

Sarah enrolls in the Advanced Diploma of Engineering (Mechanical), which does not require her to have studied a mathematics subject as a prerequisite.

Duration: 2 years

Bachelor of Engineering (Mechanical Engineering) (Honours)

Sarah successfully completes the Advanced Diploma of Engineering (Mechanical) and is guaranteed entry into the Bachelor of Engineering (Mechanical Engineering) (Honours) with exemptions equivalent to 1.5 years of full-time study.

Graduate!

Sarah completes the Bachelor of Engineering (Mechanical Engineering) (Honours) after 2.5 years of full-time study.

Total duration: 4.5 years

Architecture

Study areas

- Architecture
- Interior design
- Landscape architecture

#22 in the world for architecture¹

#3 in Australia for architecture¹

Excellence in research
RMIT's research in architecture is rated as above world standard²

Victorian Architecture Medal

Practices led by RMIT staff, adjunct professors or alumni have received the Victorian Architecture Medal every year from 2013 to 2019

Learn abroad

Study in the heart of Los Angeles with our exchange partner, Southern California Institute of Architecture

Architecture and urban design at RMIT address compelling, contemporary issues such as globalisation and rapid urbanisation. Our students are encouraged to be risk-takers, engaging with new and emerging technologies to explore their implications and possibilities for architectural design. We promote project-based learning and research, preparing our students for work and industry engagement. We have extensive links with industry through our teaching staff, many of whom are award-winning, practising architects.

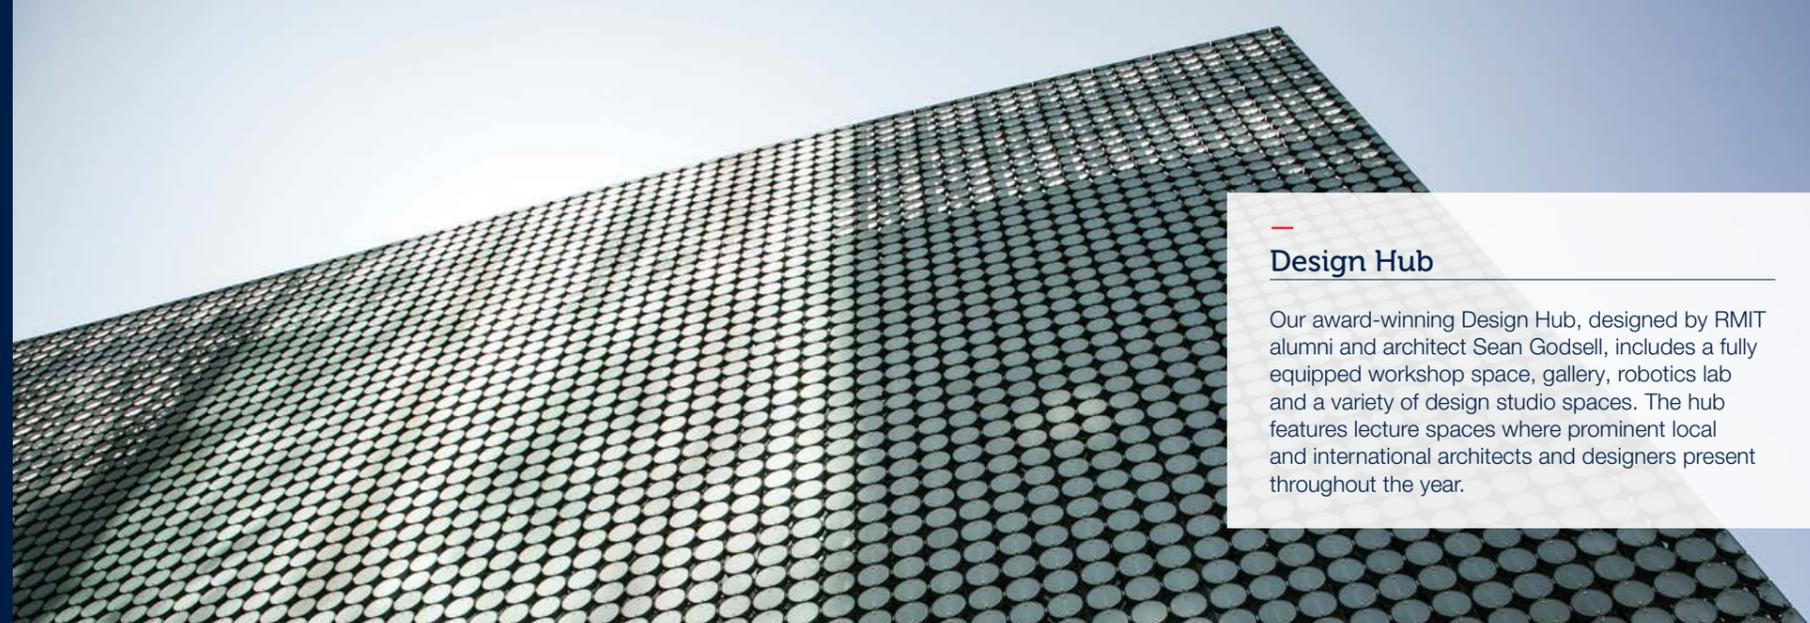

At RMIT you will develop a rich understanding of architecture and build a diverse set of skills that you'll use throughout your career, including visual communication, drawing, 2D and 3D design and problem-solving.

Work-integrated learning

Many of our courses offer opportunities to gain invaluable industry experience with design studios offered by leading local and international design practices.

Students work in studios under the supervision of experienced designers and architects, working on real projects or topical contemporary issues.

For more information visit rmit.edu.au/architecture

Design Hub

Our award-winning Design Hub, designed by RMIT alumni and architect Sean Godsell, includes a fully equipped workshop space, gallery, robotics lab and a variety of design studio spaces. The hub features lecture spaces where prominent local and international architects and designers present throughout the year.

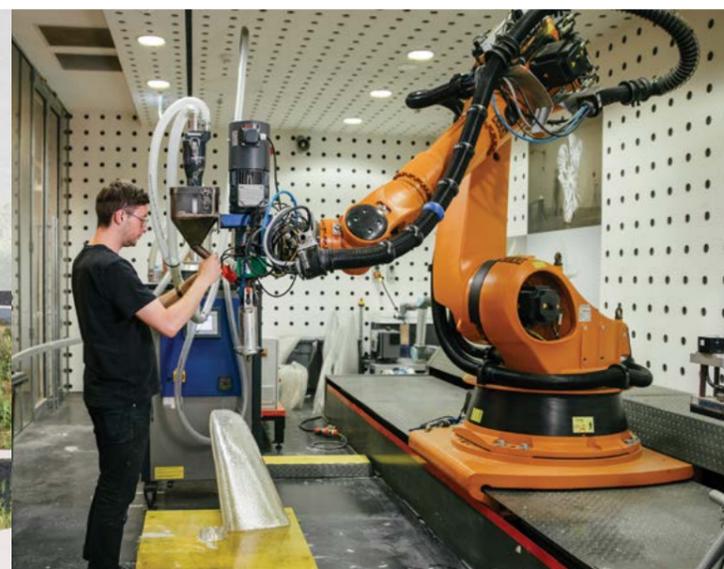

Student project

Landscape architecture students are working alongside the Heide Museum of Modern Art on a renewal masterplan.

Students have been invited to explore the site and reimagine the environment to improve audience experience of this unique cultural landmark.

Image: Student work by Tang Boshuo

RMIT Architectural Robotics Lab

The RMIT Architectural Robotics Lab explores the application and implications of robotics to architectural design, building fabrication, assembly and construction. The lab operates to develop speculative research and the application of that research to industry projects. The lab is situated within RMIT University's School of Architecture and Urban Design and operates from the Design Hub.

Designing with augmented reality

Many of RMIT's design studios use HoloLens technology to design and fabricate complicated assemblies. While 2D drawings are incredibly useful for describing two-dimensional geometry, non-planar geometries are more difficult to describe. With HoloLens technology, students can view their 3D designs in context and make quick changes and iterations within an immersive, virtual environment.

Alex Pestrivas
Bachelor of Interior Design

Studying [at RMIT] has shown me that interior design is more creative than I first thought. I'm creating different relationships and experiences in the space. I'm learning to think about how a space makes a person feel, as well as the design choices of how a space looks.

The teaching staff at RMIT are really inspiring. They share their work and experiences from their own practices and that gives us a good sense of what we can do. My highlights of studying so far have been working on live projects and interacting with professionals within the design industry.

ARCHITECTURE	
<p>Bachelor of Architectural Design</p> <p>RMIT Architecture has an international reputation for design excellence. From your very first semester, you will be immersed in hands on creative studios developing advanced design skills and a rich understanding of the built environment.</p> <p>PREREQUISITES VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.</p> <p>PATHWAYS</p> <ul style="list-style-type: none"> ■ Adv Dip of Building Design (Architectural) (2 years*). - video

RMIT's School of Art is a hub for emerging artists to engage in contemporary practice and gain local and international exposure. RMIT encourages diverse, challenging and innovative art, craft and photographic practices and research. We are ranked first in Australia and 12th in the world for art and design¹, placing RMIT in the top echelon of the world's art and photographic educational institutions.

Set in the centre of Melbourne's flourishing creative scene, the school enjoys a 130-year history of graduating artists, photographers and craftspeople with skilled hands and cultivated minds, ready for life and work. RMIT proudly supports artists-in-residence, galleries, public programs, international conferences, student and staff exchange, study tours and publishing – all with a strong focus on community engagement and social transformation.

Travel opportunities

RMIT runs regular study tours to experience festivals and meet prominent artists in New York, Hong Kong, Paris, Shanghai and Berlin. Students are also given the opportunity to study at our interlocation partner, Hong Kong Art School, where RMIT delivers its fine art course.

For more information visit rmit.edu.au/art

Ceramics

Ceramics is a specialisation within the Bachelor of Arts (Fine Art) and allows students to experiment, design and conceptualise with clay. The ceramics studio is equipped with pottery wheels, a dedicated mould-making area, a glaze lab and electric and gas-fired kilns, enabling students to explore a range of creative techniques and processes from throwing to sculpting.

Lyon Housemuseum

RMIT partners with Lyon Housemuseum Galleries to offer placement opportunities for arts management students. Students explore specialisations such as marketing, collections and curation in a contemporary gallery environment.

The Lyon Housemuseum is an initiative of Corbett and Yueji Lyon and builds on a lineage of private art collections displayed in residential settings.

Gold and silversmithing

As a studio specialisation within the Bachelor of Arts (Fine Art), RMIT's gold and silversmithing workshop is extensively equipped with traditional and contemporary metal working technologies. Students work under the tuition of contemporary artists, jewellers and craftspeople and the workshop allows students to learn metal fabrication techniques such as sawing, filing, cold-joining and soldering.

Photography lab

RMIT's photography facilities allow students to practise in purpose-built spaces with carefully controlled lighting conditions. With individual bays for self-directed projects, industry-standard lighting equipment, long throw options, high ceilings and a large cyclorama, RMIT provides the perfect environment for you to hone your craft.

Biomedical Sciences

Study areas

- Biomedical science
- Biotechnology
- Laboratory medicine
- Pharmacy
- Pharmaceutical sciences

Excellence in research

RMIT's research is ranked by the ARC as well above world standard in:

- clinical sciences
- pharmacology and pharmaceutical sciences
- medical physiology
- microbiology

Australian Institute of Medical Scientists

RMIT's Bachelor of Biomedical Science (Laboratory Medicine) is the only Victorian degree accredited by the Australian Institute of Medical Scientists (AIMS)

Only Victorian university

to offer all the following majors:

- haematology
- anatomical pathology
- medical microbiology
- clinical biochemistry
- transfusions and transplantation science

Study abroad

Laboratory medicine provides opportunities for students to travel overseas and undertake 10 to 13 weeks of professional practice in an approved laboratory. Destination countries include the UK, the US, Ireland, Singapore, Korea and Sweden

Biomedical sciences help us understand disease, how it occurs and how we can control, cure and prevent it. Biomedical sciences at RMIT will teach you to provide practical solutions to global health issues and gain a better understanding of the ever-increasing role that technology plays in how our bodies function.

All our courses are co-designed with industry to ensure they are relevant and meet the needs of industry, government and the community. They will prepare you to work anywhere in Australia in diagnostic pathology, medical research pharmacy, laboratory medicine, pharmaceutical sciences and biomedical research.

Work-integrated learning

RMIT's biomedical science degrees include 40 weeks of work placements during third and fourth years. Students have been placed at major hospitals, including Royal Children's, Peter MacCallum and Osteon Health, as well as in private laboratories. These placements include microbiology, haematology and biochemistry.

For more information visit rmit.edu.au/biomedicalsciences

Model pharmacy

Develop your formulation, compounding and patient-service skills in RMIT's state-of-the-art model pharmacy at the Bundoora campus.

Amanda Angelov
Bachelor of
Biomedical Science
(Laboratory Medicine)

During my studies I was fortunate to complete a 10-week work placement in London. It was a great chance to compare the way a laboratory works in another country.

The trip afforded me invaluable work experience and industry contacts, should I ever decide to work in the UK.

After another placement at Peter MacCallum Cancer Centre, I was invited to stay on at the pathology laboratory as a trainee scientist.

BioFab3D@AMCD

RMIT is a key partner in BioFab3D@AMCD, Australia's first robotics and biomedical engineering centre embedded within a hospital. Its vision is to "lead to real-time printing of 3D implants while a patient is in surgery." The collaborative partnership enables RMIT to remain at the forefront of the 3D bioprinting revolution.

Our industry partners include

Biosciences building

The award-winning \$32-million biosciences building at our Bundoora campus is at the centre of RMIT's biomedical science courses. It is designed to give students an experience that meets the needs of today's healthcare industry, with innovative teaching spaces and state-of-the-art laboratories and equipment that replicate clinical environments.

Kristy Meiselbach
Bachelor of Biomedical Science

I've learnt about many aspects of the human body and understand how research is used to make new discoveries in the improvement of health and wellbeing. Since my second year, I've interned at the Walter and Eliza Hall Institute of Medical Research. This allowed me to work in a real lab and apply the theory I learnt at university to an actual project.

BIOMEDICAL SCIENCES

Bachelor of Biomedical Science

Study topics such as cell biology, biochemistry, molecular biology, physiology and anatomy, pathology and microbiology. This course prepares you for careers in research (at universities, hospitals and biomedical research institutes) and in medical and pharmaceutical research.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 20 in Chemistry; Units 3 and 4 – a study score of at least 20 in one of any Mathematics or Physics.

PATHWAYS

- **[Assoc Deg] in Applied Science** (2 years') plus **Bachelor of Biomedical Science** (additional 2 years') = 4 years' total study
- **[Cert IV in Laboratory Techniques** (1 year) plus **Dip of Laboratory Techniques** (1 year) plus **Bachelor of Biomedical Science** (additional 2 years') = 4 years' total study

ATAR (2020: 70.40)

Bachelor of Biomedical Science (Laboratory Medicine)

Apply scientific investigation to diagnose, treat and better understand disease. You'll work as part of a team with doctors, pathologists and other scientists and play a vital role in the healthcare system. A range of specialisations allows you to work in hospitals, diagnostic pathology laboratories, research laboratories, health policy, pharmaceutical science and forensic medicine.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 20 in one of Biology or Chemistry; Units 3 and 4 – a study score of at least 20 in one of any Mathematics or Physics.

PATHWAYS

- **[Assoc Deg] in Applied Science** (2 years') plus **Bachelor of Biomedical Science (Laboratory Medicine)** (additional 3 years') = 5 years' total study
- **[Cert IV in Laboratory** (1 year) plus **Dip of Laboratory Technology** (1 year) plus **Bachelor of Biomedical Science (Laboratory Medicine)** (additional 3 years') = 5 years' total study

1 of 3

Australian universities ranked as above world standard in building research¹

250+

employers of choice

RMIT's property, construction and project management courses maintain relationships with 250+ industry connections through our Employer of Choice program

Industry accreditation

RMIT's courses are accredited by:

- Australian Institute of Building
- Royal Institute of Chartered Surveyors
- Chartered Institute of Building
- Australian Institute of Quantity Surveyors

New technologies

RMIT's construction management courses are among the first in the world to embed 4K spherical virtual technology and building information modelling into the curriculum

The development of our built environment is about more than just constructing roads and buildings. Today's growing cities need to be carefully and innovatively planned to create liveable and sustainable spaces that can accommodate diverse and growing communities.

RMIT's building courses connect you with industry mentors to gain the professional skills required to design, shape, finance and manage the urban spaces we live and work in.

Work-integrated learning

RMIT's School of Property, Construction and Project Management partners with 250+ leading organisations through our unique Employer of Choice program. The program provides undergraduate students with opportunities to:

- participate in the Industry Mentorship program
- undertake employment that supports their professional development
- gain invaluable industry experience under the supervision of industry experts
- grow their professional networks

For more information visit rmit.edu.au/building

Sustainable Building Innovation Laboratory (SBi)

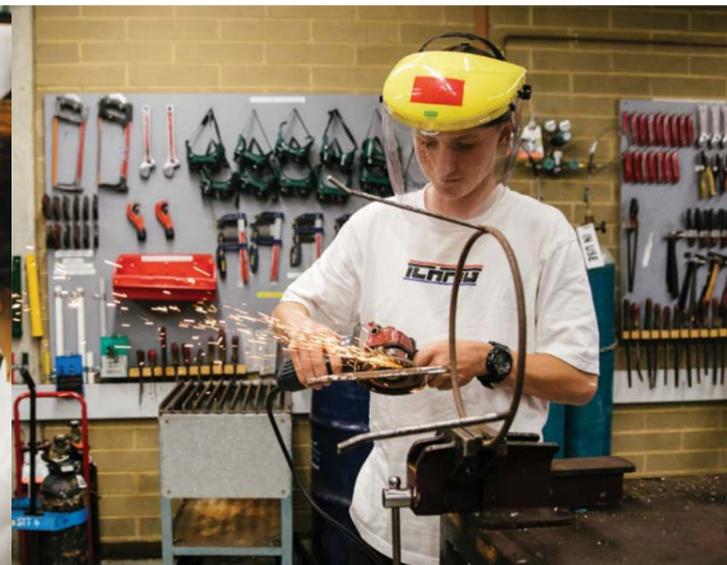

The mission of the SBi Lab at RMIT is to accelerate the shift towards sustainable building through research and education. The lab focuses on the development of new materials, building systems, design methods, regulations and policies and the effect these factors have on the sustainability performance of buildings.

Building information modelling (BIM)

BIM is at the forefront of digitalisation in the built environment and is rapidly transforming the building and construction sector.

Sponsored by Navisworks, 15 construction management students from RMIT took part in the BIM Immersion program in 2019. Students received invaluable industry training from Navisworks and will go on to represent the University at the BIM Immersion Competition in 2020.

Trades facilities

RMIT's trade facilities enable our vocational students to learn the technical skills of their chosen profession in purpose-built spaces. Refrigeration CO₂ labs, plumbing pits, mock construction sites and instrumentation labs allow our students to experience valuable, hands-on training in a simulated work environment.

Our industry partners include

Learning with VR

The use of virtual and augmented reality software enables building and construction students to enter and experience a completely immersive environment. With the aid of VR, students can virtually access construction sites safely, in class or at their own pace. The use of VR helps undergraduate construction students to gain a better understanding of the spatial qualities of a building, or learn about structural components and assemblies in static models.

¹ Excellence in Research Australia 2018 report by the Australian Research Council

Madeline Blackwood
Diploma of Building and Construction (Building)

The Diploma of Building and Construction prepares you for working in the industry by teaching new and improving construction methods.

The lecturers helped us to meet industry representatives at the RMIT Industry Links night, so we could build our own networks.

I won the award for Outstanding Female Graduate at the Industry Link event, which was amazing. My advice to future students is that you just have to dive in!

BUILDING AND TRADES	
<p>Diploma of Building and Construction (Building)</p> <p>Examine principles, techniques and regulations of the building and construction industry for all types of medium-rise and wide-span buildings. Completing this course is a minimum requirement for Associate membership of the Australian Institute of Building.</p> <p>NCC: CPC50210</p>	<p>C5256</p> <p>City</p> <p>2 years full-time or 5 years part-time</p> <p>VTAC: 3200372014</p> <p>ATAR: Not applicable</p>
<p>Certificate IV Building and Construction</p> <p>This course is geared towards people with at least three years experience in the building industry who are, looking to attain formal registration as a builder. Students examine the principles, techniques and regulations of the building and construction industry primarily related to residential construction.</p> <p>NCC: CPC40110</p>	<p>C4274</p> <p>City</p> <p>6 months full-time or 1 year full-time</p> <p>ATAR: Not applicable</p>
<p>Certificate IV in Refrigeration and Air-conditioning Systems</p> <p>This course is designed for qualified air-conditioning and refrigeration mechanics looking to improve their career opportunities by developing specialist skills in this field. It is also available as an apprenticeship.</p> <p>PREREQUISITES</p> <p>It is recommended that you have completed a relevant Certificate III trade qualification or have relevant industry experience.</p> <p>NCC: UEE42911</p>	<p>C4301</p> <p>City</p> <p>2 years part-time</p> <p>ATAR: Not applicable</p>
<p>Certificate IV in Electrical – Instrumentation</p> <p>This course is for electrical apprentices who want to broaden their skills in instrumentation while satisfying the Electrical Regulatory Authority Council's requirements to be a licensed electrician.</p> <p>PREREQUISITES</p> <p>Training contract as a Certificate IV in Electrical – Instrumentation apprentice by the Australian Government or 'A' class electrician's licence recognised in Australia.</p> <p>NCC: UEE4041</p>	<p>C4315</p> <p>City</p> <p>4 years part-time</p> <p>ATAR: Not applicable</p>
<p>Certificate IV in Instrumentation and Control</p> <p>This course is for those employed as instrument or electrical apprentices, or for licensed electricians who would like to upskill in the area of instrumentation and become a dual-tradesperson.</p> <p>PREREQUISITES</p> <p>Training contract as an apprentice by the Australian Government or 'A' class electrician's licence recognised in Australia.</p> <p>NCC: UEE42211</p>	<p>C4317</p> <p>City</p> <p>4 years part-time</p> <p>ATAR: Not applicable</p>
<p>Certificate IV in Plumbing and Services</p> <p>The course equips you with the knowledge to manage and design plumbing projects.</p> <p>PREREQUISITES</p> <p>Licensed by the Victorian Building Authority or completing final year of a plumbing apprenticeship.</p> <p>NCC: CPC40912</p>	<p>C4338</p> <p>City</p> <p>2 years part-time</p> <p>ATAR: Not applicable</p>
<p>Certificate III in Air-Conditioning and Refrigeration APPRENTICESHIP</p> <p>This course provides you with the skills to select components, install, set up, test, repair and maintain refrigeration systems, large-scale equipment for food storage and preservation and air-conditioning and air distribution equipment.</p> <p>PREREQUISITES</p> <p>Students must be an apprentice under the Australian Apprenticeships Scheme and be registered with an Australian Apprenticeship Centre.</p> <p>NCC: UEE32211</p>	<p>C3295</p> <p>City</p> <p>4 years part-time</p> <p>ATAR: Not applicable</p>
<p>Certificate III in Electrotechnology Electrician APPRENTICESHIP</p> <p>The Certificate III in Electrotechnology Electrician is for people who are employed as electrical apprentices. This course provides you with the skills to select, install, set up, test, repair and maintain electrical systems and equipment.</p> <p>PREREQUISITES</p> <p>Students must be an apprentice under the Australian Apprenticeships Scheme, be employed in the electrical industry and be registered with an Australian Apprenticeship Centre.</p> <p>NCC: UEE30811</p>	<p>C3296</p> <p>City</p> <p>4 years part-time</p> <p>ATAR: Not applicable</p>
<p>Certificate III in Plumbing APPRENTICESHIP</p> <p>This course provides training for plumbing apprentices and covers the practical and theoretical aspects of the industry. You will specialise in gas-fitting, water, sanitary, roofing and drainage.</p> <p>PREREQUISITES</p> <p>Students must be an apprentice under the Australian Apprenticeships Scheme, be employed in the plumbing industry and be registered with an Australian Apprenticeship Centre.</p> <p>NCC: CPC32413</p>	<p>C3312</p> <p>City</p> <p>3 years part-time through block release</p> <p>ATAR: Not applicable</p>
<p>Certificate II in Construction Pathways PRE-APPRENTICESHIP</p> <p>This pre-apprenticeship improves your understanding of the construction industry, its expectations and how you can progress to employment opportunities within the construction industry.</p> <p>NCC: CPC20211</p>	<p>C2223</p> <p>City</p> <p>16 weeks full-time, 4 days per week 8am–4pm</p> <p>ATAR: Not applicable</p>

<p>Certificate II in Electrotechnology Studies (Pre-Vocational) PRE-APPRENTICESHIP</p> <p>The electrotechnology pre-apprenticeship provides you with an introduction to two industries: electrical and refrigeration/air-conditioning.</p> <p>PREREQUISITES</p> <p>Applicants are expected to have the equivalent of Year 10-level skills in literacy and numeracy.</p> <p>NCC: 22261VIC</p>	<p>C2225</p> <p>City and Bundoora</p> <p>16 weeks full-time</p> <p>ATAR: Not applicable</p>
---	--

<p>Certificate II in Plumbing PRE-APPRENTICESHIP</p> <p>The Certificate II in Plumbing pre-apprenticeship is a nationally recognised qualification that prepares you for a plumbing apprenticeship and provides you with the basic skills and training in the plumbing field.</p> <p>PREREQUISITES</p> <p>Applicants are expected to have the equivalent of Year 10-level skills in literacy and numeracy.</p> <p>NCC: 22304VIC</p>	<p>C2222</p> <p>City</p> <p>16 weeks full-time</p> <p>ATAR: Not applicable</p>

Mia Shenken
Bachelor of Applied Science (Property and Valuation)

In first year, all the students from property, construction and project management study together and so that's where I developed an understanding of property and realised that the property and valuation subjects were what I liked the most.

My interests cover so many areas. So I had to study something that is broad ranging and that's what property is. The fact that it covers economics, construction, design and so many elements — it just fits with me.

SUSTAINABLE PRACTICES

Bachelor of Environmental Science / Bachelor of Environment and Society DOUBLE DEGREE See page 87 for details

Bachelor of Environment and Society
Develop practical solutions to problems in climate change, biodiversity and environmental management. This degree focuses on human impact on the world's environment. Graduates can work with government, community and private and public businesses.

RMIT Blockchain Innovation Hub

The world's first research centre on the social science of blockchain in simulated environments

Whether you want to lead or be a problem solver, learn new skills or build on existing knowledge, RMIT's business courses can help you make an impact. Our industry-focused courses are designed with your future in mind. RMIT's business management and administration courses provide you with fundamental skills such as accounting, marketing, project management and finance.

Electives in persuasive communication, cross-cultural awareness, operational leadership and strategic decision-making allow you to specialise in your area of interest and set yourself apart from the crowd. Our courses offer opportunities to work on industry projects, in professional practice or in simulated work environments, preparing you for your future career.

Work-integrated learning

From ASX-listed companies to non-profit organisations, RMIT partners with organisations of every size to provide our students with industry-relevant learning. The Co-op program is a paid, 8-to-12 month, full-time work placement as part of a four-year Bachelor of Business degree.

Co-op provides students with opportunities for mentorship, leadership and management and a dedicated RMIT team member supports each student throughout the Co-op journey.

For more information visit rmit.edu.au/business

\$1.5M+

RMIT has allocated \$1.5M+ in funding to student start-ups since 2015

Own your future

RMIT offers electives designed to build your skills for self-employment

RMIT Activator

Activator is RMIT's home of entrepreneurship. Our workshops, online learning and start-up programs position students to solve the biggest problems out there and take on the future of work. At Activator, you can access mentors, attend masterclasses, request business coaching, apply for funding and learn the enterprise skills you need to support your ideas.

rmitactivator.edu.au

Fastrack Innovation program

Fastrack is a university-wide elective available to students of all disciplines. It partners with leading industry experts from business, design and technology to co-design and deliver solutions to complex challenges.

Fastrack has worked with partners including NAB, ANZ, Deloitte, Kmart, Crime Stoppers and Victorian Legal Aid. Our partners sponsor the innovation challenges that students work on and allocate subject-matter experts to Fastrack teams, who serve as valuable mentors to participating students.

Behavioural Business Lab (BBL)

The BBL is a multidisciplinary team that applies psychological insights to study people's decision making in business contexts. Members of the BBL have expertise in psychology, economics and marketing and employ qualitative and quantitative techniques to generate a deep understanding of the process of decision making. The team designs strategic interventions using creative problem-solving tools such as design thinking.

Our industry partners include

Deloitte.

Grant Thornton

RMIT Trading Facility (RTF)

The RTF is one of the largest tertiary-based facilities of its kind in Australia. It receives live market data from the world's leading source of intelligent information for businesses, Refinitiv, as well as other financial analysis tools used by leading banks and investment firms. It provides information on bonds, bills, foreign exchange, share prices and more. The courses run in the RTF use this data in real-time trading simulations and technical workshops.

¹ RMIT is ranked third for blockchain technology research by digital assets provider Kaiko

Mirlinda Aliu
Bachelor of Business
(Economics and Finance)
(Applied)

I love the city campus, how it's in the middle of everything and I've definitely loved working with my tutors.

One especially, who really helped me with one of my subjects. She sat me down and spoke to me as if we were friends and that she wasn't my superior. It shows tutors aren't just your teachers, they are real people too and they want you to succeed.

We have group projects and in the Co-op year we have internships that I feel are creative because we're learning differently, in a different world than just the classroom.

UNESCO City of Literature

Study in Melbourne, the second city in the world to be designated a UNESCO City of Literature³

Excellence in research

RMIT's research in communication and media studies is rated as well above world standard, one of only two Australian universities to achieve this rating⁴

At RMIT, you'll develop the communication skills you need to succeed in a rapidly evolving media landscape. Our courses are designed to enhance your communication skills, provide media training and allow you to move fluently between the classroom, studio and workplace.

We bring industry into the classroom and regularly partner with international and local media organisations and festivals so you can network with industry professionals and get a head start on the competition.

Work-integrated learning

RMIT's communication courses foster rewarding relationships with industry, including cultural and community partners. Students work with industry during placements, on collaborative projects and in workforce development and research. Our students have worked with organisations including:

- Ogilvy
- ACMI
- Film Victoria
- SBS Radio

For more information visit rmit.edu.au/communication

Bowen Street Press (BSP)

BSP is an independent, student-led publishing house at RMIT. It produces a range of fiction and non-fiction projects, from flash-fiction zines to literary anthologies, magazines and everything in-between. With an emphasis on high-quality editorial work, design and production, BSP takes every project from the initial idea through to the finished product. BSP works in collaboration with emerging student writers, industry professionals and not-for-profit organisations.

Graduate success

Bachelor of Communication (Journalism) alumni Jedda Costa and three other RMIT alumni were selected for prestigious ABC cadetships in 2019. During their studies each student completed an internship with the ABC and hosted one of RMIT's live television news programs as part of their studies.

The cadets will be based around the country and will receive on-the-job, multi-platform reporting training across TV, radio and online media.

RMIT Media Precinct

RMIT's Media Precinct offers students access to state-of-the-art facilities that support current and future trends in media production. It includes five TV studios and control rooms and supporting spaces such as green rooms, makeup rooms and production offices. Used for live broadcast, recordings and audio mixing, the studios include virtual and augmented reality set technologies, where broadcast and gaming technologies converge.

Our industry partners include

ABC Fact Check

RMIT has partnered with ABC News to create the award-winning news service Fact Check. Based in RMIT's Media Precinct, journalism students and industry professionals work together to examine the claims made by public figures and groups in public debate, providing an essential service in the effort to maintain factual journalism in today's changing media landscape.

Keira Hastings

Bachelor of Communication (Advertising)

I thought [advertising] would be an awesome way to express my creativity, as well as influence and participate in the world around me. I got a lot of advice from family, friends and the career adviser at school that RMIT was the best uni to attend for a creative and business degree, so it was at the top of my preferences.

We had a really influential teacher in our final semester who was a rock for us in those stressful last weeks. We were considering what we would do after graduation and she gave us great advice from her industry perspective.

Design

Study areas

- Animation and interactive media
- Game design
- Graphic and communication design
- Industrial, product and furniture design

Official Design Partner
of the National Gallery of Victoria

Official Research Partner
of Australian Centre for the Moving Image

#1 in Australia for art and design¹

#12 in the world for art and design¹

#10 in the world for animation²

Exchange partnership
with Parsons The New School of Design, NYC

At RMIT, our vision is to reimagine the future and design a more resilient world. Our students are immersed in hands-on studio learning to invent, visualise and prototype design solutions. Our impressive academic team, close industry connections and cutting-edge facilities allow us to provide leadership in new and emerging fields of design.

Through your studies, you'll expand your design skills and gain valuable experience by working on client projects, learning from industry mentors and design experts. At RMIT you will investigate contemporary, cultural and environmental aspects of design and technology and graduate as a highly trained designer and visual problem solver.

Work-integrated learning

At RMIT you'll expand your design skills and gain valuable experience by working on client projects and learning from industry mentors and design experts. Internships are offered in many of our courses and past students have either interned or worked on client projects with:

- ANZ
- Penguin Books
- Mecca Cosmetics
- Australian Red Cross
- Noise Art Records
- Australian National Academy of Music

Sans Forgetica

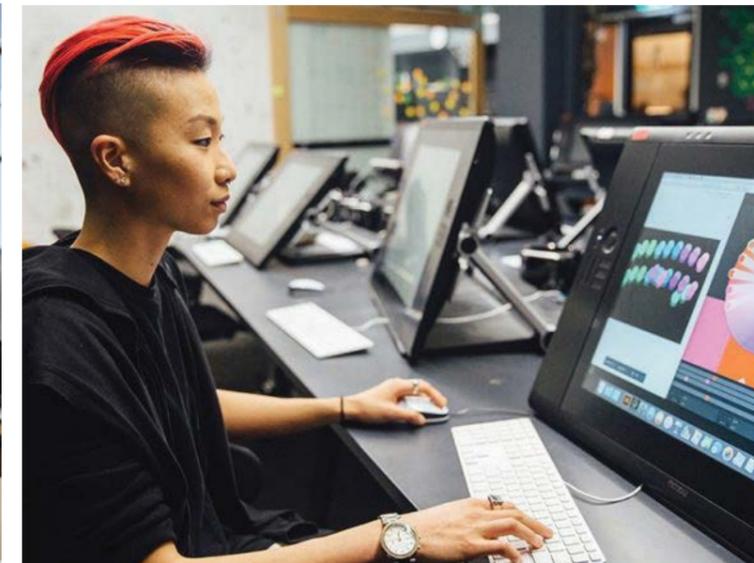

RMIT researchers and academics have come together to design and develop a font named Sans Forgetica.

The font is believed to be the world's first typeface specifically designed to help people retain more written information. RMIT typography lecturer Stephen Bannon and members of RMIT's Behavioural Business Lab collaborated to design the font, which won best-in-class in the communication branding and identity category at the 2019 Good Design Awards.

Industrial and product design workshops

Complete with CNC machining, modern manufacturing equipment and traditional hand and power tools, our workshops allow students to learn critical skills, prototype new ideas, produce scalable models, create and manufacture products or furniture and explore their creativity.

Animation Lab

RMIT's newly built animation labs are custom designed for teaching our students best practice animation skills. Desk spaces accommodate Wacom Cintiq for on-screen drawing and the labs are equipped with state-of-the-art 2D and 3D animation software.

Molly Yang

Bachelor of Design (Communication Design)

During my design studies, I undertook placements at a design studio and at RMIT. Through these placements, I was able to design for professional clients and respond to feedback.

[They] prepared me for both potential future employment within the corporate world and for designing in a boutique studio. I love what I do because I get to mix creativity with functionality.

Education

Study areas

- Early childhood education
- Education support
- Disability inclusion
- Health, physical education and sport
- Primary education

- Training and assessment

100+

days of work-based learning during teaching placements

95%

of our recent teacher education graduates found employment, the highest rate of any Victorian institution¹

Star graduates

Graduates of our health and physical education course include two AFLW captains, an Olympic silver medallist and a Commonwealth Games marathon runner

#1

RMIT has the highest graduate satisfaction rate in Victoria²

RMIT is ranked in the top 100 universities in the world for education studies³, utilising both new and established teaching methods and classroom technologies. When you study education at RMIT, you're joining a university with an established reputation for providing educational and vocational leadership in the field of knowledge creation.

Aside from traditional educational settings, our education graduates have the skills, knowledge and experience to work in private enterprise, government agencies and community service organisations. As a teacher, no matter what discipline you choose, you're in a position to shape minds and foster a lifelong love of learning.

Work-integrated learning

Teacher education courses at RMIT are designed to provide a minimum 100 days of supervised professional experience, so our students graduate with confidence. We encourage students to experience education in a range of settings, and offer opportunities for placements in different cultures and countries. As part of the curriculum, students complete a placement in a disability setting, allowing them to develop strategies for managing challenging behaviours. Placements in third year may be taken overseas, and placements in fourth year are selected by students and may include rural or interstate settings.

For more information visit rmit.edu.au/education

100+ days of work-based learning

RMIT's undergraduate teaching courses incorporate a minimum 80-100 days of supervised professional experience, ensuring you graduate classroom-ready. We offer opportunities for placements in different cultures and countries in third year, as well as placements in disability settings that will help you develop strategies for managing challenging behaviours in the classroom. Placements in fourth year are selected by students and may include rural or interstate settings.

Yirrkala

Homeland School

In 2019, six of RMIT's Bachelor of Education students undertook a three-week placement at the Yirrkala Homeland School in the Northern Territory.

Students experienced life in remote communities in Arnhem Land, teaching children and learning about Indigenous culture from Yolngu people.

Health, physical education and sport

Learn from experienced teachers and academics in both the classroom and in RMIT's exceptional sports facilities — the Bundoora Netball and Sports Centre, tennis courts and our cutting edge FIFA-approved synthetic playing fields.

The Urban School

The RMIT Urban School offers a personalised pathway from school to tertiary study. Try a range of units and subjects – take your time to figure out what you really want to do. With our Urban School, you have the opportunity to blend VCE subjects, Vocational Education subjects, Higher Education subjects and micro-credentials in an adult learning environment. You'll get personalised career guidance and may receive a guaranteed pathway into some of our courses.

Hanin Wehbe

Bachelor of Education (Primary)

I came into the Bachelor of Education (Primary) fresh out of high school and had, until that point, lived only through the eyes of a student.

During school, I noticed a correlation between the relationship I had with a teacher and my grades. I learnt firsthand the lasting effects of a teacher's influence. It was this experience as a student that motivated me to dedicate my life to empowering young learners through education.

Career outcomes

Teacher education

- Early childhood teacher
- Early learning centre manager
- Education teacher
- Primary school teacher
- Specialist health and physical education teacher

Training and assessment

- Enterprise assessor
- Enterprise trainer
- Registered training organisation trainer
- VET in VCE or VCAL secondary school teacher
- Vocational education teacher

Study areas

- Aerospace engineering and aviation
- Biomedical engineering
- Chemical engineering
- Civil engineering
- Computer engineering
- Electrical and electronic engineering
- Engineering management
- Environmental and sustainable engineering
- Mechanical and automotive engineering
- Mechatronics and manufacturing systems
- Telecommunications engineering

Top 100

Among the world's top 100 universities in civil and structural and electrical and electronic engineering¹

Pathways

A range of RMIT advanced diplomas and associate degrees provide pathways into engineering bachelor degrees

Flexible first year

Enter first year engineering with Further Mathematics. At RMIT you can study an introduction to engineering maths to get your skills up to speed

Globally recognised

As a signatory to the International Engineering Alliance, RMIT's degrees are recognised by the Washington Accord and the Dublin Accord

RMIT's engineering courses are co-designed with industry to give you practical experience and training. From the very beginning of your studies, you'll build the professional and technical skills you need to put your innovation and creativity into practice.

There are many career paths for an engineer and with RMIT you'll develop internationally recognised skills in the areas that interest you most – designing and creating products, systems, structures and services that transform the world and improve lives.

Not sure what kind of engineer you want to be?

Are you more interested in how a smartphone works or what makes an aircraft fly? Do you prefer bridges or engines? Who has more fun – a civil engineer or an aerospace engineer? RMIT has developed a game to help you find the right course for you. Play it now at

trueengineer.rmit.edu.au

For more information visit

rmit.edu.au/engineering

Advanced Manufacturing Precinct (AMP)

Housing some of the most advanced manufacturing technologies available, the AMP brings together design and engineering, from digital design to digital manufacturing. The precinct offers high-speed multi-axis machining centres, 3D printing of advanced products and components, selective laser melting and many other cutting-edge technologies.

From coffee to concrete

An RMIT lecturer and his students have come up with a new way to reduce the amount of coffee grounds going to landfill – using them in concrete. Concrete contains up to 80 per cent sand, but this resource can't keep up with demand. Extracting it from fragile ecosystems can have a huge environmental impact.

The group found they could replace 10 per cent of the sand in a concrete mix with coffee grounds and have produced sample "coffee bricks", which were displayed at RMIT's EnGenius event in 2019.

Flight training

RMIT conducts flight training at the newly opened Bendigo site as well as the historic Point Cook site, which is the oldest operating airfield in the world and the birthplace of the Royal Australian Air Force. Both campuses include state-of-the-art FM210 flight simulators, which serve as training tools for student pilots. The equipment enables students to practise in all phases of flight, in any weather conditions and at any time of day, before taking to the skies.

Our industry partners include

Heavy Structures Lab

The Heavy Structures Lab at our Bundoora campus is equipped with extensive civil engineering facilities. The lab features: compression and tensile testing machines; controlled humidity chambers where structures and materials can be subjected to sustained loads over a long period of time; and a corrosion chamber for testing material degradation in harsh environments. It also houses structural testing frames that can accommodate beams up to six metres in length.

Career outcomes

Aerospace engineering

- Aerospace engineer
- Aircraft designer
- Air safety officer
- Production planner
- Systems technician

Aviation

- Airline manager
- Airport manager
- Aviation consultant
- Commercial pilot

Biomedical engineering

- Biomedical engineer
- Biomedical researcher
- Industry regulator

Chemical engineering

- Chemical engineer
- Cosmetic developer
- Mineral and metallurgical engineer
- Petrochemical researcher
- Plastic and polymer engineer
- Product design consultant

Civil engineering

- Design engineer
- Engineering asset manager
- Infrastructure manager
- Project manager
- Structural engineer

COMPUTER ENGINEERING

Bachelor of Engineering (Computer and Network Engineering) (Honours)

Learn about the design and application of courseable and reconfigurable devices and computer-based systems. Graduates work in industry and business to design and build computer and communication networks.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 20 in Maths: Mathematical Methods or Maths: Specialist Mathematics.

PATHWAYS

- [Assoc Deg] in Engineering Technology (2 years) plus Bachelor of Engineering (Computer and Network Engineering) (Honours) (additional 2 years) = 4 years' total study
- [Adv Dip] of Computer Systems Engineering (2 years) plus Bachelor of Engineering (Computer and Network Engineering) (Honours) (additional 2.5 years) = 4.5 years' total study

Eve Smolinska
Bachelor of Engineering
(Civil and Infrastructure)
(Honours)

As engineers we're creating something that is being used by every person, every day. You can see the value of it, you can see how important safety in design is and how many design concentrations there are.

It's very interesting and very broad. In my current role I learn a lot, but I've actually done some of the material previously at RMIT. For example, in the steel structure course, I was able to learn how to calculate the section and member capacity of a beam and that's actually something I've worked on at Robert Bird Group.

MECHANICAL AND AUTOMOTIVE ENGINEERING

<p>Bachelor of Engineering (Automotive Engineering) (Honours)</p> <p>Work to develop economical and sustainable automotive designs or solve automotive problems encompassing complete car design. Top 11

RMIT's Bachelor of Fashion (Design) (Honours) is ranked in the top 11 undergraduate fashion design courses in the world¹

Exchange partnerships

with Parsons The New School of Design, NYC, Amsterdam Fashion Institute and London College of Fashion

UN Sustainable Development Goals

All undergraduate fashion courses at RMIT are underpinned by the UN Sustainable Development Goals

Intensive workshops

in Paris and the US focus on the development of technical skills such as pattern making and embroidery

RMIT is a global leader in fashion and textiles education. Our courses are internationally recognised, with graduates making an impact across the world. We offer certificates, diplomas, associate and bachelor degrees in our state-of-the-art facilities at RMIT's Melbourne campuses.

Our students gain real-world experience working with local and global companies on projects that bring together design, technology and enterprise. Exploring contemporary approaches to materials, the body, environments and economies, we prepare our students to contribute to the rapidly transforming global fashion and textiles sector.

Brunswick Design District

RMIT, Moreland City Council and Creative Victoria have led the establishment of the Brunswick Design District. As a long-standing hub for creativity in Melbourne, Brunswick has a thriving designer/maker community. The establishment of this precinct aims to leverage and support the local design community, as well as encourage creative start-ups and other enterprise businesses to set up in the area. RMIT's School of Fashion and Textiles is situated in the heart of Brunswick and maintains strong relationships with studios and makers in the area, including:

- Otto and Spike
- DenimSmith
- Lois Hazel
- Kuwari
- Siteworks
- Space Tank

For more information visit rmit.edu.au/fashionandtextiles

Sustainable practices

Fashion students learn about ethical and sustainable practices through a variety of hands-on projects. From exploring natural dyes and textile waste in RMIT's garden studio to rapid prototyping of smart textiles and wearables in the makers' space, sustainability is embedded in all learning experiences.

Student project

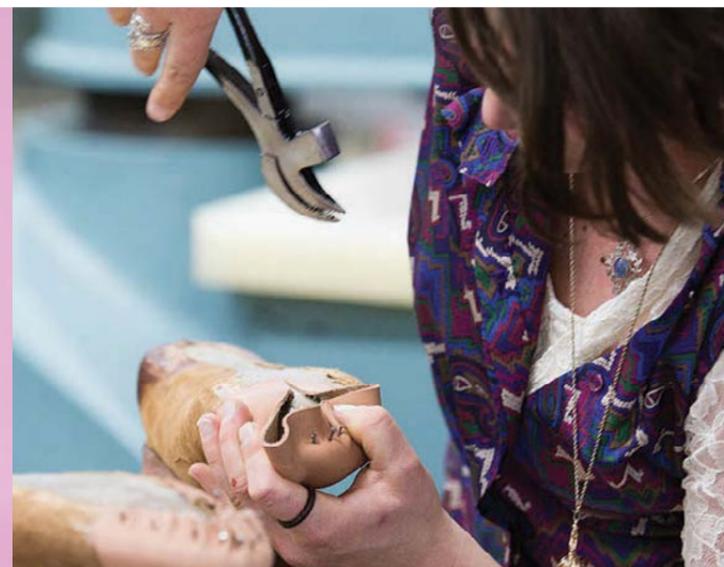

In 2018, for the second year in a row, ACMI teamed up with RMIT textile design students to create an exclusive range of ACMI merchandise.

Students were asked to address video game culture by exploring themes such as pixels, VR, game characters and retro game graphics.

ACMI Head of Design, Kat Mew offered students feedback on their work throughout the project, which helped them refine their designs.

Nine students had their work selected to be launched as products in the ACMI store.

Image: The designs of student Lauren Stringini

Custom footwear

RMIT offers the only dedicated footwear course in Australia, where students develop the technical and practical skills to design and produce custom-made shoes. Students develop skills in freehand sketching, computer-aided design and technical drawing and learn how to prepare, cut and sew the necessary components to create uniquely original footwear.

Our industry partners include

Fashion and textile workshop spaces

RMIT's workshop spaces immerse students in hands-on design processes using traditional and hi-tech materials and equipment. Students learn digital and artisanal techniques such as printing, dyeing, knitting, weaving, pattern-making and all aspects of garment design and fabrication. Throughout their studies, students present their work to industry in purpose-built exhibition and display spaces, gaining vital feedback from professional designers.

¹ 2019, the Business of Fashion review of the Best Fashion Schools - RMIT's Bachelor of Fashion (Design) (Honours) course was ranked in the top 11 of the undergraduate 'Fashion Design' category, receiving all four badges of merit: Best Overall, Best in Global Influence, Best in Learning Experience and Best in Long Term Value.

FASHION AND TEXTILES

Bachelor of Fashion (Design)

Highly regarded by the international fashion community, this course challenges the boundaries of fashion. It embraces the latest design directions and explores potential future practices of fashion design. This degree allows you the creative freedom to develop original ideas through to final designs and challenges you through exploration and reflection to develop the skills and knowledge to formulate your voice as a designer. Collections are showcased at premier Australian and international fashion festivals.

Julia English

Bachelor of Fashion Design (Honours)

With my fashion experience I think I would like to challenge the way we view sustainability. I'm really passionate that the way we wear clothes should inform what sustainable design solutions we have.

Particularly looking at big brands that I think have a lot of power to have a huge impact on the industry. I think we need to get where we are going faster and be more sustainable sooner.

Gaming and digital experiences are a booming industry around the world, with more than 2.3 billion active gamers contributing \$AU191 billion to the global games market.³ Combine this with RMIT's strong industry connections and invaluable workplace experience and you'll be ready to work in the lucrative digital media, animation and games industries.

In our undergraduate and vocational courses you'll create characters, environments and entire worlds as you build on your talents in digital art and design. Develop your conceptual design, storytelling and specialist art skills to produce rich interactive experiences. Study in creative studios that encourage artistic and intellectual investigation. Learn from passionate teachers and develop strong technical abilities in design, digital media, art, 2D and 3D design, motion graphics and special effects.

Work-integrated learning

Game design courses at RMIT focus on creative studios, which involve lab teaching from industry professionals and feature guest lecturers. Students have access to a testing environment, enabling them to assess game-playing responses and behaviours to better understand user experience firsthand. RMIT has close connections to the local independent games industry through teaching staff, overseas industry projects, events, festivals and exhibitions.

Esports at RMIT

RMIT has two dedicated spaces for esports and gaming and frequently hosts professional teams and live-streamers on campus. RMIT's esports team participates in large-scale competitions, including those at Australia's largest gaming convention, PAX Australia. Esports is also included in the RMIT Elite and Emerging Athlete program, supporting students to balance the high demands of elite sport and university life each year.

Industry leader

RMIT is the only tertiary provider of Chinese medicine education in Victoria

Demand for innovative health professionals is high as our medical system moves from "sick care" to "health care". As a result, there's a focus on wellbeing, prevention, early detection and treatment. Health science at RMIT boasts strong industry links and purpose-built facilities, producing health practitioners with skills that are valued all around the world.

Our diverse range of health, medical and wellbeing courses teach you practical solutions to global health issues. Courses are developed in consultation with practising professionals and many offer industry placements, student clinics and work experience in Australia and overseas. Whether you're studying in our anatomy labs, nursing wards, nuclear medicine workstations, or on sports fields, our equipment, facilities and teaching staff are purposefully chosen and designed to help you get the real-world skills employers are looking for.

RMIT Health Sciences Clinic

RMIT's Health Sciences Clinic in Bundoora provides clinical training for students. It prepares them for independent practice when they graduate and meets registration requirements. The clinic is open to the public and offers Chinese medicine, chiropractic, osteopathy and psychology services. It provides clinical diagnosis, health advice and treatment for a range of conditions.

rmit.edu.au/healthclinic

For more information visit
rmit.edu.au/healthscience

Supporting WHO

RMIT's expertise in Chinese medicine supports a World Health Organization program to integrate traditional medical practice into public healthcare around the globe

Cutting-edge facilities

Practise on cutting-edge equipment that is widely used in clinical centres around Australia

Nursing simulation labs

RMIT's nursing labs teach students how to safely put theoretical nursing concepts into practice. The simulated health environment mimics a clinical setting and provides students with the chance to practice a variety of patient care scenarios by role-playing with classmates and working with high-fidelity manikins. Students may administer injections, measure vital signs, care to wounds and more.

Treating elite athletes

Myotherapy students at RMIT are given opportunities to work alongside elite athletes and performers during volunteer placements.

The National Institute of Circus Arts (NICA) allows students to attend placements in block times, where they work alongside the institute's highly skilled physiotherapy and myotherapy teams. Students are able to observe, treat performers and be mentored by the other therapists at NICA.

Radiation treatment room

Study in facilities with the latest medical radiations and IT equipment. This includes a Virtual Environment of Radiation Treatment Room (VERT). Through captivating 3D views and life-size visualisations, VERT offers radiation therapy students a unique platform through which to learn.

Chinese medicine clinic

Chinese medicine students use acupuncture, herbal medicine, manual and dietary therapy to treat a range of complaints. As part of their clinical training, students develop diagnosis, treatment and herbal dispensing skills by undertaking supervised clinical observation and practice at the RMIT Health Sciences Clinic.

Runu Hann

Bachelor of Pharmacy (Honours)

I came to [RMIT's] Open Day, saw the Bundoora campus and it was beautiful. The staff were so helpful. Everyone was lovely. It had really good vibes.

One of my highlights at RMIT was receiving the Pharmacy Guild of Australia's Rural Pharmacy Scholarship Scheme. That helped me get financially set up and get me ready for study.

PSYCHOLOGY

Bachelor of Applied Science (Psychology)

Ever wondered what makes humans tick? Explore the science of the mind and human nature and the biological factors that influence our behaviour. You will examine mental states, processes and motivations that affect our personality. This course prepares you for a career in organisational management, sport, cross-cultural studies, counselling, human resources and, with further study, teaching, researching or practising psychology.

PREREQUISITES

VCE Units 1 and 2 – any Mathematics; Units 3 and 4 – a study score of at least 20 in one of Geography, any Mathematics or any Science; and a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

Top 150

Global universities in computer science and information systems¹

Excellence in research

RMIT's research in artificial intelligence and image processing is rated as above world standard by the ARC

Flexible majors

RMIT's Bachelor of IT offers a range of specialisations, allowing you to tailor your learning to meet your aspirations

Pathways into bachelor degrees

The Associate Degree in IT provides pathways into several of RMIT's bachelor degrees in ICT

Information and communication technology (ICT) is a multi-billion-dollar industry that underpins almost everything we do in today's digital age. Computer scientists and IT specialists are vital to every industry and help to manage data, provide network support and maintain security.

RMIT's IT courses let you design systems and solutions that use technology to meet the needs of the user. Combining theory and project experience, an ICT qualification from RMIT allows you to explore or specialise in the rapidly growing areas of app development, cloud, mobile, social media, web systems or multimedia. Our courses give you the skills to develop IT infrastructures and support the people who use them, from network and data administration, programming and client support, to specialised skills to help lead innovation in IT.

Work-integrated learning

RMIT's information technology courses are designed to provide you with practical experience that prepares you for a career in industry. From year-long internships to projects that simulate an industry environment, RMIT is committed to providing you with opportunities to build on your knowledge and apply your learning in a professional context.

For more information visit, rmit.edu.au/informationtechnology

Virtual Experiences Lab (VX Lab)

The VX Lab is a multidisciplinary space for students and industry partners to access advanced technology in visualisation and automation. Users explore design, operation and testing of cyber-physical systems.

Robocup 2020

RMIT has named it's squad to compete at Robocup 2020, the largest robotics and artificial intelligence competition in the world. The squad, who'll be competing against teams from 45 different countries, features AI researchers and two enthusiastic RMIT students from Computer Science and Software Engineering.

The headline event is humanoid football using fully autonomous Nao robots that can act and think for themselves.

The event is a great platform for students to learn about the challenges of autonomous robotics, as the problems they have to solve in this competition are similar to those we face in solving large-scale robot applications like autonomous cars.

Artificial Intelligence Lab (AI Lab)

The AI Lab develops ideas and solutions to improve our quality of life through artificial intelligence. Specialists use models and algorithms to refine the user experience in games, interactive storytelling and machine learning and work with the latest technology to manage vast amounts of data.

Our industry partners include

Esports at RMIT

RMIT has two dedicated spaces for esports and gaming and frequently hosts professional teams and live-streamers on campus. RMIT's esports team participates in large-scale competitions, including those at Australia's largest gaming convention, PAX Australia. Esports is also included in the RMIT Elite and Emerging Athlete program, supporting students to balance the high demands of elite sport and university life each year.

Meray Abba

Certificate IV in Information Technology and Networking

I love computers and the power of networks. Networks connect everything – gaming platforms, communications, everything. I've always been curious, wanting to know how things work and trying new things.

I chose RMIT because they have a great reputation in new technology and I can explore a little of everything before deciding where I want to put all my energy.

Study areas

- Criminology and psychology
- Legal administration and policy
- Justice

30+

RMIT has more than 30 years of experience in justice training and education

50-day work placement

Undertake a 50-day work placement in a criminal justice organisation

Law Students' Society

The RMIT Law Students' Society runs social, education and careers events year-round

Diverse electives

- Forensic studies
- Drug-related crime
- International policing
- Youth justice
- Terrorism

From resolving disputes to reforming criminal justice policies and developing early intervention programs, at RMIT you can help your community while making your mark in the field of law. You'll explore all perspectives of the legal system, including policy, business, politics, sociology and criminology in contemporary Australian and international society. You'll learn how policies are formed and get the technical skills you need to administer justice.

Our courses are known for incorporating real-world experiences. Justice and legal professions allow you to practise, enforce and reform the law across courts, legal firms, businesses, policing and security agencies.

Work-integrated learning

Employers seek graduates who are adaptable and ready for work. Many of RMIT's legal courses offer an internship elective, which gives students the opportunity to apply their skills in a relevant justice organisation.

Past students have completed placements or internships with:

- Victoria Police
- youth justice services
- welfare and victim support services
- Magistrates', Children's and Supreme courts

For more information visit rmit.edu.au/law

Former Magistrates' Court

Study in buildings that are steeped in history. RMIT's building 20 (former Magistrates' Court) was the site of many of Australia's most famous trials. Now acknowledged as historically significant by the Heritage Council, the Magistrates' Court was the site of bushranger Ned Kelly's murder conviction in 1880 when it was the Supreme Court. He was hanged at the adjoining Old Melbourne Gaol.

Asia-Pacific Mediation Competition

In July 2020, RMIT will host the Asia-Pacific Mediation Competition, organised by the Australian Chamber of Commerce. The competition is designed to equip tomorrow's legal minds with the skills to better meet the dispute resolution needs of international businesses in an increasingly global and cross-cultural marketplace.

The mock dispute is based on real international cases and students taking part will learn to combine mediation and problem-solving to successfully progress towards a settlement.

Centre for Innovative Justice (CIJ)

RMIT's CIJ researches and advocates for innovative ways to improve the justice system, with a particular focus on therapeutic jurisprudence, restorative justice and dispute resolution. The centre provides students with placements and courses that expose them to new ways of thinking about our country's legal system. The CIJ conducts projects aimed at improving the justice system's response to mental health and disability, as well as projects designed to improve the experiences of Children's Court users.

Our industry partners include

The Bridge of Hope Innocence Initiative (BoHII)

BoHII is a joint venture between RMIT University and The Bridge of Hope Foundation. It allows students to join those in the innocence movement who aim to investigate claims of wrongful conviction and to campaign for the reform of issues that lead to them. The initiative is open to undergraduate students and runs throughout the year.

Angelique Maloney Ray
Bachelor of Criminal Justice

I picked RMIT because I went to Open Day and into the legal studies room. I spoke to one of the lecturers and went over what I did in high school, what I liked and what I hadn't liked and he said maybe this degree (Bachelor of Criminal Justice) would be a good match.

It offered a lot more of the practical aspects like internships and going overseas with a lot more support than my current university was offering.

JUSTICE

Bachelor of Criminal Justice

Whether it's at the front line of Australia's border protection or working with the Australian Federal Police, criminal justice opens up all kinds of local and international career options. Graduates have also gained work in corrections, courts, customs and other government agencies.

PREREQUISITES

- Sound production

#37 in the world for communication and media studies¹

#4 in Australia for communication and media studies¹

Exchange partnership

with renowned University of the Arts London (London College of Communication)

Excellence in research

RMIT's research in communication and media studies is rated as well above world standard, just one of two Australian universities to achieve this rating²

Live music capital

Study in Melbourne, which has more live music venues per capita than any other city in the world³

Study the news, make films, create innovative sounds and produce cutting-edge digital content. Studying media at RMIT opens up a whole world of creation. At RMIT you will learn from industry practitioners with years of experience. You will benefit from our state-of-the-art media suite and work with professional-grade technology and materials.

You'll blend theory with hands-on tutorials, connect with industry contacts, learn to tell stories, build strategies and execute creative projects. RMIT allows you to choose from journalism, music, screen media and more. Join a vibrant intellectual community at an institution that's globally recognised for its outstanding graduates.

Work-integrated learning

Students are encouraged to take advantage of the opportunities offered by RMITV, our student-run television station broadcasting on Channel 31. Students may also work with independent radio broadcasters 3RRR FM and SYN FM. Many of our students work on industry-linked projects or placements and organisations that have hosted students in the past include:

- Networks 10, 9 and 7
- ABC
- SBS
- WTFM
- The Australian Open
- Ghost Films

For more information visit rmit.edu.au/media

Capitol Theatre

Designed by celebrated architects Marion Griffin and Walter Burley Griffin, The Capitol is one of the most important cinemas in Australian history. The venue, constructed in 1924, has been reimaged by RMIT and Six Degrees Architects as a contemporary hub for education and culture. The Capitol hosts screenings, talks and workshops and gives our media students the opportunity to participate in live productions and screenings.

CityLoop

Music Festival

For the past three years, RMIT has partnered with Mushroom Group to deliver CityLoop, a large-scale music festival that takes place at RMIT's City campus.

Students of the Bachelor of Music Industry help to organise and run the event as part of their studio class. Working on curation, marketing and artist liaison allows them to gain valuable skills that prepare them for dynamic careers in the music industry.

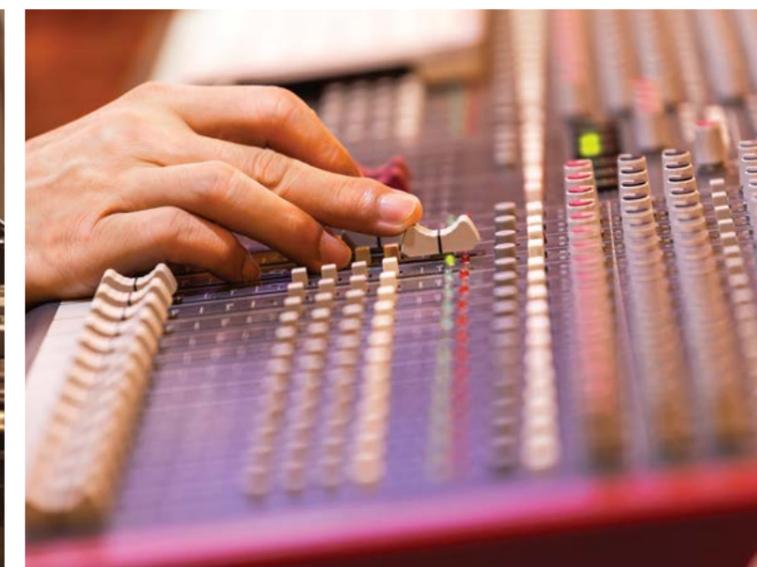

RMIT Media Precinct

RMIT's newly built Media Precinct offers students access to state-of-the-art facilities that support current and future trends in media production. The precinct includes five TV studios and control rooms and supporting spaces such as green rooms, makeup rooms and production offices. Used for live broadcast, recordings and audio mixing, the studios also include virtual and augmented reality set technologies, where broadcast and gaming technologies converge.

Our industry

partners include

Sound production

Learn to amplify, enhance, record, mix or reproduce sound with RMIT's renowned sound production courses. We provide students with studio, lab and live venue-based training to help them develop in-demand skills in sound design, post-production and broadcast audio. RMIT's recording studios feature state-of-the-art facilities, including a NEVE Genesys Console, the first of its kind in the southern hemisphere, allowing students to experience industry-standard equipment to prepare them for a dynamic career in sound production.

³ Music Victoria 2017 Census Report

Aaron Farrugia
Advanced Diploma of Screen and Media

What I really enjoyed about [my] course was that I tried everything out so early on. I realised that the directing and writing side of things wasn't for me. I liked shooting short films, getting behind the camera and all the practical hands-on stuff, so I decided on cinematography.

I learned a lot about photography and shooting, so that when I applied for an attachment on a film, I was able to start in the camera department and look like I knew what I was doing!

MUSIC AND AUDIOVISUAL

Bachelor of Arts (Music Industry)

Throughout this course you will explore contemporary trends and issues through practical, project-based work, as well as academic, theoretical study. You will learn about key music technologies, global music cultures, popular music scenes, music business practice and live music performance.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

PATHWAYS

- **Dip. of Music Industry (Sound Production)** (1 year) plus **Adv Dip. of Music Industry (Sound Production)** (additional 1 year) plus **Bachelor of Arts (Music Industry)** (additional 1.5 years) = 3.5 years' total study

Diploma of Music Industry (Sound Production) Advanced Diploma of Music Industry (Sound Production)

Combine technical and creative talents using modern industry-standard equipment to develop skills across multiple technologies. Graduates can work as sound technicians to amplify, enhance, record, mix or reproduce sound.

SCREEN AND MEDIA

Bachelor of Communication (Media)

This degree produces critically informed contemporary media professionals who are creative and multiskilled communicators, able to deliver innovative content for a wide range of existing and new platforms including film, television and radio, social and mobile media and the web.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in any English.

PATHWAYS

- **Assoc Deg. Screen and Media Production** (2 years) plus **Bachelor of Communication (Media)** (additional 1.5 years) = 3.5 years' total study
- **Adv Dip. Professional Screenwriting** (2 years) plus **Bachelor of Communication (Media)** (additional 2 years) = 4 years' total study
- **Dip. Screen and Media** (1 year) plus **Adv Dip. Screen and Media (Interactive Media)** (1 year) plus **Bachelor of Communication (Media)** (1.5 years) = 3.5 years' total study
- **Dip. Digital Media Technologies** (1 year) plus **Adv Dip. of Screen and Media (Interactive Media)** (1 year) plus **Bachelor of Communication (Media)** (1.5 years) = 3.5 years' total study

Associate Degree in Screen and Media Production

Build valuable screen industry skills and knowledge in the key areas of concept development, storytelling, pre-production, production and post-production for single and multi-camera productions. This course has a strong emphasis on industry knowledge, collaboration, team building, creative application and professionalism.

PREREQUISITES

Units 3 and 4 – a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.

Diploma of Screen and Media Advanced Diploma of Screen and Media

Develop skills and knowledge in concept development, storytelling, pre-production, production and post-production. Graduates enter the industry as freelance professionals or may work in Australian network television.

World's best

Geospatial research institute¹

Find your niche

RMIT offers both flexible and specialised courses

Excellence in research²

RMIT's research is rated as well above world standard in:

- environmental science
- physical sciences
- clinical sciences
- microbiology
- analytical chemistry
- macromolecular and materials chemistry
- physical chemistry

Work placements

Industry projects and placements expose you to real-world business challenges

Science is about exploration and discovery – both in the lab and in the field. From monitoring the spread of infectious disease to exploring the depths of the ocean, every area of science plays a crucial role in helping us understand why and how things work. While RMIT offers extensive facilities and laboratories on campus, our students go beyond the classroom and apply their learning to real-life problems.

Working in teams during field studies and excursions that take place all over the world, our students gain hands-on experience in all aspects of scientific practice. Whether you want to study mathematics or data, food technology or chromatography, RMIT has the cutting-edge facilities and experienced staff to help you make a scientific breakthrough.

Work-integrated learning

At RMIT, industry and community projects give you the chance to put your skills into action and gain practical experience before you graduate. These include local field trips, mapping the environment, exploring the aquatic environment and even going overseas to tackle environmental challenges in other countries.

For more information visit

rmit.edu.au/science

Microscopy and Microanalysis Facility

The RMIT Microscopy and Microanalysis Facility houses high-quality electron microscopy and microanalysis equipment for the imaging and analysis of a range of specimens – from chocolate and aluminium to biological and plant material.

Overseas study tours

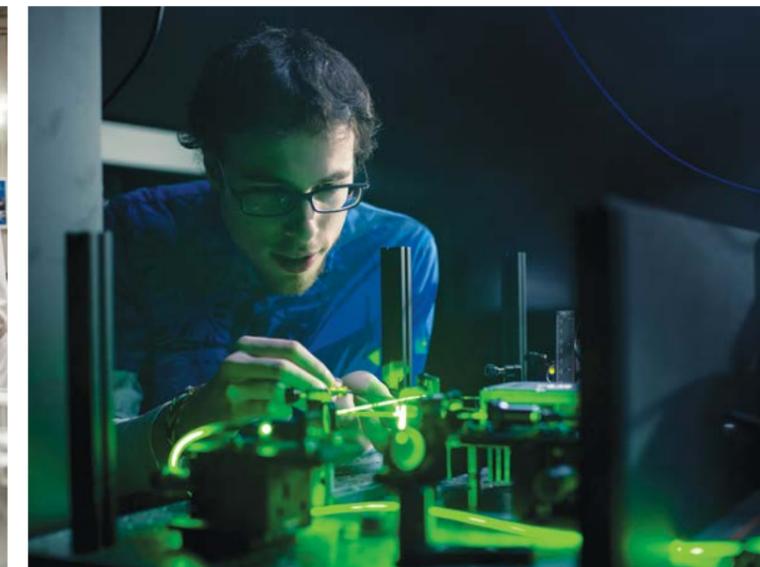

As an RMIT science student, the world is your oyster. You could be heading interstate or overseas to embark on a field practicum on the Great Barrier Reef; an environmental assessment project in Fiji; a professional experience in Vietnam; or an expedition to Costa Rica to study the biology, ecology and conservation of local sea turtles.

Food Innovation and Research Centre

The RMIT Food Innovation and Research Centre enables students to develop practical skills in an industry-standard setting. The centre includes a production facility, commercial kitchen, sensory evaluation lab and research lab. Students have access to a modern pilot plant that simulates industrial production, as well as a range of high-tech food preparation and processing equipments.

Our industry partners include

Centre for Nanoscale Biophotonics (CNBP)

The CNBP brings together a team of physicists, chemists and biologists. The team aims to control nanoscale interactions between light and matter, enabling them to probe the complex nanoenvironments within living organisms. This allows our team of biological scientists to understand how single cells react to and communicate with their surroundings.

¹ RMIT named Geospatial Research Institute of the Year for 2019 by the Geospatial World Forum.

Charlize Snyman
Bachelor of Science (Food Technology and Nutrition)

In my final year at RMIT, I partnered with a fellow student and we entered and won the Australian Institute of Food Science and Technology (AIFST) student product development competition.

The support provided by lecturers and staff during the preparation was just amazing – they really went out of their way to support us throughout the journey.

FOOD SCIENCE AND TECHNOLOGY	
<p>Bachelor of Science (Food Technology and Nutrition)</p> <p>Learn the science of large-scale food manufacturing and how to apply nutrition to food product development. You'll also be able to develop novel, healthy and functional food products that meet consumer demands and comply with government and industry's strict safety and health guidelines. Graduates can choose from a broad range of career roles in the food industry.</p> <p>PREREQUISITES VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 20 in any Mathematics.</p>	<p>BP199</p> <p>City and Bundoora</p> <p>3 years</p> <p>VTAC 3200433441</p> <p>ATAR (2020: 65.60)</p>
<p>Bachelor of Science (Food Technology and Nutrition) / Bachelor of Engineering (Chemical Engineering) (Honours) <small>DOUBLE DEGREE</small></p> <p>Prepare for leading roles in the food industry. This double degree combines food science and engineering skills in keys areas of product development and production systems.</p> <p>PREREQUISITES VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 20 in Chemistry; Units 3 and 4 – a study score of at least 20 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics.</p>	<p>BH099</p> <p>City and Bundoora</p> <p>5 years</p> <p>VTAC 3200432181</p> <p>ATAR Low number (<5 offers)</p>
<p>Bachelor of Science (Food Technology) / Bachelor of Business (Management) <small>DOUBLE DEGREE</small></p> <p>Gain the technical knowledge to work in the food industry and the management and marketing skills to design and promote innovative products. Develop skills to manage global and large-scale food processing companies with a global operational focus.</p> <p>PREREQUISITES VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 20 in any Mathematics.</p>	<p>BP289</p> <p>City and Bundoora</p> <p>4 years</p> <p>VTAC 3200433611</p> <p>ATAR (2020: 82.00)</p>

Among the world's top 100 universities in development studies¹

#13

RMIT is ranked 13th globally in reducing inequalities²

140 days

of work placements within community service organisations

40+

RMIT has been teaching social work for more than 40 years

Engage with the challenges of a rapidly changing world and prepare for a career in local and international organisations, businesses and government agencies. Social science at RMIT spans multiple fields and gives you the opportunity to work with youths, provide psychological services, act as an interpreter between cultures and much more. A career in social science can be immensely rewarding.

Be the voice of the marginalised or a part of finding solutions that address global problems. Lead the debate on social issues or be the crucial link between people of culturally and linguistically diverse backgrounds. You'll learn from passionate and engaged academics and teachers who actively work towards a fairer world for all.

Work-integrated learning

Social science courses at RMIT work closely with industry partners to provide real-world learning experiences through field education and the close involvement of our partners in teaching and research. Human service and community service organisations, NGOs, advocacy groups and government agencies are all part of RMIT's extensive network of partners.

For more information visit rmit.edu.au/socialscience

International studies

Each year, students in the Bachelor of International Studies are given the opportunity to take part in The Big Issue's 'Big Idea' program as part of an assessment, which encourages them to develop a nuanced and empathetic understanding of disadvantage. Students first identify an important social issue, then propose a social enterprise in response to it, with the aid of industry mentors, social entrepreneurs and thought leaders who come into the classroom to work with them.

Assisting real clients

RMIT places social work and financial counselling students with the Mental Health Legal Centre in a program that sees students visit the Dame Phyllis Frost Women's Prison to assist female prisoners with their legal, social and financial issues.

The program helps to ensure that when female inmates are released, they are unencumbered by these matters, which can often lead to reoffending.

Social and Global Studies Centre

The Social and Global Studies Centre undertakes research and promotes public debate on key areas of social change and social policy. The centre works closely with a range of community organisations, government departments, local governments and the union movement. The centre explores contemporary issues such as crime, gender, violence, inequality, humanitarianism, homelessness, development and governance.

Translating and interpreting

The translating and interpreting facilities at RMIT include a suite of modern teaching spaces, a world-class Televic interpreting lab and a moot court. The moot court allows students to take part in mock trials with LOTE speaking defendants and witnesses, practising simulated legal proceedings in a court or tribunal setting.

Our industry partners include

¹ QS World University Rankings by Subject 2019

² Inaugural Times Higher Education University Impact Rankings. This ranking focuses on measuring universities' social, environmental and economic impact and progress towards the United Nations' Sustainable Development Goals.

COMMUNITY SERVICES

Bachelor of Youth Work and Youth Studies

Youth work is about realising justice for young people. In this degree you will learn about youth work practice, advocacy, planning, management and making policy decisions. Youth workers have roles in government, health, youth services and housing courses.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

Daniel Godinez Lambert

Bachelor of Youth Work and Youth Studies

RMIT stood out to me for many reasons that included their services and accessibility, but what sold me was that RMIT appeared to be incredibly forward thinking.

In a field such as youth work, it is important to be constantly growing, adapting and improving as each person is different and the world is constantly changing. I wanted to immerse myself in a university that would not only teach me how to be a good youth worker, but also show me how to adapt to changes within the field.

Support services

Disability support

We aim to make study and exams more accessible to students with a disability, long-term illness or mental health condition by offering Equitable Learning Services (ELS). ELS also support primary carers of individuals with a disability. These services may include classroom adjustments, interpreters, technology aids or more time to complete assessments.

rmit.edu.au/student-support-ELS

Counselling

Counselling at RMIT offers students a safe, friendly and confidential environment to seek help. Whether you're struggling with personal issues, mental health, or you just have something you want to talk through, we offer counselling in person or over the phone.

rmit.edu.au/student-support-counselling

Financial assistance

If you require financial assistance due to unforeseen circumstances, you can apply for an interest-free student loan with RMIT. We also offer student hardship assistance for urgent and unexpected short-term expenses.

rmit.edu.au/student-support-finance

Safer Community

At RMIT, we are committed to providing a respectful and safe place to study. If you are feeling unsafe or unsure what to do about threatening or unwanted behaviour, you can talk to a member of Safer Community about your concerns and options, even if the behaviour happened off campus.

Email us
saferscommunity@rmit.edu.au

Call us
03 9925 2396

RMIT's support services and networks are there to help you succeed at university, while ensuring you stay healthy and happy. They will support you through every step of your RMIT journey.

Support for Aboriginal and Torres Strait Islander students

The Ngarara Willim Centre helps Australian Aboriginal and Torres Strait Islander students to feel supported and reach their potential with a range of study, living and cultural services.

rmit.edu.au/student-support-ngarara-willim

Chaplaincy

The chaplaincy provides compassionate help and spiritual support to students of all faiths and none. We offer a listening ear, quiet spaces and a warm welcome. Drop by for a tea or coffee.

rmit.edu.au/student-support-chaplaincy

Legal advice

RMIT Student Legal Service offers free, confidential advice to students who need it. We provide assistance and information on issues such as transport fines, renting and tenancy problems, employment law, criminal law, debt matters and more.

rmit.edu.au/student-support-legal

SafeZone

Your safety is our priority at all times. To help you feel safe on campus, download SafeZone, a free app that is available for any smartphone. SafeZone allows you to instantly access support and help if you need it. It includes an emergency alert button, instant help calls to campus security and a first aid request button.

rmit.edu.au/safezone

Accommodation

Whether you're joining us from overseas, interstate or leaving home for the first time, RMIT can help you find accommodation that feels right for you.

Purpose-built student accommodation

Want to live somewhere fully furnished, reasonably priced and with other students? RMIT has selected a number of student apartments, located close to the City, Bundoora and Brunswick campuses, that meet our quality standards.

Alternatively, if you'd like to have RMIT right on your doorstep, Walert House (UniLodge @ RMIT Bundoora) provides state-of-the-art student accommodation with a range of self-contained apartments or studios to choose from.

To view our recommended accommodation options, visit rmit.edu.au/accommodation

Renting and sharing

You can rent a house, apartment or studio in Melbourne through a real estate agent or private landlord. Here are just a few places to look for private rentals:

realestate.com.au
realestateview.com.au
domain.com.au

Shared accommodation

Shared accommodation is a popular choice for students looking for reduced living expenses and the opportunity to meet new people.

Students looking for an existing household can find advertisements on shared accommodation websites, but it is important to inspect rooms and meet all the people you may be sharing with before moving in.

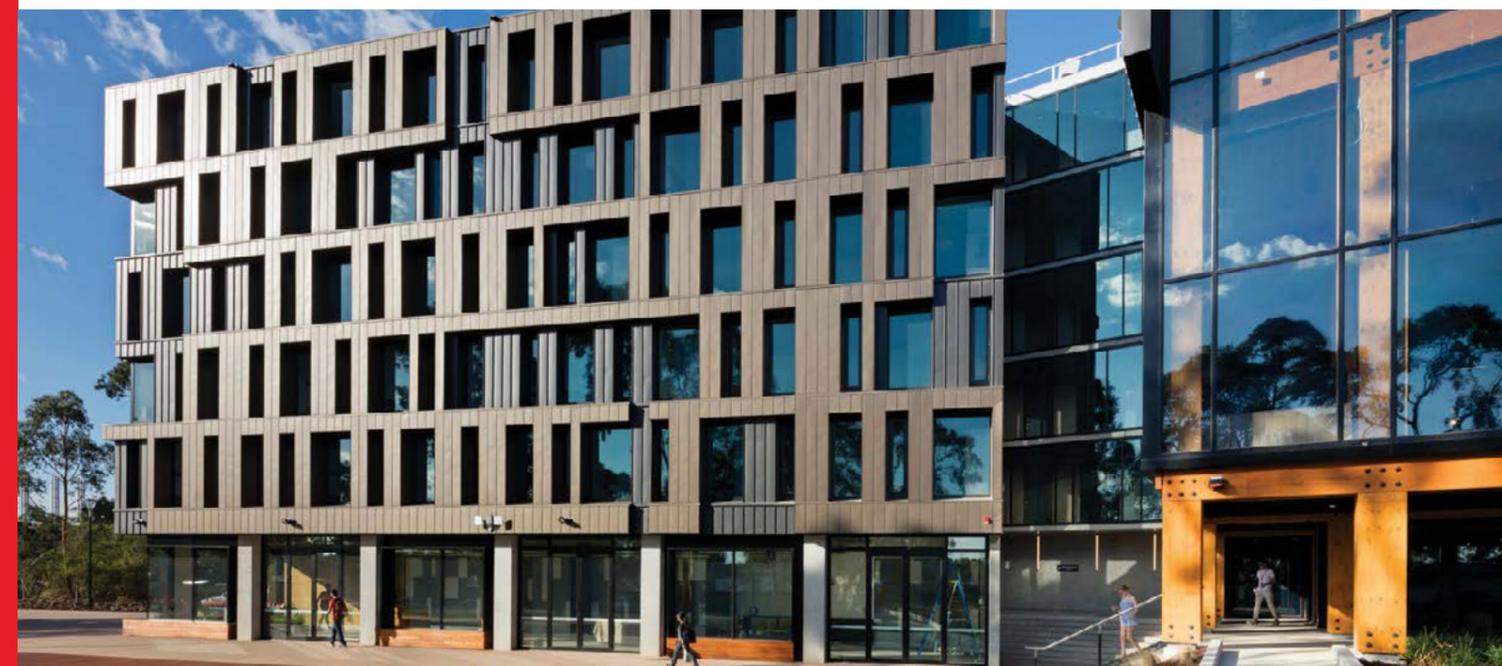

flatmates.com.au
flatmatefinders.com.au
melbourneexchange.com.au
realestate.com.au
share-house.com.au

Need help with housing?

Student support advisors at RMIT Connect can help you with:

- information on housing options that suit your budget
- advice on rental and tenancy issues
- information about moving in and out of your property
- advice on finances, housing, welfare and Centrelink
- referrals to support services

RMIT Connect
03 9925 5000

Scholarships and equity

RMIT is committed to enriching and transforming the lives of our students. To make our courses more accessible to students of all backgrounds, we offer around 2000 scholarships every year.

RMIT offers scholarships for:

- academic achievement
- equity
- Aboriginal and Torres Strait Islander students
- accommodation
- discipline-specific learning
- travel

Learn more about RMIT's scholarship programs and how you can apply at

rmit.edu.au/scholarships

Access and equity

RMIT Access and VTAC's Special Entry Access Scheme (SEAS) will take into consideration disadvantages and circumstances that may have impacted on your academic performance.

Eligible applicants can receive an adjustment to the calculation of their selection rank, which can increase their chances of receiving an offer.

To apply for equity consideration, you must be:

- applying to study a certificate IV, diploma, advanced diploma, associate degree, or undergraduate degree, and
- an Australian or New Zealand citizen, or
- an Australian permanent resident, or
- an Australian permanent humanitarian visa holder, or
- a person seeking asylum

Individual equity access schemes have their own eligibility criteria.

rmit.edu.au/equity-access

Applying to study at RMIT

There are two main ways to apply to RMIT; either through VTAC or direct. If you are in Year 12, you will use VTAC for almost all courses. If you are not in Year 12, it can depend on the course you are interested in. To find out which method you should use, go to the course page and click the "Apply" button.

Key VTAC dates

Applications open for courses, SEAS and scholarships	Monday 3 August 2020

scholarships awarded to
people seeking asylum and 180
scholarships awarded to current
or former refugee students

133
STEM-based scholarships
awarded to women

Fees

Associate, bachelor and honours degree tuition fees

Commonwealth Supported Places (CSP)

A Commonwealth Supported Place (CSP) at university means your tuition fee is jointly paid by you and the Australian Government.

Your share of the fee (student contribution) is set by the government and determined by the discipline area (band) of your individual enrolled subjects, not the overall course.

The table below indicates what your annual fee would be for a full-time study load in 2020 (if you enrol in subjects from a single band).

Student contribution band	Maximum student contribution amount in 2020
Band 1: humanities, behavioural science, social studies, clinical psychology, foreign languages, visual and performing arts, education and nursing	\$6684 per year \$835 per 12 credit point unit
Band 2: mathematics, statistics, computing, built environment, allied health, other health, science, engineering, surveying and agriculture	\$9527 per year \$1190 per 12 credit point unit
Band 3: law, accounting, administration, economics, commerce, dentistry, medicine and veterinary science	\$11,155 per year \$1394 per 12 credit point unit

rmit.edu.au/fees-local

Commonwealth assistance (HELP loans)

As a CSP student, you may be eligible to apply for a HECS-HELP loan, which can be used to defer payment of your student contribution to the Australian Tax Office up to your HELP limit.

For more information and to check your eligibility, visit

studyassist.gov.au

Certificate, diploma and advanced diploma tuition fees

If you enrol in one of RMIT's vocational education courses, how much you'll pay will depend on whether you're offered a Victorian Government subsidised place or a full-fee paying place.

Subsidised places

You will be offered a government-subsidised place if you meet the eligibility criteria based on your citizenship, age, state of residence and educational history.

Full-fee places

If you don't meet the criteria for a government-subsidised place, you'll be offered a full-fee place.

Fee concession

The government subsidises student fees in select courses. If you meet the eligibility criteria, you may be able to access a 'fee concession'.

rmit.edu.au/programs/fees/vocational

Other fees

In addition to tuition fees, you will be charged a student services and amenities fee. You may also be required to purchase items related to your course.

For more information visit

rmit.edu.au/programs/fees/other
