A message from
the Vice-Chancellor

Martin Bean

At RMIT we focus on giving everyone the chance to be their best, shape their future and belong.

That’s what our Ready for Life and Work strategy is all about and thanks to the passion of our extraordinary people we’re making it a reality.

We exist to prepare our students for workplaces that are rapidly evolving and we play a part in shaping a changing world.

It began in 1887 when Francis Ormond had a vision for helping workers acquire real-world skills. The people of Melbourne matched his enthusiasm to start a very practical place of learning where students would leave ready for employment.

We still live this vision today – but now on a global scale.

RMIT has been part of every new development in work and industry since our inception.

As society and the economy have become more sophisticated and complex, RMIT has grown and changed alongside.

Now, we’re a global university of design, technology and enterprise, with more than 90,000 students and 10,000 amazing teachers and staff who proudly live and breathe our purpose every day.

We’re passionate about the communities we’re part of and we’re driven to make a purposeful contribution.

We shape the world with our research and impactful partnerships with industry, government and enterprise.

We provide life-changing experiences when we give our students their first, second or even third opportunity to prepare for the world of work they aspire to.

Today, more than ever, the transformational power of education is lifelong, generations deep and worldwide.

The one certainty is more and greater change in every industry and every location.

So with the world unlike it’s ever been before, we’re focused on ensuring our students are ready for life and work, whatever form that takes.

At RMIT, as we look to 2021 and beyond, we’re excited about the possibilities.
Why choose RMIT?

RMIT has been awarded 5 QS stars in all possible categories:
- Teaching
- Innovation
- Employability
- Facilities
- Inclusiveness
- Research
- Internationalisation
- Specialist criteria (art and design)

Top 1% of universities globally

#22 in the world out of all universities under 50 years old

#5 graduate employment rate in Australia

#1 Victorian university for student engagement

2000+ scholarships awarded to our students in 2019

1 of 6 dual-sector universities in Australia

450,000 alumni living in 130 different countries

97,000 students from 230+ different countries

$1.5M+ in funding allocated to student start-ups since 2015

#1 art and design university in Australia

#4 in Australia for our partnerships with employers

11,698 student work-integrated learning placements with 3749 industry partners in 2019

Excellence in Innovation
Winner of the 2018 Victorian International Education Awards for Excellence in Innovation in Partnership and International Engagement

Committed to sustainability
Winner of the Green Gown Award for Continuous Improvement: Institutional Change. The only university in Australia to have received this award twice

Champion of inclusion
Winner of three separate awards at the 2019 Australian LGBTI Inclusion Awards, which recognise organisations around the country that foster and support diverse communities

Exemplar of good design
RMIT’s Swanston Academic Building has been awarded a 5-star green rating and was shortlisted for the World Building of the Year Award in 2013. More recently, RMIT’s New Academic Street won the Victorian Architecture Medal in 2018, along with five other prizes

Explore our campuses

Our award-winning campuses are home to a thriving student population. They are constantly evolving and expanding to meet the needs of our students and of modern university life.

—

Melbourne

Situated in the very heart of the CBD, the City campus has been an iconic part of the Melbourne skyline for more than 130 years.

—

Bundoora

Situated in the north of Melbourne, the leafy Bundoora campus is home to many of RMIT’s education, biomedical, health and science courses.

—

Brunswick

Our Brunswick campus is a creative and multicultural hub. It is home to many of RMIT’s design courses, including fashion, textiles, graphic and industrial design.

—

Vietnam

Study abroad at RMIT Vietnam and experience an unforgettable semester in Asia. Our beautiful Hanoi and Saigon South campuses offer clean, green environments and expansive study spaces.

—

Europe

Although not a student campus, RMIT’s European hub in Barcelona acts as a gateway for European research, industry, government and enterprise to connect with innovative talent in Australia. Opportunities exist for students to engage with our European centre through study tours, mentoring, internships and research.

Melbourne campus maps
Melbourne is a vibrant and welcoming city full of exciting possibilities. Students from more than 190 different countries have chosen to make it their home. Connect with them as you enjoy a world-class level of education and a lifestyle that will be the envy of all your friends. Here are a few reasons to love Melbourne.

**Recreation**
Melbourne is known for its beautiful parks and gardens, clean air, open spaces, world-class venues and convenient transport and infrastructure.
- Melbourne is the second most liveable city in the world.¹
- Melbourne is the third best student city in the world.²

**Art, culture and entertainment**
Melbourne plays host to more than 8000 festivals, exhibitions and events every year. With a calendar of events spanning art, theatre, music, fashion, food, markets, festivals and concerts, there’s always something to do in our bustling city.
- Melbourne has more live music venues per capita than any other city in the world.⁵
- Melbourne is the second city in the world to be designated a UNESCO City of Literature.⁶

**Working while studying**
During the semester, students can work up to 40 hours each fortnight. When there are no classes during the semester break, students may work full-time hours without restrictions. Research students are able to work full-time hours throughout the whole year.
- For more information about your working conditions, rights and obligations in Australia, visit: fairwork.gov.au

**World-class dining**
Melbourne’s culinary spirit is world-famous. Whether you’re looking to visit a much-loved institution, a lively new wine bar or a dressed-down cafe, Melbourne offers an array of unforgettable dining experiences.
- Melbourne is ranked as the sixth best city in the world for food and dining.¹

**Sport**
Melbourne is the sporting capital of Australia. Watch international sports stars live in action at some of the many sporting events in our city every year. Here are six annual sporting events held in Victoria that are not to be missed:
- The Australian Open
- Formula One Australian Grand Prix
- Rip Curl Pro Bells Beach
- Boxing Day Test
- AFL Grand Final
- The Melbourne Cup

**After graduating**
If you complete two years of a bachelor degree, masters degree or PhD in Australia, you could be eligible for a Temporary Graduate visa, which allows you to live in Australia for a further two years or more.
- For further information, visit: bit.ly/temporary-graduate-485
- bit.ly/extend-stay

**Sports and fitness**
At RMIT we have more than 40 sports clubs, from basketball to Brazilian ju jitsu. Join a club at RMIT and you’re not just keeping fit and doing something you love, you’ll also make lots of new friends and may even get to do some travelling. The Redbacks are RMIT’s sports team collective. Redback teams compete at a national level in the Australian University Games.

**Mates at RMIT**
New to Melbourne? If you’re joining us from a regional, rural, interstate or international location, we’ll help you settle in to your new home. Mates at RMIT connects you with current students to help make navigating university life a little easier.
- Sign up as a student mentee and you’ll get your own mentor to show you where to go and what to do around RMIT.

³ Booking.com’s list of the 25 best cities for food in the world
⁴ According to Melbourne City Council
⁵ 2017 census conducted by Music Victoria and the City of Melbourne
⁶ UNESCO.org – In 2008, it became UNESCO’s second City of Literature

Whether you’re sporty, creative or just curious, RMIT’s clubs, collectives, events and trips will help you meet new people, make connections and discover more of Melbourne.
Melbourne is a fantastic city, but before you make your big move you’ll need to do some research.

---

**Accommodation and expenses**

---

**Before you arrive**

If you are new to Melbourne, we recommend that you arrive at least two to three weeks before the start of classes to give you time to arrange long-term accommodation; short-stay accommodation can provide a place for you to stay while you are looking.

---

**When you arrive**

When you arrive in Melbourne, we recommend you meet with a student support advisor at RMIT Connect for advice on researching and inspecting properties. Our advisors can help you navigate the accommodation options below.

---

**Short-term accommodation**

It’s a good idea to get to know the areas surrounding your campus before you commit to moving into a place long term. You can try renting temporary lodgings to get a taste of your location. See the link below for a selection of short-stay accommodation providers recommended by RMIT.

---

**Long-term accommodation**

Every suburb in Melbourne has its own unique character, so once you find a place that suits your personality and lifestyle you can choose a longer-term option.

---

**Establishment costs**

Before moving to Melbourne, you’ll need to put aside $AU3000 – 5000 to cover your set-up costs, such as a rental deposit, one month’s rent in advance, furniture and household items.

Many student apartments come fully furnished, but most private rental homes do not. Ongoing costs will depend on your location and lifestyle.

---

**Average weekly expenses in Melbourne**

**Are you under 18?**

If you’ll be under the age of 18 when you arrive in Australia, you must have accommodation and welfare arrangements organised and approved either by the Department of Home Affairs or RMIT before you leave home. This is to ensure you have proper day-to-day support to keep you safe and well.

---

**Free airport pick-up**

If you’re a new international student, take advantage of RMIT’s free airport pick-up service. For information on submitting your pick-up request, visit

---

**Our student accommodation partners**

Want to live somewhere fully furnished, reasonably priced and with other students? Take a look at our recommended student apartments close to our City and Brunswick campuses:

[rmit.edu.au/studentaccommodation](http://rmit.edu.au/studentaccommodation)

---

**Living on campus**

If you want to have RMIT on your doorstep, UniLodge at our Bundoora West campus might be for you. RMIT’s state-of-the-art student accommodation offers a range of self-contained apartments, with rent, electricity, gas, water and internet all included in the cost.

---

**Free airport pick-up**

If you’re a new international student, take advantage of RMIT’s free airport pick-up service. For information on submitting your pick-up request, visit

RMIT has partnerships with 215 universities around the world.

From international study opportunities to foreign work placements, you’ll gain invaluable life and work experience through our network of global partners.

---

**Student exchange programs**

Spend an unforgettable semester or two at one of RMIT’s 200+ partner institutions.

---

**Study tours**

Join fellow students on a two to four-week trip to the Americas, Asia or Europe under the leadership of an RMIT academic.

---

**Global leadership programs**

Develop your own leadership style and enhance your cultural intelligence with a range of free programs offered in Melbourne and across Asia.

---

**Cross-campus study**

Study at RMIT Vietnam’s Ho Chi Minh City or Hanoi campuses for up to a year.

---

**Our interlocation partners**

RMIT delivers a range of courses internationally with our interlocation partners. These include Singapore Institute of Management, Shanghai University of International Business and Economics, Hong Kong Arts School and VTC Shape.

---

**Industry experience**

As an RMIT student, you can access work-integrated learning, volunteer opportunities, internships, leadership training and research programs around the world.

---

**Get future ready**

Find a job, plan your career and check out all the opportunities for work and study at RMIT.

---

**Job Shop**

RMIT’s Job Shop is your drop-in service centre for all things career related. Job Shop offers services such as:

- resume and cover letter reviews
- help finding job opportunities
- career workshops and events
- careers consultations

rmit.edu.au/jobshop

---

**RMIT Creds**

RMIT Creds are micro-credentials that develop your skill set beyond your course study. These credentials have been co-designed with industry to ensure you’re ready for the changing world of work. They cover subjects such as digital literacy, leadership, sustainability, innovation, collaboration and communication.

Most Creds are available online and are short in duration, ranging from 60-minute snippets to several hours of learning.

rmit.edu.au/creds

---

**Work-integrated learning**

At RMIT, work-integrated learning (WIL) is embedded into every stage of your student experience, so you have the opportunity to put what you’ve learnt in the classroom into practice. Through industry work placements, internships, seminars, field trips, projects and mentoring, you’ll be ready to make an impact from day one of your career.

---

**Future Edge employability program**

Future Edge is a flexible, co-curricular program designed to increase the employability of all RMIT students. The program helps you to craft and build your ‘personal brand’ in order to stand out in an incredibly competitive employment landscape. It will complement your time at RMIT and help you build industry-specific and practical skills to help you transition into your career.

rmit.edu.au/future-edge
Disability support
We aim to make study and exams more accessible to students with a disability or long-term illness by offering Equitable Learning Services. These services may include classroom adjustments, interpreters, technology aids or more time to complete assessments.
rmmit.edu.au/student-support-ELS

Financial assistance
If you require financial assistance due to unforeseen circumstances, you can apply for an interest-free student loan with RMIT. We also offer student hardship assistance for urgent and unexpected short-term expenses.
rmmit.edu.au/student-support-finance

Legal advice
RMIT Student Legal Service offers free, confidential advice to students who need it. We provide assistance and information on issues such as transport fines, renting and tenancy problems, employment law, criminal law, consumer and debt matters and more.
rmit.edu.au/student-support-legal

Counselling
Counselling at RMIT offers students a safe, friendly and confidential environment to seek help. Whether you’re struggling with personal issues, mental health or you just have something you want to talk through, we offer counselling in person or over the phone.
rmit.edu.au/student-support-counselling

Safety

Safer Community
At RMIT, we are committed to providing a respectful and safe place to study. If you are feeling unsafe or unsure what to do about threatening or unwanted behaviour, you can talk to a member of Safer Community about your concerns and options, even if the behaviour happened off campus.
Email us: safercommunity@rmit.edu.au
Call us: 03 9925 2396

SafeZone
Your safety is our priority at all times. To help you feel safe on campus, download SafeZone, a free app that is available for any smartphone. SafeZone allows you to instantly access support and help if you need it. It includes an emergency alert button, instant help calls to campus security and a first aid request button.
rmit.edu.au/safezone

Scholarships
There are 19 different scholarship types available to international students at RMIT.

RMIT international coursework scholarships
As a new student, you can apply for a range of coursework scholarships, from pre-university all the way through to Masters by Coursework. These scholarships vary in value and duration and may be based on citizenship or program of study.
rmmit.edu.au/international/scholarships

RMIT international research scholarships
If you’re planning to study a Masters by Research or PhD, you may be eligible to be considered for a scholarship to cover your tuition fees and in some cases your Overseas Student Health Cover and a regular allowance (a ‘stipend’) to cover your living costs.
rmmit.edu.au/research-scholarships

Australia Awards
If you want to be part of the next generation of global leaders, this prestigious, Australian Government-funded scholarship may be for you. If your application is successful, you’ll get financial support to study or conduct research while you develop your professional skills.

This scholarship will shape your career and give you the chance to make a lasting impact on development outcomes in your home country. The scholarship covers an Introductory Academic Program, full tuition fees, a stipend for living expenses, Overseas Student Health Cover insurance costs and other expenses including supplementary academic support and travel. We have a dedicated team to support Australia Award scholars, so we’ll help you through your study journey.

In order to study at RMIT, you must meet the entry requirements of the course you want to study.

### English language proficiency

Unless you gained your qualification in a recognised English-speaking country, you are required to provide current evidence of English language proficiency for admission to RMIT University. You can provide your results from one of these three options:

- an accepted English language proficiency test
- an accepted English language provider
- a recognised Australian or international qualification taught in English

If you do not meet the standard of English required via an accepted English language proficiency test, RMIT English Worldwide (REW) offers an English language program. See page 19 for more information.

### Academic requirements

Every RMIT course has its own specific set of entry requirements. You will find them listed as an Australian grade on each course summary on the RMIT website. You can visit our country equivalency page to find what the required score in your qualification would be.

For example, 70 per cent in the Australian Year 12 was equivalent to 454 in the Chinese Gao Kao in 2019.

For some courses, you also need to complete selection tasks as part of your application. These may include:

- submitting a portfolio
- completing a preselection kit
- attending an interview (in person or via phone or Skype)

Work experience may be required or used for alternative entry for some courses.

### Additional requirements

For some courses, you also need to complete selection tasks as part of your application. These may include:

- submitting a portfolio
- completing a preselection kit
- attending an interview (in person or via phone or Skype)

### English for academic purposes

REW offers the English for Academic Purposes (EAP) program, which, if successfully completed, gives you direct entry to university without the need to take a formal English test.

The program prepares you for success at university by:

- teaching you academic language and university-level study skills
- using materials relevant to academic coursework
- developing your skills in independent learning and group work

Each level of study takes 10 weeks full-time to complete. Your total study time will depend on the level you need to achieve to enter your chosen course. We will place you in a class that matches your most recent IELTS or other recognised English language proficiency test results, which can be no more than 12 months old. The table below shows the test results required for different levels.

If you do not have an IELTS score (or English test equivalent) you can sit a placement test at RMIT English Worldwide.

Undergraduate degree (4 years full-time)

### For more information on entry requirements

[www.rmit.edu.au/international/entryrequirements](http://www.rmit.edu.au/international/entryrequirements)

[www.rmit.edu.au/research-entry-requirements](http://www.rmit.edu.au/research-entry-requirements)

---

3 Minimum score for each band required. Note: Some courses may require a higher IELTS score.

4 Equivalent senior secondary school qualification or vocational qualification.

5 Some honours degrees require you to complete a bachelor degree for entry.

6 Some courses require selection tasks to be completed for entry.

7 Research component required, plus evidence of a minimum credit or distinction average.

---

**For more information, including start dates, fees and enrolment process, visit**

Foundation Studies provides you with a direct entry into one of three pathways: a Degree, or an Associate Degree, or a Diploma.

Focused discipline streams

RMIT’s Foundation Studies offers three streams; Art, Design and Architecture, Business, Science, Engineering and Health. These streams are designed when you know the academic degree you wish to pursue. If undecided about your academic pathway you can enrol in the Foundation Studies General program.

Individual attention

Our small class sizes ensure you receive the support and feedback you need to develop enriching relationships with your teachers and your student community. Our classrooms incorporate modern design spaces and provide contemporary tools to enhance your learning experience.

Pathway options

Foundation Studies provides you with a direct entry into one of three pathways; a Degree, an Associate Degree, or a Diploma.

Fees and dates

Foundation Studies: Art, Design and Architecture
Duration: 1 year
Commencement dates:
- 1 February 2021
- 19 July 2021

IELTS (academic) 5.5
(no band below 5.0)

Pathways

Vocational Education pathways

RMIT’s certificates, diplomas and advanced diplomas help you gain the practical skills you need for excellent job prospects. They also provide credit towards RMIT degrees, with some courses providing up to two years' credit towards a bachelor degree.

Examples

**Tan wants to study a Bachelor of Business (Management).** She has completed Year 12, but her grades don’t qualify her for entry into the bachelor degree. She also needs to improve her English skills.

English for Academic Purposes (EAP)

Tan enrolls in RMIT English Worldwide’s EAP course. She is placed in the Upper Intermediate class.

Duration: 10 weeks

**Rajesh wants to study a Bachelor of Engineering (Chemical Engineering), but he hasn’t completed the required chemistry study for direct entry into the course.**

Foundation Studies

Rajesh successfully completes a Foundation Studies course in the Science, Engineering and Health stream.

Duration: 3 year

Bachelor of Engineering (Chemical Engineering)

Rajesh achieves the overall minimum grade required in Foundation Studies to enter into year one of the bachelor course.

Duration: 4 years

Associate degree pathways

An associate degree is a two-year university course that gives you a strong grounding in your field. You may also gain credit towards a related RMIT bachelor degree.

**Rajesh achieves the overall minimum grade required in Foundation Studies to enter into year one of the bachelor course.**

GRADUATE!
Gain your secondary school certificate at RMIT. The Victorian Certificate of Education (VCE) is recognised throughout Australia as a university entrance qualification.

VCE at RMIT

RMIT offers VCE in Melbourne, Australia, and in Beijing, China, through the Beijing ZhongGuanCun Foreign Language School.

Fees and important dates

Important fee information

- The course information and fees in this publication apply to students starting courses between 1 January and 31 December 2021.
- All fees are quoted in Australian dollars ($AU) and apply to RMIT University’s Australian campuses only.
- RMIT’s application fee is non-refundable, but will be credited to your tuition fee deposit once you accept your offer and start your course.
- For Higher Education fees, tuition fees are rounded up to the nearest $10 per credit point increment.
- Similarly, for Vocational Education and preparatory students, the annual course fees are rounded up the nearest $250.
- Students starting mid-year will find that the total cost of their course will be slightly higher than if they had started in February, because fee increases are applied at the beginning of each calendar year. (So their second semester may be more expensive after a fee increase at the start of the following year).
- Fees are invoiced on a study period basis according to the enrolled load for that particular study period, except that English language is charged at a weekly fee.
- For full-time students, the annual Student Services and Amenities fee for 2021 is $AU1,030.
- For further information, visit rmit.edu.au/programs/fees/other.

How to apply

1. Research

Find the course you want to study at RMIT.
- Check the entry requirements.
- If you don’t meet the course entry requirements, explore your pathway options (see page 21 for details).

2. Prepare

To apply to study at RMIT, you will need a complete set of supporting documents, which may include:
- academic transcripts
- any documents relating to selection tasks (pre-selection kits, folios, etc.) if applicable
- graduation certificates
- passport
- proof of English language proficiency

Brochure builder

To create your own personalised brochure about studying at RMIT, visit rmit.edu.au/mybrochure

3. Apply

Submit your application to RMIT.
Allow a minimum of 10 days for RMIT to assess your application.
We will contact you if we need more information. Successful applicants will receive their offer via email.

4. Accept your offer

Congratulations! You can now accept your offer.
Allow at least five days for RMIT to send your eCOE (electronic Confirmation of Enrolment).

5. Visa application

Once you receive your eCOE, you can apply for your visa. Depending on what you study and the length of time you plan to be in Australia, you may need a student visa, a training visa or a visitor visa.
To find out more about which visa to apply for and how to apply, visit immi.homeaffairs.gov.au

6. Organise travel

Once you receive your visa, you can organise your travel to Melbourne.
Make sure you arrive in time to attend the international student welcome.

Need help?

For more information, visit rmit.edu.au/international/how-to-apply
Contact our student advisors at study@rmit.edu.au

Contact our Arabic-speaking advisor at arabic@rmit.edu.au
To submit an enquiry via our website, visit rmit.edu.au/international-enquiry

For detailed information on applying for VCE, check the entry requirements.

To apply for VCE in Melbourne, Australia, or in Beijing, China, visit rmit.edu.au

If you don’t meet the course entry requirements, explore your pathway options (see page 21 for details).
RMIT researchers are supported by cutting-edge research hubs and facilities

- Advanced Manufacturing Precinct
- AFI Research Collection
- Food Research and Innovation Centre
- MicroNano Research Facility
- Nuclear Magnetic Resonance Spectroscopy Facility
- Rheology and Materials Characterisation Laboratory
- RMIT Design Archives
- RMIT Microscopy and Microanalysis Facility
- RMIT Vibrational Spectroscopy Facility
- Separation Science and Mass Spectrometry Facility
- Virtual Experiences Laboratory
- X-Ray Facility

In 2019, RMIT was named Geospatial Research Institute of the Year by the Geospatial World Forum.

RMIT’s Dr Louise Byrne won the top Early Career Research Prize at the 2019 Mental Health Service Awards of Australia and NZ for her contributions to advancing mental health service quality.

RMIT’s Professor Calum Drummond won the Australian Academy of Science’s prestigious Ian Wark Medal for outstanding advances in chemistry and materials science research.

Three RMIT research projects were awarded grants totalling $768,000 to modernise the Australian automotive industry and support the development of self-driving vehicles.

Google rated RMIT as a leading technology university with three prestigious research awards, more than any other Australian university. The annual Google Faculty Research Awards fund world-class computer science and technology research.

An RMIT physicist, Distinguished Professor Min Gu, was awarded a top international prize, the Dennis Gabor Award in Diffractive Optics, named in honour of the Nobel-winning inventor of holography.

RMIT researchers have used liquid metals to turn carbon dioxide back into solid coal, in a world-first breakthrough that could transform our approach to carbon capture. The team has developed a technique that can efficiently convert CO2 from a gas into solid particles of carbon.

RMIT researchers won the Telstra Designing for Aging Well Challenge. Through partnering with aged care provider Bolton Clarke, the team developed the CaT Pin, a wearable device that tracks a wearer’s conversation, sending alerts to family or carers at signs of social isolation.

2019 research highlights

—

Research at RMIT

As a global university of design, technology and enterprise, RMIT brings unique capabilities to research through a transdisciplinary approach.

Our academic expertise, strong links to industry and consideration of technological and social dimensions enables us to find solutions to critical problems affecting communities and the environment.

RMIT participates in Cooperative Research Centres around Australia and has many international partnership arrangements in place, ensuring our researchers are well connected to international leaders in their field.

RMIT offers research programs at two levels:
- Masters by Research (2 years, full-time)
- PhD (4 years, full-time)

rmit.edu.au/how-to-apply-for-research

—

Our research clusters

Unlike conventional discipline-based research structures, RMIT’s Enabling Capability platforms connect researchers from multiple disciplines and from across colleges under a thematic umbrella.

Advanced Manufacturing and Fabrication
Advanced Materials
Biomedical and Health Innovation
Design and Creative Practice

Global Business Innovation
Information and Systems
Social Change
Urban Futures

rmit.edu.au/ecp

Image: The world’s first self-fit modular hearing aid, designed by RMIT researcher, Leah Heiss, for Blamey Saunders hears.
Capitol Theatre

Designed by celebrated architects Marion Griffin and Walter Burley Griffin, the Capitol is one of the most important cinemas in Australian history. The venue, constructed in 1924, has been reimagined by RMIT and Six Degrees Architects as a contemporary hub for education and culture.

The Capitol hosts screenings, theatre productions, talks and workshops, and gives our students opportunities to participate in exhibitions, live productions, conferences and many other experiences.

Storey Hall

First built as the Hibernian Hall in 1887, this historic RMIT building was an important symbol of social and political protest. It was remodeled as the iconic Storey Hall in 1995, when it received an ultra-modern extension by ARM Architecture, featuring geometric-shaped windows and tiles. The purple colour used throughout the interior recalls the hall’s earlier life as a place for feminist debate, and the powerful green facade acknowledges the building’s Irish heritage.

The building is now home to the RMIT Gallery and includes a large auditorium, lecture theatre and function spaces, providing contemporary exhibition and learning spaces for our students.
Architecture

— Study areas
- Architecture
- Interior design
- Landscape architecture

#22 in the world for architecture\(^1\)
#3 in Australia for architecture\(^2\)

Excellence in research
RMIT’s research in architecture is rated as above world standard\(^3\)

Victorian Architecture Medal
Practices led by RMIT staff, adjunct professors or alumni have received the Victorian Architecture Medal every year from 2013 to 2019

Learn abroad
Study in the heart of Los Angeles with our exchange partner, Southern California Institute of Architecture

Architecture and urban design at RMIT address compelling, contemporary issues such as globalisation and rapid urbanisation. Our students are encouraged to be risk-takers, engaging with new and emerging technologies to explore their implications and possibilities for architectural design. We promote project-based learning and research, preparing our students for work and industry engagement. We have extensive links with industry through our teaching staff, many of whom are award-winning, practicing architects.

At RMIT you will develop a rich understanding of architecture and build a diverse set of skills that you’ll use throughout your career, including visual communication, drawing, 2D and 3D design and problem-solving.

— Work-integrated learning
Many of our courses offer opportunities to gain invaluable industry experience with design studios offered by leading local and international design practices. Students work in studios under the supervision of experienced designers and architects, working on real projects or topical contemporary issues.

For more information visit
rmit.edu.au/architecture

Design Hub
Our award-winning Design Hub, designed by RMIT alumni and architect Sean Godsell, includes a fully equipped workshop space, gallery, robotics lab and a variety of design studio spaces. The hub features lecture spaces where prominent local and international architects and designers present throughout the year.

3. For the most up-to-date information regarding RMIT courses and pathways, please visit rmit.edu.au
RMIT’s School of Art is a hub for emerging artists to engage in contemporary practice and gain local and international exposure. RMIT encourages diverse, challenging and innovative art, craft and photographic practices and research. We are ranked first in Australia and 13th in the world for art and design1, placing RMIT in the top echelon of the world’s art and photographic educational institutions.

Set in the centre of Melbourne’s flourishing creative scene, the school enjoys a 130+ year history of graduating artists, photographers and craftspeople with skilled hands and cultivated minds, ready for life and work. RMIT proudly supports artists-in-residence, galleries, public programs, international conferences, student and staff exchange, study tours and publishing – all with a strong focus on community engagement and social transformation.

### Study areas
- **Fine art**
- **Photography**
- **Visual arts**

**5 galleries**
RMIT owns and operates five public galleries and exhibition spaces

**7 specialisations**
Fine art offers seven studio specialisations:
- ceramics
- drawing
- gold and silversmithing
- painting
- print
- sculpture
- video

### Travel opportunities
RMIT runs regular study tours to experience festivals and meet prominent artists in New York, Hong Kong, Paris, Shanghai and Berlin. Students are also given the opportunity to study at our interlocation partner, Hong Kong Art School, where students can earn a 130-year history of graduating artists, photographers and craftspeople with skilled hands and cultivated minds, ready for life and work. RMIT proudly supports artists-in-residence, galleries, public programs, international conferences, student and staff exchange, study tours and publishing – all with a strong focus on community engagement and social transformation.

Biomedical Sciences

Study areas
- Biomedical science
- Biotechnology
- Laboratory medicine
- Pharmacy
- Pharmaceutical sciences

Excellence in research
RMIT’s research is ranked by the ARC as well above world standard in:
- clinical sciences
- pharmacology and pharmaceutical sciences
- medical physiology
- microbiology

Only Victorian university to offer all the following majors:
- haematology
- anatomical pathology
- medical microbiology
- clinical biochemistry
- transplantation and transplantation science

Australian Institute of Medical Scientists
RMIT’s Bachelor of Biomedical Sciences (Laboratory Medicine) is the only Victorian degree accredited by the Australian Institute of Medical Scientists (AIMS)

Study abroad
Laboratory medicine provides opportunities for students to travel overseas and undertake 15 to 18 weeks of professional practice in an approved laboratory. Destination countries include the UK, the US, Ireland, Singapore, Korea and Sweden

Biomedical sciences help us understand disease, how it occurs and how we can control, cure and prevent it. Biomedical sciences at RMIT will teach you to provide practical solutions to global health issues and gain a better understanding of the ever-increasing role that technology plays in how our bodies function.

- Project management
- Property and valuation
- Surveying and geospatial science
- Sustainable practices
- Workplace health and safety

1 of 3

250+ employers of choice

RMIT’s property, construction and project management courses maintain relationships with 250+ industry connections through our Employer of Choice program.

Industry accreditation

RMIT’s courses are accredited by:
- Australian Institute of Building
- Royal Institute of Chartered Surveyors
- Chartered Institute of Building
- Australian Institute of Quantity Surveyors

New technologies

RMIT’s construction management courses are among the first in the world to embed 4K spherical virtual technology and building information modelling into the curriculum.

The development of our built environment is about more than just constructing roads and buildings. Today’s growing cities need to be carefully and innovatively planned to create liveable and sustainable spaces that can accommodate diverse and growing communities.

RMIT’s building courses connect you with industry mentors to gain the professional skills required to design, shape, finance and manage the urban spaces we live and work in.

Work-integrated learning

RMIT’s School of Property, Construction and Project Management partners with 250+ leading organisations through our unique Employer of Choice program. The program provides undergraduate students with opportunities to:

- participate in the Industry Mentorship program
- undertake employment that supports their professional development

- gain invaluable industry experience under the supervision of industry experts
- grow their professional networks

Learning with VR

The use of virtual and augmented reality software enables building and construction students to enter and experience a completely immersive environment. With the aid of VR, students can virtually access construction sites safely, in class or at their own pace. The use of VR helps undergraduate construction students to gain a better understanding of the spatial qualities of a building or learn about structural components and assemblies in static models.

Our industry partners include:

Fastrack

Fastrack is a university-wide elective available to students of all disciplines. It partners with leading industry experts from business, design and technology to co-design and deliver solutions to complex challenges.

Fastrack has worked with partners including NAB, ANZ, Deloitte, Kmart, Crime Stoppers and Victorian Legal Aid. Our partners sponsor the innovation challenges that students work on and allocate subject-matter experts to Fastrack teams, who serve as valuable mentors to participating students.

Behavioural Business Lab (BBL)

The BBL is a multidisciplinary team that applies psychological insights to study people’s decision making in business contexts. Members of the BBL have expertise in psychology, economics and marketing and employ qualitative and quantitative techniques to generate a deep understanding of the process of decision making. The team designs strategic interventions using creative problem-solving tools such as design thinking.

Work-integrated learning

From ASX-listed companies to non-profit organisations, RMIT partners with organisations of every size to provide our students with industry-relevant learning. The Co-op program is a paid, 8-to-12 month, full-time work placement as part of a four-year Bachelor of Business degree. Co-op provides students with opportunities for mentorship, leadership and management and a dedicated RMIT team member supports each student throughout the Co-op journey.

Our industry partners include:

Deloitte

LinFex

Grant Thornton

RMIT Activator

Activator is RMIT’s home of entrepreneurship. Our workshops, online learning and start-up programs position students to solve the biggest problems out there and take on the future of work. At Activator, you can access mentors, attend masterclasses, request business coaching, apply for funding and learn the enterprise skills you need to support your ideas.

RMIT Trading Facility (RTF)

The RTF is one of the largest tertiary-based facilities of its kind in Australia. It receives live market data from the world’s leading source of intelligent information for businesses, Refinitiv, as well as other financial analysis tools used by leading banks and investment firms. It provides information on bonds, bills, foreign exchange, share prices and more. The courses run in the RTF use this data in real-time trading simulations and technical workshops.

RMIT Blockchain Innovation Hub

The world’s first research centre on the social science of blockchain in simulated environments

#3 in the world for the study of digital currencies

RMIT has allocated $1.5M+ in funding to student start-ups since 2015

Own your future

RMIT offers electives designed to build your skills for self-employment

**Kae Hum**

**Bachelor of Business (Business Informations Systems)**

I chose RMIT specifically because it was based in the city, and given that I was studying a business course, I really wanted to be in the centre of the business universe.

A lot of the lecturers gave really practical advice on how to start projects and how to get funding. I also found it to be a really people-first organisation, so all the lecturers knew us by name and gave us a lot of help after hours, and that’s something that really stood out to me.
Our industry partners include

Graduate success
Bachelor of Communication (Journalism) alumni Jedda Costa and three other RMIT alumni were selected for prestigious ABC cadetships in 2019. During their studies, each student completed an internship with the ABC and hosted one of RMIT’s live television news programs as part of their studies. The cadets will be based around the country and will receive on-the-job, multi-platform reporting training across TV, radio and online media.

RMIT Media Precinct
RMIT’s Media Precinct offers students access to state-of-the-art facilities that support current and future trends in media production. It includes five TV studios and control rooms, supporting spaces such as green rooms, makeup rooms and production offices. Used for live broadcast, recordings and audio mixing, the studios include virtual and augmented reality set technologies, where broadcast and gaming technologies converge.

ABC Fact Check
RMIT has partnered with ABC News to create the award-winning news service Fact Check. Based in RMIT’s Media Precinct, journalism students and industry professionals work together to examine the claims made by public figures and groups in public debate, providing an essential service in the effort to maintain factual journalism in today’s changing media landscape.

UNESCO City of Literature
Study in Melbourne, the second city in the world to be designated a UNESCO City of Literature.

Excellence in research
RMIT’s research in communication and media studies is rated as well above world standard, one of only two Australian universities to achieve this rating.

At RMIT, you’ll develop the communication skills you need to succeed in a rapidly evolving media landscape. Our courses are designed to enhance your communication skills, provide media training and allow you to move fluently between the classroom, studio and workplace.

We bring industry into the classroom and regularly partner with international and local media organisations and festivals so you can network with industry professionals and get a head start in the competition.

Work-integrated learning
RMIT’s communication courses foster rewarding relationships with industry, including cultural and community partners. Students work with industry during placements, on collaborative projects and in workforce development and research. Our students have worked with organisations including:

- Ogilvy
- Film Victoria
- ACMI
- BSS Radio

Pallavi Daniel
Bachelor of Arts (Creative Writing)

The Bachelor of Arts (Creative Writing) was unlike anything offered at other universities. At RMIT, creative writing was the focus of the degree – not a singular unit or area of study. I felt reassured that I wouldn’t just be spending three years studying something I loved – I’d also get a career out of it at the end.
Our industry partners include RMIT researchers and academics have come together to design and develop a font named Sans Forgetica. The font is believed to be the world’s first typeface specifically designed to help people retain more written information. RMIT typography lecturer Stephen Bannon and members of RMIT’s Behavioural Business Lab collaborated to design the font, which won best-in-class in the communication branding and identity category at the 2019 Good Design Awards.

At RMIT, our vision is to reimagine the future and design a more resilient world. Our students are immersed in hands-on studio learning to invent, visualise and prototype design solutions. Our impressive academic team, close industry connections and cutting-edge facilities allow us to provide leadership in new and emerging fields of design. Through your studies, you’ll expand your design skills and gain valuable experience by working on client projects, learning from industry mentors and design experts. At RMIT you will investigate contemporary, cultural and environmental aspects of design and technology and graduate as an industry-ready and visually skilled professional.

Study areas
- Animation and interactive media
- Graphic and communication design
- Industrial, product and furniture design
- Game design
- Product design
- Interior design
- Jewellery design
- Graphic design
- Communication design
- Industrial design
- Product design
- Furniture design
- Animation
- Interdisciplinary design

Official Design Partner of the National Gallery of Victoria
Official Research Partner of Australian Centre for the Moving Image

Exchange partnership with Parsons/The New School of Design, NYC

At RMIT you’ll expand your design skills and gain valuable experience by working on client projects and learning from industry mentors and design experts. Internships are offered in many of our courses and past students have either interned or worked on client projects with:
- ANZ
- Penguin Books
- Mecca Cosmetica
- Australian Red Cross
- Noise Art Records
- Australian National Academy of Music

For more information visit rmit.edu.au/design

Sans Forgetica
RMIT researchers and academics have come together to design and develop a font named Sans Forgetica. RMIT typography lecturer Stephen Bannon and members of RMIT’s Behavioural Business Lab collaborated to design the font, which won best-in-class in the communication branding and identity category at the 2019 Good Design Awards.

Industrial and product design workshops
Complete with CNC machining, modern manufacturing equipment and traditional hand and power tools, our workshops allow students to learn critical skills, prototype new ideas, produce scalable models, create and manufacture products or furniture and explore their creativity.

Animation Lab
RMIT’s newly built animation labs are custom designed for teaching our students best practice animation skills. Desk spaces accommodate Wacom Cintiq for on-screen drawing and the labs are equipped with state-of-the-art 2D and 3D animation software.

Work-integrated learning
At RMIT you’ll expand your design skills and gain valuable experience by working on client projects and learning from industry mentors and design experts. Internships are offered in many of our courses and past students have either interned or worked on client projects with:

RMIT Design Archives
The RMIT Design Archives actively collect material relating to Melbourne design from the 20th century onwards. The collections represent historical and contemporary practices that tell the story of Melbourne as a design city and provide the resources and support for research into Melbourne’s designed environment.

Official Research Partner of Australian Centre for the Moving Image

RMIT Design Archives
The RMIT Design Archives actively collect material relating to Melbourne design from the 20th century onwards. The collections represent historical and contemporary practices that tell the story of Melbourne as a design city and provide the resources and support for research into Melbourne’s designed environment.

**Notes**
- A This course is only available for advanced entry.
- B July entry may be available to students who are granted subject exemptions or advanced entry based on previous study.
- C This course incurs additional costs.
- D Refer to rmit.edu.au/how-to-apply-for-research for reference.
- E This course is only available for advanced entry.
- F Total fee.

**Career Outcomes**

- Graphic and communication design: Communication designer, Creative director, Graphic designer, Illustrator, User experience designer
- Industrial, furniture and product design: Display and exhibition designer, Furniture designer, Industrial designer, Product designer, Production manager
- Design, innovation and technology: Chief experience officer, Digital design consultant, Software engineer, Spatial systems designer

---

Molly Yang
Bachelor of Design (Communication Design)

During my design studies, I undertook placements at a design studio and at RMIT. Through these placements, I was able to design for professional clients and respond to feedback. They prepared me for both potential future employment within the corporate world and for designing in a boutique studio.

I love what I do because I get to mix creativity with functionality.
100+ days of work-based learning
during teaching placements
RMIT is ranked in the top 100 universities in the world for education studies1, utilising both new and established teaching methods and classroom technologies. When you study education at RMIT, you’re joining a university with an established reputation for providing educational and vocational leadership in the field of knowledge creation.

Aside from traditional educational settings, our education graduates have the skills, knowledge and experience to work in private enterprise, government agencies and community service organisations. As a teacher, no matter what discipline you choose, you’re in a position to shape minds and foster a lifelong love of learning.

Work-integrated learning
Teacher education courses at RMIT are designed to provide a minimum 100 days of supervised professional experience, so our students graduate with confidence. We encourage students to experience education in a range of settings, and offer opportunities for placements in different cultures and countries. As part of the curriculum, students complete a placement in a disability setting, allowing them to develop strategies for managing challenging behaviours. Placements in third year may be taken overseas, and placements in fourth year are selected by students and may include rural or interstate settings.

Top 100

Among the world’s top 100 universities in civil and structural and electrical and electronic engineering.

Flexible first year

Enter first year engineering with Further Mathematics. At RMIT you can study an introduction to engineering maths to get your skills up to speed.

Globally recognised

As a signatory to the International Engineering Alliance, RMIT’s degrees are recognised by the Washington Accord and the Dublin Accord.

RMIT’s engineering courses are co-designed with industry to give you practical experience and training. From the very beginning of your studies, you’ll build the professional and technical skills you need to put your innovation and creativity into practice.

There are many career paths for an engineer and with RMIT you’ll develop internationally recognised skills in the areas that interest you most – designing and creating products, systems, structures and services that transform the world and improve lives.

Not sure what kind of engineer you want to be?

Are you more interested in how a smartphone works or what makes an aircraft fly? Do you prefer bridges or engines? Who has more fun – a civil engineer or an aerospace engineer? RMIT has developed a game to help you find the right course for you. Play it now at trueengineer.rmit.edu.au.

For more information visit rmit.edu.au/enginnering

From coffee to concrete

An RMIT lecturer and his students have come up with a new way to reduce the amount of coffee grounds going to landfill – using them in concrete. Concrete contains up to 80 per cent sand, but this resource can’t keep up with demand. Extracting it from fragile ecosystems can have a huge environmental impact.

The group found they could replace 10 per cent of the sand in a concrete mix with coffee grounds and have produced sample “coffee bricks”, which were displayed at RMIT’s EnGenius event in 2019.

Flight training

RMIT conducts flight training at the newly opened Bendigo site as well as the historic Point Cook site, which is the oldest operating airfield in the world and the birthplace of the Royal Australian Air Force. Both campuses include state-of-the-art FM210 flight simulators, which serve as training tools for student pilots. The equipment enables students to practise in all phases of flight, in any weather conditions and at any time of day, before taking to the skies.

Heavy Structures Lab

The Heavy Structures Lab at our Bundoora campus is equipped with extensive civil engineering facilities. The lab features: compression and tensile testing machines; controlled humidity chambers where structures and materials can be subjected to sustained loads over a long period of time; and a corrosion chamber for testing material degradation in harsh environments. It also houses structural testing frames that can accommodate beams up to six metres in length.

Pathways

A range of RMIT advanced diplomas and associate degrees provide pathways into engineering bachelor degrees.

Notes

A Course to be approved in March.
B This course includes additional costs.
C This course plan includes flight training and has the additional objective of training students to achieve competency as a pilot, leading ultimately to the issuance of a Commercial Pilot Licence (CPL).
D This fee includes the course’s maximum allowed flight hours. If students require training above the allowed flight hours, then they will be charged the differential. Each student’s flight time will also affect additional costs. A full list of materials and other fees can be found at rmit.edu.au/fees.
E Classes for this course are delivered across the City and Bundoora campuses. Students may be required to attend both locations.
F CC These courses are delivered across the Footscray and City campuses. Students may be required to attend both locations.

I love the idea of innovation. I like the idea of building something and making something custom, something that’s mine, and having a bit of an impact. Making life a little bit easier for people.
Top 11
RMIT’s Bachelor of Fashion (Design) (Honours) is ranked in the top 11 undergraduate fashion design courses in the world.1

UN Sustainable Development Goals
All undergraduate fashion courses at RMIT are underpinned by the UN Sustainable Development Goals.

Exchange partnerships
with Parsons The New School of Design, NYC, Amsterdam Fashion Institute and London College of Fashion

RMIT is a global leader in fashion and textiles education. Our courses are internationally recognised, with graduates making an impact across the world. We offer certificates, diplomas, and associate and bachelor degrees in our state-of-the-art facilities at RMIT’s Melbourne campuses.

Our students gain real-world experience working with local and global companies on projects that bring together design, technology and enterprise. Exploring contemporary approaches to materials, the body, environments and economies, we prepare our students to contribute to the rapidly transforming global fashion and textiles sector.

Study areas
- Fashion design
- Fashion enterprise
- Fashion styling
- Sustainable innovation
- Textile design
- Visual merchandising

Brunswick Design District
RMIT, Moreland City Council and Creative Victoria have led the establishment of the Brunswick Design District. As a long-standing hub for creativity in Melbourne, Brunswick has a thriving designer/maker community. The establishment of this precinct aims to leverage and support the local design community, as well as encourage creative start-ups and other enterprise businesses to set up in the area. RMIT’s School of Fashion and Textiles is situated in the heart of Brunswick and maintains strong relationships with studios and makers in the area, including:
- Otto and Spike
- DenimSmith
- Lois Hazel
- Kawaii
- Siteworks
- Space Tank

For more information visit
rmil.edu.au/fashionandtextiles

Sustainable practices
Fashion students learn about ethical and sustainable practices through a variety of hands-on projects. From exploring natural dyes and textile waste in RMIT’s garden studio to rapid prototyping of smart textiles and wearables in the makers’ space, sustainability is embedded in all learning experiences.

Exchange partnership with Parsons The New School of Design, NYC

Our industry partners include

Gaming and digital experiences are a booming industry around the world, with more than 2.3 billion active gamers contributing $44.19 billion to the global games market.3 Combine this with RMIT’s strong industry connections and invaluable workplace experience and you’ll be ready to work in the lucrative digital media, animation and games industries.

In our undergraduate and vocational courses you’ll create characters, environments and entire worlds as you build on your talents in digital art and design. Develop your conceptual design, storytelling and specialist art skills to produce rich interactive experiences. Study in creative studios that encourage artistic and intellectual investigation. Learn from passionate teachers and develop strong technical abilities in design, digital media, art, 2D and 3D design, motion graphics and special effects.

Work-integrated learning

Game design courses at RMIT focus on creative studios, which involve lab teaching from industry professionals and feature guest lecturers. Students have access to a testing environment, enabling them to assess game-playing responses and behaviours to better understand user experience firsthand. RMIT has strong connections to the local independent games industry through teaching from industry professionals and feature guest lecturers. Students have access to a testing environment, enabling them to assess game-playing responses and behaviours to better understand user experience firsthand. RMIT has close connections to the local independent games industry through teaching from industry professionals and feature guest lecturers.

---

Esports at RMIT

RMIT has two dedicated spaces for esports and gaming and frequently hosts professional teams and live-streamers on campus. RMIT’s esports team participates in large-scale competitions, including those at Australia’s largest gaming convention, PAX Australia. Esports is also included in the RMIT Elite and Emerging Athlete program, supporting students to balance the high demands of elite sport and university life each year.

Supporting WHO

RMIT’s expertise in Chinese medicine supports a World Health Organization program to integrate traditional medical practice into public healthcare around the globe.

Industry leader

RMIT is the only tertiary provider of Chinese medicine education in Victoria

Cutting-edge facilities

Practise on cutting-edge equipment that is widely used in clinical centres around Australia.

Demand for innovative health professionals is high as our medical system moves from “sick care” to “health care”. As a result, there’s a focus on wellbeing, prevention, early detection and treatment. Health science at RMIT boasts strong industry links and purpose-built facilities, producing health practitioners with skills that are valued all around the world.

Our diverse range of health, medical and wellbeing courses teach you practical solutions to global health issues. Courses are developed in consultation with practising professionals and many offer industry placements, student clinics and work experience in Australia and overseas. Whether you’re studying in our anatomy labs, nursing wards, nuclear medicine workstations, or on sports fields, our equipment, facilities and teaching staff are purposefully chosen and designed to help you get the real-world skills employers are looking for.

RMIT Health Sciences Clinic

RMIT’s Health Sciences Clinic in Bundoora provides clinical training for students. It prepares them for independent practice when they graduate and meets registration requirements. The clinic is open to the public and offers Chinese medicine, chiropractic, osteopathy and psychology services. It provides clinical diagnosis, health advice and treatment for a range of conditions.

rmit.edu.au/healthclinic

For more information visit rmit.edu.au/healthscience

Treating elite athletes

Myotherapy students at RMIT are given opportunities to work alongside elite athletes and performers during volunteer placements. The National Institute of Circus Arts (NICA) allows students to attend placements in block times, where they work alongside the institute’s highly skilled physiotherapy and myotherapy teams. Students are able to observe, treat performers and be mentored by the other therapists at NICA.

Radiation treatment room

Study in facilities with the latest medical radiations and IT equipment. This includes a Virtual Environment of Radiation Treatment Room (VERT). Through captivating 3D views and life-size visualisations, VERT offers radiation therapy students a unique platform through which to learn.

Chinese medicine clinic

Chinese medicine students use acupuncture, herbal medicine, manual and dietary therapy to treat a range of complaints. As part of their clinical training, students develop diagnosis, treatment and herbal dispensing skills by undertaking supervised clinical observation and practice at the RMIT Health Sciences Clinic.

Our industry partners include

- Essendon
- Melbourne Health
- Melbourne Sport Science
- Nica
- National Institute of Circus Arts

Supporting WHO

RMIT’s expertise in Chinese medicine supports a World Health Organization program to integrate traditional medical practice into public healthcare around the globe.

Cutting-edge facilities

Practise on cutting-edge equipment that is widely used in clinical centres around Australia.

Radiation treatment room

Study in facilities with the latest medical radiations and IT equipment. This includes a Virtual Environment of Radiation Treatment Room (VERT). Through captivating 3D views and life-size visualisations, VERT offers radiation therapy students a unique platform through which to learn.

Runu Hann
Bachelor of Pharmacy (Honours)

I came to [RMIT’s] Open Day, saw the Bundoora campus and it was beautiful. The staff were so helpful. Everyone was lovely. It was just really good vibes.

One of my highlights at RMIT was receiving the Pharmacy Guild of Australia’s Rural Pharmacy Scholarship Scheme. That helped me get financially set up and get me ready for study.

**Notes**

- Footnotes:
  - * Only entry may be available to students who are granted course / subject exemptions or advanced entry based on previous study.
  - ** This course includes a professional work placement.
  - † This course incurs additional costs.
  - + The clinical component of the course starts earlier than other RMIT courses. Students must be enrolled in the course and attending by the date stated in the offer letter.
  - ‡ This course incurs additional costs.
  - † Entry may be available to applicants with advanced standing and will be assessed on a case by case basis. Applicants must have completed a prior nursing course within the past five years to be considered.
  - Refer to rmit.edu.au/how-to-apply-for-research for reference.
  - + Total fee.
  - IELTS 7.5
  - See rmit.edu.au/how-to-apply-for-research for further details.

Robocup 2020

RMIT has named its squad to compete at Robocup 2020, the largest robotics and artificial intelligence competition in the world. The squad, which will be competing against teams from 45 different countries, features AI researchers and two enthusiastic RMIT students from computer science and software engineering. The headline event is humanoid football using fully autonomous Nao robots that can act and think for themselves. The event is a great platform for students to learn about the challenges of autonomous robotics, as the problems they have to solve in this competition are similar to those we face in solving large-scale robotic applications such as autonomous cars.

Artificial Intelligence Lab (AI Lab)

The AI Lab develops ideas and solutions to improve our quality of life through artificial intelligence. Specialists use models and algorithms to refine the user experience in games, interactive storytelling and machine learning and work with the latest technology to manage vast amounts of data.

Top 150

Global universities in computer science and information systems

Flexible majors

RMIT’s Bachelor of IT offers a range of specialisations, allowing you to tailor your learning to meet your aspirations.

Pathways into bachelor degrees

The Associate Degree in IT provides pathways into several of RMIT’s bachelor degrees in ICT.

Study areas

- Computer science
- Information technology
- Software engineering

Information Technology

Our industry partners include

IBM
nab

Virtual Experiences Lab (VX Lab)

The VX Lab is a multidisciplinary space for students and industry partners to access advanced technology in visualisation and automation. Users explore design, operation and testing of cyber-physical systems.

Esports at RMIT

RMIT has two dedicated spaces for esports and gaming and frequently hosts professional teams and live-streamers on campus. RMIT’s esports team participates in large-scale competitions, including those at Australia’s largest gaming convention, PAX Australia. Esports is also included in the RMIT Elite and Emerging Athlete program, supporting students to balance the high demands of elite sport and university life each year.

1QS World University Rankings by Subject 2019

Information and communication technology (ICT) is a multi-billion-dollar industry that underpins almost everything we do in today’s digital age. Computer scientists and IT specialists are vital to every industry and help to manage data, provide network support and maintain security.

RMIT’s IT courses let you design systems and solutions that use technology to meet the needs of the user. Combining theory and project experience, an ICT qualification from RMIT allows you to explore or specialise in the rapidly growing areas of app development, cloud, mobile, social media, web systems or multimedia. Our courses give you the skills to develop IT infrastructures and support the people who use them, from network and data administration, programming and client support, to specialised skills to help lead innovation in IT.

Flexible majors

RMIT’s Bachelor of IT offers a range of specialisations, allowing you to tailor your learning to meet your aspirations.

Pathways into bachelor degrees

The Associate Degree in IT provides pathways into several of RMIT’s bachelor degrees in ICT.

Work-integrated learning

RMIT’s information technology courses are designed to provide you with practical experience that prepares you for a career in industry. From year-long internships to projects that simulate an industry environment, RMIT is committed to providing you with opportunities to build on your knowledge and apply your learning in a professional context.

## Career outcomes

### Information and security
- Forensic analyst
- IT risk analyst
- Network security manager
- Security manager

### Software engineering
- Software architect
- Software engineer
- Software designer
- Software developer

### Computer science
- Business system analyst
- Software designer
- Systems architect

### Information systems
- Business analyst
- Database designer
- Infrastructure and network manager
- IT consultant
- IT project manager
- Systems architect

### Meray Abba
Certificate IV in Information Technology and Networking

I love computers and the power of networks. Networks connect everything – gaming platforms, communications, everything. I’ve always been curious, wanting to know how things work and trying new things. I chose RMIT because they have a great reputation in new technology and I can explore a little of everything before deciding where I want to put all my energies.

Law

Study areas

- Criminology and psychology
- Legal administration and policy
- Justice

30+

RMIT has more than 30 years of experience in justice training and education.

50-day work placement

Undertake a 50-day work placement in a criminal justice organisation.

Law Students’ Society

The RMIT Law Students’ Society runs social, education and careers events year-round.

Diverse electives

- Forensic studies
- Drug-related crime
- International policing
- Youth justice
- Terrorism

From resolving disputes to reforming criminal justice policies and developing early intervention programs, at RMIT you can help your community while making your mark in the field of law. You’ll explore all perspectives of the legal system, including policy, business, politics, sociology and criminology in contemporary Australian and international society. You’ll learn how policies are formed and get the technical skills you need to administer justice.

Our courses are known for incorporating real-world experiences. Justice and legal professions allow you to practise, enforce and reform the law across courts, legal firms, businesses, policing and security agencies.

Work-integrated learning

Employers seek graduates who are adaptable and ready for work. Many of RMIT’s legal courses offer an internship elective, which gives students the opportunity to apply their skills in a relevant justice organisation.

Past students have completed placements or internships with:

- Victoria Police
- Welfare and victim support services
- Magistrates’, Children’s and Supreme courts

For more information visit

rmit.edu.au/law

Former Magistrates’ Court

Study in buildings that are steeped in history. RMIT’s building 20 (former Magistrates’ Court) was the site of many of Australia’s most famous trials. Now acknowledged as historically significant by the Heritage Council, the Magistrates’ Court was the site of bushranger Ned Kelly’s murder conviction in 1880 when it was the Supreme Court. He was hanged at the adjoining Old Melbourne Gaol.

Career outcomes

Criminology and psychology

- Corrections officer
- Crime analyst
- Customs and immigration officer
- Drug and alcohol support service worker
- Indigenous services liaison
- Investigator
- Policy writer
- Security analyst
- Victim support officer

Justice and legal

- Case manager
- Counselor
- Paralegal
- Judge’s associate
- Law clerk
- Legal aid
- Legal policy officer
- Victims support officer
- Youth justice officer

Media

Study areas

- Music industry
- Live production
- Screen and media
- Sound production

#37

in the world for communication and media studies

#4

in Australia for communication and media studies

Exchange partnership

with renowned University of the Arts London (London College of Communication)

Excellence in research

RMIT’s research in communication and media studies is rated as well above world standard, just one of two Australian universities to achieve this rating

Live music capital

Study in Melbourne, which has more live music venues per capita than any other city in the world

Study the news, make films, create innovative sounds and produce cutting-edge digital content. Studying media at RMIT opens up a whole world of creation. At RMIT you will learn from industry practitioners with years of experience. You will benefit from our state-of-the-art media suite and work with professional-grade technology and materials.

You’ll blend theory with hands-on tutorials, connect with industry contacts, learn to tell stories, build strategies and execute creative projects. RMIT allows you to choose from journalism, music, screen media and more. Join a vibrant intellectual community at an institution that’s globally recognised for its outstanding graduates.

Work-integrated learning

Students are encouraged to take advantage of the opportunities offered by RMITV, our student-run television station broadcasting on Channel 31. Many of our student-run television station broadcasting on Channel 31. Students may also participate in live productions and screenings.

The Capitol hosts screenings, talks and workshops as a contemporary hub for education and culture. The venue, constructed in 1924, has been reimagined by RMIT and Six Degrees Architects designed by celebrated architects Marion Griffin and Walter Burley Griffin. The Capitol is one of the most important cinemas in Australian history. The venue, constructed in 1924, has been reimagined by RMIT and Six Degrees Architects as a contemporary hub for education and culture. The Capitol hosts screenings, talks and workshops and gives our media students the opportunity to participate in live productions and screenings.

Career outcomes

Science

Study areas

- Biotechnology and biological sciences
- Chemistry
- Environmental science
- Food science and technology
- Mathematics, statistics and analytics
- Medical sciences
- Nanotechnology
- Physics
- Sports science
- Surveying and geospatial sciences

World’s best
Geospatial research institute

Excellence in research
RMIT’s research is rated as well above world standard in:
- environmental science
- physical sciences
- clinical sciences
- microbiology
- analytical chemistry
- macromolecular and materials chemistry
- physical chemistry

Find your niche
RMIT offers both flexible and specialised courses

Work placements
Industry projects and placements expose you to real-world business challenges

Overseas study tours
As an RMIT science student, the world is your oyster. You could be heading interstate or overseas to embark on a field practicum on the Great Barrier Reef; an environmental assessment project in Fiji; a professional experience in Vietnam; or an expedition to Costa Rica to study the biology, ecology and conservation of local sea turtles.

Food Innovation and Research Centre
The RMIT Food Innovation and Research Centre enables students to develop practical skills in an industry-standard setting. The centre includes a production facility, commercial kitchen, sensory evaluation lab and research lab. Students have access to a modern pilot plant that simulates industrial production, as well as a range of high-tech food preparation and processing equipment.

Centre for Nanoscale Biophotonics (CNBP)
The CNBP brings together a team of physicists, chemists and biologists. The team aims to control nanoscale interactions between light and matter, enabling them to probe the complex nanosystems within living organisms. This allows our team of biological scientists to understand how single cells react to and communicate with their surroundings.

Science

Work-integrated learning
At RMIT, industry and community projects give you the chance to put your skills into action and gain practical experience before you graduate. These include local field trips, mapping the environment, exploring the aquatic environment and even going overseas to tackle environmental challenges in other countries.

For more information visit rmit.edu.au/science

Microscopy and Microanalysis Facility
The RMIT Microscopy and Microanalysis Facility houses high-quality electron microscopy and microanalysis equipment for the imaging and analysis of a range of specimens – from chocolate and aluminium to biological and plant material.

1 RMIT named Geospatial Research Institute of the Year for 2019 by the Geospatial World Forum.
2 2018 Excellence in Research Australia Report.

Science

Career outcomes

Applied science
- Diagnostic technician
- Materials chemist
- Metallurgical scientist
- Nuclear physicist
- Scientist

Biotechnology and biological sciences
- Biologist
- Cancer researcher
- IVF technician

Chemistry
- Advanced materials scientist
- Analytical chemist
- Chemical engineer
- Chromatography researcher
- Industrial chemist

Environmental science
- Environmental manager
- Environmental scientist
- Sustainability consultant

Food science and technology
- Agricultural scientist
- Food scientist
- Product developer
- Product innovation manager
- Quality assurance specialist

Nanotechnology
- Materials scientist
- Meteorologist
- Microelectronics fabricator
- Nano-scale product designer
- Nanotechnologist

Physics
- Medical imaging technician
- Medical physicist
- Molecular physicist
- Nuclear medicine researcher
- Radiographer

Surveying and geospatial sciences
- Geospatial technologist
- Mining operations manager
- Spatial modeller
- Surveyor

Engage with the challenges of a rapidly changing world and prepare for a career that makes a real difference in the world. Our community service and human service programs provide real-world learning experiences through field education and the close involvement of engaged academics and teachers who actively work towards a fairer world for all. Be the voice of the marginalised or a part of finding solutions that address global issues. A career in social science can be immensely rewarding.

Social science at RMIT spans multiple fields and gives you the opportunity to work in local and international organisations, businesses and government agencies. You’ll learn from passionate and experienced academics and teachers who work closely with industry partners to provide real-world learning experiences through field education and the close involvement of our partners in teaching and research. Human service and community service organisations, NGOs, advocacy groups and government agencies are all part of RMIT’s extensive network of partners.

Career outcomes

International studies
Each year, students in the Bachelor of International Studies are given the opportunity to take part in The Big Issue’s ‘Big Idea’ program as part of an assessment, which encourages them to develop a nuanced and empathetic understanding of disadvantage. Students first identify an important social issue, then propose a social enterprise in response to it, with the aid of industry mentors, social entrepreneurs and thought leaders who come into the classroom to work with them.
