

2022

Degree and

Diploma Guide

What's next...

A message from
the Vice-Chancellor
Martin Bean

At RMIT we focus on giving everyone the chance to be their best, shape their future and belong. Thanks to the passion of our extraordinary people and our commitment to transformative education and research, we're making that a reality every day.

It began back in 1887 when Francis Ormond had a vision for helping workers acquire real-world skills. The people of Melbourne matched his enthusiasm to start a very practical place of learning where students would leave ready for employment.

We still live this vision today. As society and the economy have become more sophisticated and complex, RMIT has grown and changed alongside. Now, we're a global university of design, technology and enterprise.

We exist to prepare our students for workplaces that are rapidly evolving, and we play a part in shaping a changing world.

RMIT has been part of every new development in work and industry since our inception. We're passionate about the communities we're part of and we're driven to make a purposeful contribution.

That's why we shape the world with our research and impactful partnerships with industry, government and enterprise.

We provide life-changing experiences when we give our students their first, second or even third opportunity to prepare for the world of work they aspire to.

Because today, more than ever, the transformational power of education is lifelong, generations deep and worldwide.

The one certainty is more and greater change in every industry and every location.

So with the world unlike it's ever been before, we're focused on ensuring our students are ready for life and work, whatever form that takes.

At RMIT, as we look to 2022 and beyond, we're excited about the possibilities.

Martin Bean CBE
Vice-Chancellor and President

**Acknowledgement
of Country**

RMIT University acknowledges the people of the Woiwurrung and Boon wurrung language groups of the eastern Kulin Nations on whose unceded lands we conduct the business of the University. RMIT University respectfully acknowledges their Ancestors and Elders, past and present.

RMIT also acknowledges the Traditional Custodians and their Ancestors of the lands and waters across Australia where we conduct our business.

Explore our locations

Melbourne

Situated in the very heart of the CBD, the City campus has been an iconic part of the Melbourne skyline for more than 130 years.

Bundoora

Situated in the north of Melbourne, the leafy Bundoora campus is home to many of RMIT's education, biomedical, health and science courses.

Vietnam

Study abroad at RMIT Vietnam and experience an unforgettable semester in Asia. Our beautiful Hanoi and Saigon South campuses offer clean, green environments and expansive study spaces.

Our award-winning locations are home to a thriving student population.

They are constantly evolving and expanding to meet the needs of our students and of modern university life.

Brunswick

Our Brunswick campus is a creative and multicultural hub. It is home to many of RMIT's design courses, including fashion, textiles, graphic and industrial design.

Flight Training Centres

Our Point Cook and Bendigo sites provide easy access to airspace, terrain and urban development to maximise navigational experiences.

Europe

Opportunities exist for students to engage with our European centre through study tours, internships, research as well as online opportunities including industry projects, mentoring and guest lectures.

Global experiences

RMIT has partnerships with more than 200 universities around the world.

From international study opportunities to foreign work placements, you'll gain invaluable life and work experience through our network of global partners.

Student exchange programs

Spend an unforgettable semester or two at one of RMIT's 200+ partner institutions.

Study tours

Join fellow students on a two to four-week trip to the Americas, Asia or Europe under the leadership of an RMIT academic.

Global leadership programs

Develop your own leadership style and enhance your cultural intelligence with a range of free programs offered in Melbourne and across Asia.

Cross-campus study

Study at RMIT Vietnam's Ho Chi Minh City or Hanoi campuses for up to a year.

Our interlocation partners

RMIT delivers a range of courses internationally with our interlocation partners. These include Singapore Institute of Management, Shanghai University of International Business and Economics, Hong Kong Arts School and VTC Shape.

Industry experience

As an RMIT student, you can access work-integrated learning, volunteer opportunities, internships, leadership training and research programs around the world.

Get future ready

Find a job, plan your career and check out all the opportunities for work and study at RMIT.

Job Shop

RMIT's Job Shop is your drop-in service centre for all things career-related. Job Shop offers services such as:

- resumé and cover letter reviews
- help finding job opportunities
- career workshops and events
- careers consultations.

rmit.edu.au/jobshop

RMIT Activator

Activator is RMIT's home of entrepreneurship. Its workshops, online learning and start-up programs position students to solve the biggest problems out there and take on the future of work. At Activator, you can access mentors, attend masterclasses, request business coaching, apply for funding and learn the enterprise skills you need to support your ideas.

No matter what your future looks like, plug into Activator's ecosystem of entrepreneurs, intrapreneurs, start-up founders and innovators and let it help you on your journey to success.

rmitactivator.edu.au

RMIT Creds

RMIT Creds are micro-credentials that develop your skill set beyond your area of study. These credentials have been co-designed with industry to ensure you're ready for the changing world of work. They cover subjects such as digital literacy, leadership, sustainability, innovation, collaboration and communication.

Most Creds are available online and are short in duration, ranging from 60-minute snippets to several hours of learning.

rmit.edu.au/creds

Work-integrated learning

At RMIT, work-integrated learning (WIL) is embedded into every stage of your student experience, so you have the opportunity to put what you've learned in the classroom into practice. Through industry work placements, internships, seminars, field trips, projects and mentoring, you'll be ready to make an impact from day one of your career.

Future Edge employability program

Future Edge is a flexible, co-curricular program designed to increase the employability of all RMIT students. The program helps you to craft and build your 'personal brand' in order to stand out in an incredibly competitive employment landscape. It will complement your time at RMIT and help you build industry-specific and practical skills to aid your transition into your career.

rmit.edu.au/future-edge

Life at RMIT

Trips and tours

Looking for adventure? Take a break from the books and explore the city of Melbourne or the mountains, beaches and forests of Victoria on a student tour.

Cuddle a koala, go skiing on Mount Hotham, visit the Twelve Apostles, or just find the best brunch spot in town. See and experience it all with RMIT.

Sports and fitness

At RMIT we have more than 40 sports clubs, from basketball to Brazilian jiu jitsu. Join a club at RMIT and you're not just keeping fit and doing something you love; you'll also make lots of new friends and may even get to do some travelling.

The Redbacks are RMIT's sports team collective. Redback teams compete at a national level in the Australian University Games.

Whether you're sporty, creative or just curious, RMIT's clubs, collectives, events and trips will help you meet new people, make connections and discover more of Melbourne.

Mates at RMIT

New to Melbourne? If you're joining us from a regional, rural, interstate or international location, we'll help you settle in to your new home. Mates at RMIT connects you with current students to help make navigating university life a little easier.

Sign up as a student mentee and you'll get your own mentor to show you where to go and what to do around RMIT.

RMIT creative clubs

No matter what you choose to study, RMIT has a creative group, activity or collective that's open to you.

Our dance classes, performing arts troupes and media makers are always looking for new members and they're open to extroverts and introverts alike.

Pathways

The traditional path to university isn't the only one. Pathways provide opportunities for students to access undergraduate study by first studying one of our many vocational courses.

Guaranteed pathways

Guaranteed pathways gives you the option to preference pathway packages in VTAC. This means you will be able to secure your place in your dream course by completing your vocational studies (otherwise known as TAFE) first and graduate with two internationally recognised RMIT qualifications.

Vocational Education pathways

RMIT's certificates, diplomas and advanced diplomas help you gain the practical skills you need for excellent job prospects. They also provide credit towards RMIT degrees, with some courses providing up to two years' credit towards a bachelor degree.

Associate degree pathways

An associate degree is a two-year university course that gives you a strong grounding in your field. You may also gain credit towards a related RMIT bachelor degree.

Sarah's pathway

Sarah wants to become a mechanical engineer. She has just completed Year 12, but her ATAR score does not qualify her for entry into any undergraduate engineering degree and she did not study mathematics during VCE.

Advanced Diploma of Engineering (Mechanical)

Sarah enrolls in the Advanced Diploma of Engineering (Mechanical), which does not require her to have studied a mathematics subject as a prerequisite.

Duration: 2 years

Bachelor of Engineering (Mechanical Engineering) (Honours)

Sarah successfully completes the Advanced Diploma of Engineering (Mechanical) and is guaranteed entry into the Bachelor of Engineering (Mechanical Engineering) (Honours) with exemptions equivalent to 1.5 years of full-time study.

Duration: 2.5 years

Graduate!

Sarah completes the Bachelor of Engineering (Mechanical Engineering) (Honours) after 2.5 years of full-time study.

Total duration: 4.5 years

Architecture

Study areas

- Architecture
- Interior design
- Landscape architecture

#25 in the world for architecture¹

#3 in Australia for architecture¹

Excellence in research

RMIT's research in architecture is rated as above world standard²

Victorian Architecture Medal

Practices led by RMIT staff, adjunct professors or alumni have received the Victorian Architecture Medal every year from 2013 to 2020

Learn abroad

Study in the heart of Los Angeles with our exchange partner, Southern California Institute of Architecture

Architecture, landscape architecture and interior design at RMIT address compelling, contemporary issues such as globalisation and rapid urbanisation. Our students are encouraged to be risk-takers, engaging with new and emerging technologies to explore their implications and possibilities for design. We promote project-based learning and research, preparing our students for work and industry engagement. We have extensive links with industry through our teaching staff, many of whom are award-winning, practising architects and designers.

At RMIT you will develop a rich understanding of design and build a diverse set of skills that you'll use throughout your career, including visual communication, drawing, 2D and 3D design and problem-solving.

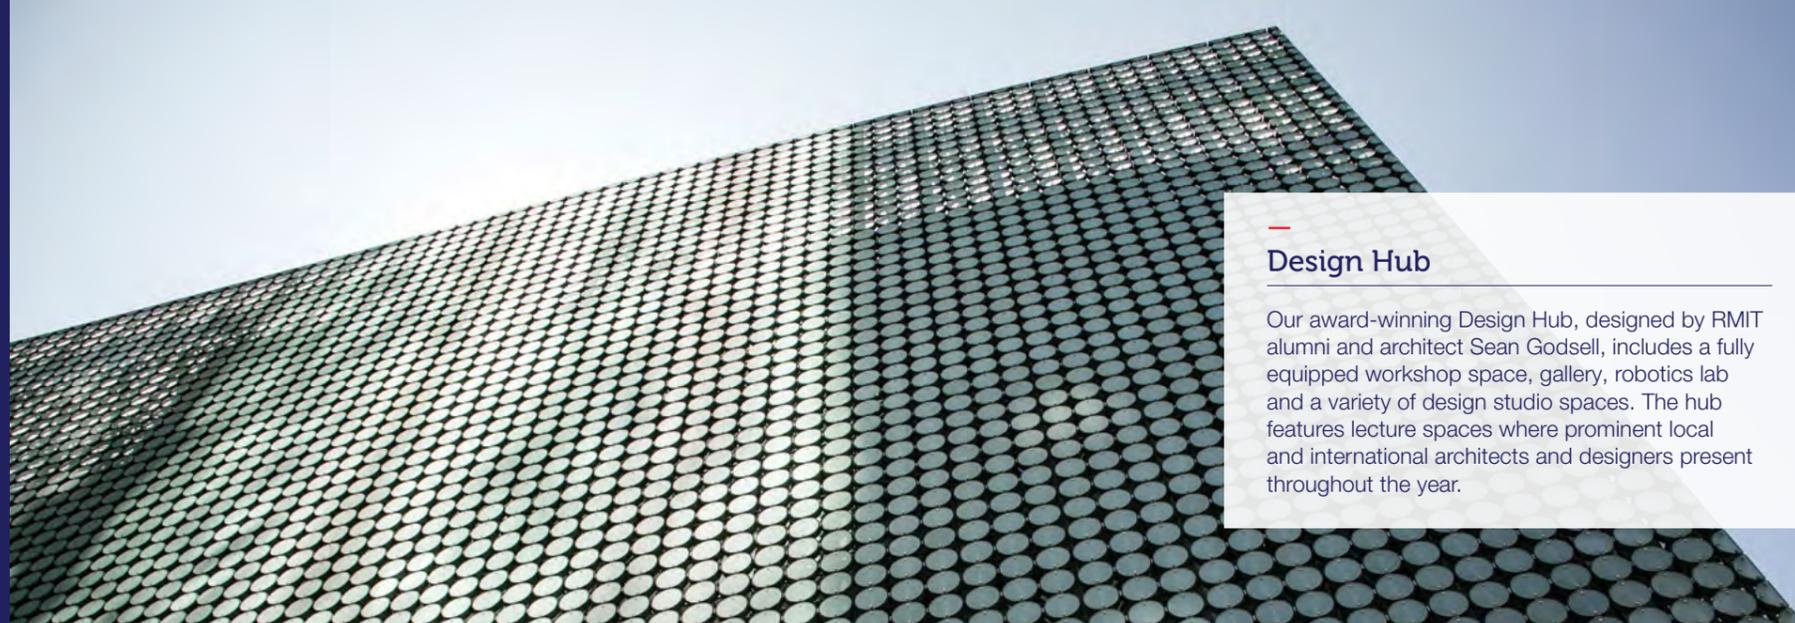

Work-integrated learning

Many of our courses offer opportunities to gain invaluable industry experience with design studios offered by leading local and international design practices.

Students work in studios under the supervision of experienced architects, interior designers and landscape architects, working on real projects or topical contemporary issues.

For more information visit rmit.edu.au/architecture

Design Hub

Our award-winning Design Hub, designed by RMIT alumni and architect Sean Godsell, includes a fully equipped workshop space, gallery, robotics lab and a variety of design studio spaces. The hub features lecture spaces where prominent local and international architects and designers present throughout the year.

Student project

Landscape architecture students are working alongside the Heide Museum of Modern Art on a renewal masterplan.

Students have been invited to explore the site and reimagine the environment to improve audience experience of this unique cultural landmark.

Design studios at RMIT

Design studios are at the core of RMIT's Bachelor of Interior Design (Honours) course. These project-based, industry-led studios allow students to learn by doing. Each semester, projects for studio groups change as they respond to current contexts. At the conclusion of each semester, students curate their work and organise a show, culminating in the final year graduate exhibition, INDEX, which showcases student projects to industry professionals and other guests.

Learn more about
Alex's time at RMIT

Alex Pestrivas

Interior Design (Honours) student

Studying [at RMIT] has shown me that interior design is more creative than I first thought. I'm creating different relationships and experiences in the space. I'm learning to think about how a space makes a person feel, as well as the design choices of how a space looks.

The teaching staff at RMIT are really inspiring. They share their work and experiences from their own practices and that gives us a good sense of what we can do. My highlights of studying so far have been working on live projects and interacting with professionals within the design industry.

ARCHITECTURE

Bachelor of Architectural Design

RMIT Architecture has an international reputation for design excellence. From your very first semester, you will be immersed in hands-on creative studios developing advanced design skills and a rich understanding of the built environment.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

PATHWAY OPTIONS

- **Adv Dip of Building Design (Architectural)** (2 years) plus **Bachelor of Architectural Design** (1.5 years) = 3.5 years' total study. Entry into the Bachelor of Architectural Design is competitive and completion of the pathway guarantees an interview.

RMIT's School of Art is a hub for emerging artists to engage in contemporary practice and gain local and international exposure. RMIT encourages diverse, challenging and innovative art, craft and photographic practices and research. We are ranked first in Australia and 11th in the world for art and design¹, placing RMIT in the top echelon of the world's art and photographic educational institutions.

Set in the centre of Melbourne's flourishing creative scene, the school enjoys a 130-year history of graduating artists, photographers and craftspeople with skilled hands and cultivated minds, ready for life and work. RMIT proudly supports artists-in-residence, galleries, public programs, international conferences, student and staff exchange, study tours and publishing – all with a strong focus on community engagement and social transformation.

Travel opportunities

RMIT runs regular study tours to experience festivals and meet prominent artists in New York, Hong Kong, Paris, Shanghai and Berlin. Students are also given the opportunity to study at our interlocation partner, Hong Kong Art School, where RMIT delivers its fine art course.

For more information visit rmit.edu.au/art

Gold and silversmithing

As a studio specialisation within the Bachelor of Arts (Fine Art), RMIT's gold and silversmithing workshop is extensively equipped with traditional and contemporary metal-working technologies. Students work under the tuition of contemporary artists, jewellers and craftspeople. The workshop allows students to learn metal fabrication techniques such as sawing, filing, cold-joining and soldering.

Lyon Housemuseum

RMIT partners with Lyon Housemuseum Galleries to offer placement opportunities for arts management students. Students explore specialisations such as marketing, collections and curation in a contemporary gallery environment.

The Lyon Housemuseum is an initiative of Corbett and Yueji Lyon and builds on a lineage of private art collections displayed in residential settings.

Video

RMIT's Video Studio incorporates practices in video art, animation, sound composition, projection, performance and digital cultures. Students use a range of contemporary technologies including cameras, lighting, editing and surround audio recording.

Photography lighting studios

RMIT's photography facilities allow students to practise in purpose-built spaces with carefully controlled lighting conditions. With individual bays for self-directed projects, industry-standard lighting equipment, long throw options, high ceilings and a large cyclorama, RMIT provides the perfect environment for you to hone your craft.

- Pharmaceutical sciences

Excellence in research

RMIT's research is ranked by the ARC as well above world standard in:

- clinical sciences
- pharmacology and pharmaceutical sciences

Australian Institute of Medical Scientists

RMIT's Bachelor of Biomedical Science (Laboratory Medicine) is the only Victorian degree accredited by the Australian Institute of Medical Scientists (AIMS)

Only Victorian university

to offer all the following majors:

- haematology
- anatomical pathology
- medical microbiology
- clinical biochemistry
- transfusions and transplantation science

Study abroad

Laboratory medicine provides opportunities for students to travel overseas and undertake 10 to 13 weeks of professional practice in an approved lab

Biomedical sciences help us understand disease, how it occurs and how we can control, cure and prevent it. Biomedical sciences at RMIT will teach you to provide practical solutions to global health issues and gain a better understanding of the ever-increasing role that technology plays in how our bodies function.

All our courses are co-designed with industry to ensure they are relevant and meet the needs of industry, government and the community. They will prepare you to work anywhere in Australia in diagnostic pathology, medical research pharmacy, laboratory medicine, pharmaceutical sciences and biomedical research.

Work-integrated learning

RMIT's biomedical science degrees include 40 weeks of work placements during third and fourth years. Students have been placed at major hospitals, including Royal Children's, Peter MacCallum and Osteon Health, as well as in private laboratories. These placements include microbiology, haematology and biochemistry.

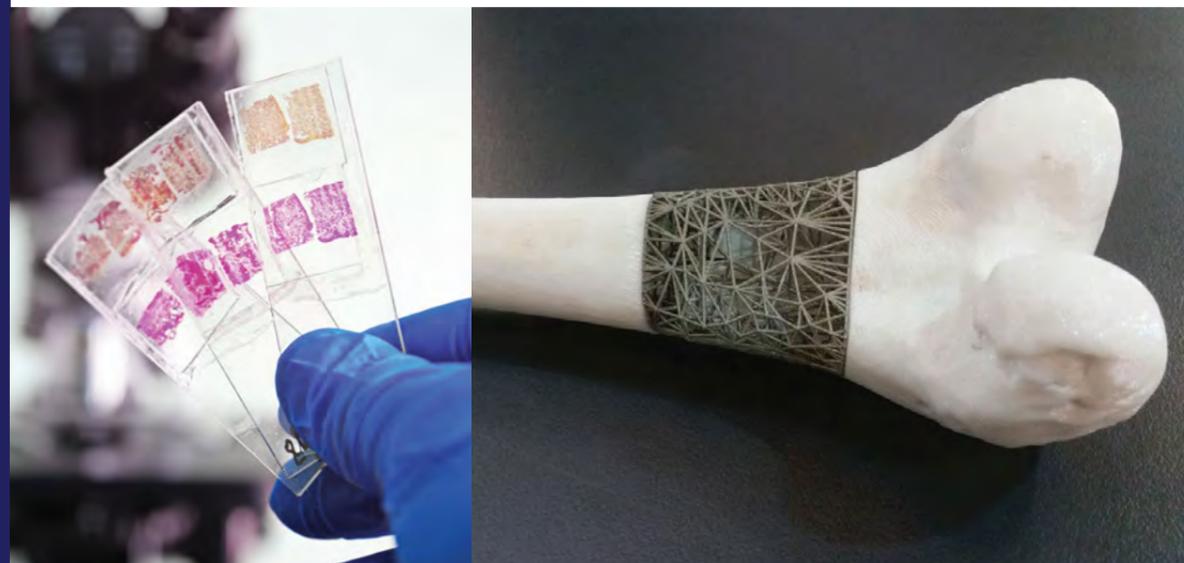

For more information visit

rmit.edu.au/biomedical-sciences

Model pharmacy

Develop your formulation, compounding and patient-service skills in RMIT's state-of-the-art model pharmacy at the Bundoora campus. You'll be taught by practising pharmacists and gain invaluable experience using industry-standard software.

Student placements

Students of the Bachelor of Pharmaceutical Science (Honours) have opportunities to work with organisations such as the Victorian Institute of Forensic Medicine (VIFM), which is responsible for all forensic toxicology in Victoria.

VIFM conducts drug testing on all coronial and police cases referred to the laboratory, and RMIT students in their Honours year can complete a placement within the Toxicology Department. This placement project includes analysing drugs of abuse, conducting specimen liaison and receipt, and presenting case reviews.

BioFab3D@AMCD

RMIT is a key partner in BioFab3D@AMCD, Australia's first robotics and biomedical engineering centre embedded within a hospital. Its vision is to "lead to real-time printing of 3D implants while a patient is in surgery". The collaborative partnership enables RMIT to remain at the forefront of the 3D bioprinting revolution.

Our industry partners include

Biosciences building

The award-winning \$32-million biosciences building at our Bundoora campus is at the centre of RMIT's biomedical science courses. It is designed to give students an experience that meets the needs of today's healthcare industry, with innovative teaching spaces, state-of-the-art laboratories and equipment that replicate clinical environments.

Learn more about
Kristy's time at RMIT

Kristy Meiselbach
Biomedical Science student

I've learnt about many aspects of the human body and understand how research is used to make new discoveries in the improvement of health and wellbeing. Since my second year, I've interned at the Walter and Eliza Hall Institute of Medical Research. This allowed me to work in a real lab and apply the theory I learnt at university to an actual project.

BIOMEDICAL SCIENCES

Bachelor of Biomedical Science

Study topics such as cell biology, biochemistry, molecular biology, physiology and anatomy, pathology and microbiology. This course prepares you for careers in research (at universities, hospitals and biomedical research institutes) and in medical and pharmaceutical research. It also includes a 40-week work placement in third and fourth year so students can apply the knowledge to their chosen field. The course also includes a lab placement in third year, allowing students 40 to 80 hours of practical experience.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 20 in Chemistry; Units 3 and 4 – a study score of at least 20 in one of any Mathematics or Physics.

PATHWAY OPTIONS

- **Assoc. Deg. in Applied Science** (2 years) plus **Bachelor of Biomedical Science** (additional 2 years) = 4 years' total study
- **Cert IV in Laboratory Techniques** (1 year) plus **Dip. of Laboratory Technology** (1 year) plus **Bachelor of Biomedical Science** (additional 2 years) = 4 years' total study

Bachelor of Biomedical Science (Laboratory Medicine)

Apply scientific investigation to diagnose, treat and better understand disease. You'll work as part of a team with doctors, pathologists and other scientists to play a vital role in the healthcare system. A range of specialisations allows you to work in hospitals, diagnostic pathology laboratories, research laboratories, health policy, pharmaceutical science and forensic medicine.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 20 in one of Biology or Chemistry; Units 3 and 4 – a study score of at least 20 in one of any Mathematics or Physics.

Bachelor of Science (Biotechnology) /

Bachelor of Biomedical Science DOUBLE DEGREE

See page 87 for details

PHARMACY & PHARMACEUTICAL SCIENCES

Bachelor of Pharmaceutical Sciences

Pharmaceutical science is the science of developing new medicines. You will learn about the human body and the use of drugs to treat disease.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 20 in Chemistry; Units 3 and 4 – a study score of at least 20 in one of any Mathematics or Physics.

PATHWAY OPTIONS

- **Assoc. Deg. in Applied Science** (2 years) plus **Bachelor of Pharmaceutical Sciences** (additional 2 years) = 4 years' total study
- **Cert IV in Laboratory Techniques** (1 year) plus **Dip. of Laboratory Technology** (1 year) plus **Bachelor of Pharmaceutical Sciences** (additional 2 years) = 4 years' total study

Bachelor of Pharmacy (Honours)

This degree is your first step to becoming a pharmacist. It prepares you for the year-long internship needed to gain Australia-wide registration. Career paths lead into community pharmacy, hospital pharmacy and other more specialised roles.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 25 in Chemistry; Units 3 and 4 – a study score of at least 25 in any Mathematics.

PATHWAY OPTIONS

- **Assoc. Deg. in Applied Science** (2 years) plus **Bachelor of Pharmacy (Honours)** (additional 3.5 years) = 5.5 years' total study.

Associate Degree in Applied Science

See page 86 for details

LABORATORY MEDICINE

Diploma of Laboratory Technology

Build on your scientific knowledge and develop a deeper understanding of scientific principles, gain stronger practical skills and more hands-on laboratory experience. As a laboratory technician, you'll be able to conduct tests for pathologists, biochemists, clinical chemists, pharmacologists, veterinarians, microbiologists and bacteriologists.

PREREQUISITES

Successful completion of the **Cert IV in Laboratory Techniques** or equivalent.

NCC MSL50118

Certificate IV in Laboratory Techniques

Gain the skills you need to become a technician in laboratories, hospitals, research institutes, pharmaceutical companies, private pathology and testing laboratories.

Australian universities ranked as above world standard in building research¹

Industry accreditation

RMIT's courses are accredited by:

- Australian Institute of Building
- Royal Institute of Chartered Surveyors
- Chartered Institute of Building
- Australian Institute of Quantity Surveyors

The development of our built environment is about more than just constructing roads and buildings. Today's growing cities need to be carefully and innovatively planned to create liveable and sustainable spaces that can accommodate diverse and growing communities.

RMIT's building courses connect you with industry mentors to gain the professional skills required to design, shape, finance and manage the urban spaces we live and work in.

Work-integrated learning

RMIT's School of Property, Construction and Project Management partners with 250+ leading organisations through our unique Employer of Choice program. The program provides undergraduate students with opportunities to:

- participate in the Industry Mentorship program
- undertake employment that supports their professional development
- gain invaluable experience under the supervision of industry experts
- grow their professional networks.

For more information visit rmit.edu.au/building

250+

employers of choice

RMIT's property, construction and project management courses maintain relationships with 250+ industry connections through our Employer of Choice program

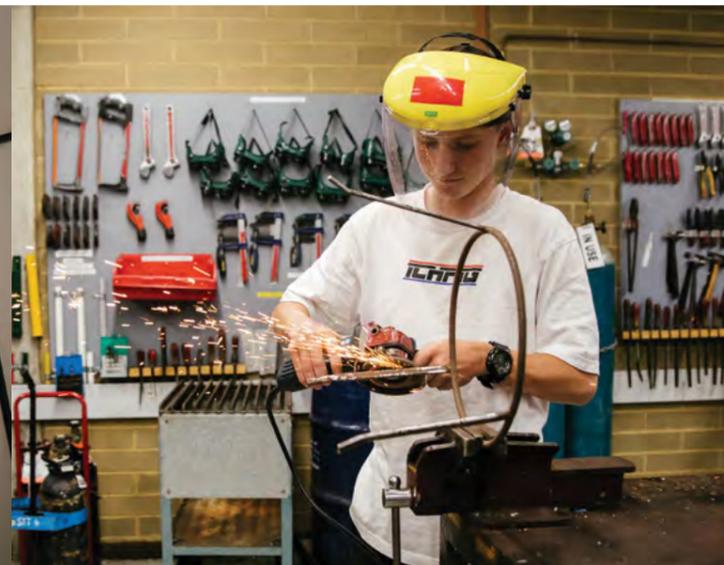

New technologies

RMIT's construction management courses are among the first in the world to embed 4K spherical virtual technology and building information modelling into the curriculum

Sustainable Building Innovation Laboratory (SBI)

The mission of the SBI Lab at RMIT is to accelerate the shift towards sustainable building through research and education. The lab focuses on the development of new materials, building systems, design methods, regulations and policies and the effect these factors have on the sustainability performance of buildings.

Global opportunities in property

Property students have the opportunity to work on real projects with global companies. Recently, students were mentored by Times Corporation in Toronto on the design, value, marketing and feasibility of its new apartment complex at Niagara Falls, allowing them to play a part in this landmark development.

Other opportunities include taking part in international competitions where students compete against others in the areas of investment and development, achieving recognition on the world stage.

Trades facilities

RMIT's trade facilities enable our vocational students to learn the technical skills of their chosen profession in purpose-built spaces. Refrigeration CO² labs, plumbing pits, mock construction sites and instrumentation labs allow our students to experience valuable, hands-on training in a simulated work environment.

Our industry partners include

Learning with VR

The use of virtual and augmented reality software enables building and construction students to enter and experience a completely immersive environment. With the aid of VR, students can virtually access construction sites safely, in class or at their own pace. The use of VR helps undergraduate construction students to gain a better understanding of the spatial qualities of a building, or learn about structural components and assemblies in static models.

¹ Excellence in Research Australia 2018 report by the Australian Research Council

Madeline Blackwood
Building and
Construction student

This course prepares you for working in the industry by teaching new and improving construction methods.

The lecturers helped us to meet industry representatives at the RMIT Industry Links night, so we could build our own networks.

I won the award for Outstanding Female Graduate at the Industry Link event, which was amazing. My advice to future students is that you just have to dive in!

BUILDING AND TRADES	
<p>Diploma of Building and Construction (Building)</p> <p>Examine principles, techniques and regulations of the building and construction industry for all types of medium-rise and wide-span buildings. Completing this course is a minimum requirement for Associate membership to the Australian Institute of Building.</p> <p>NCC CPC50210</p>	<p>C5256</p> <p>City</p> <p>2 years full-time or 5 years part-time</p> <p>VTAC 3200372014</p> <p>ATAR Not applicable</p>

Own your future

RMIT offers electives designed to build your skills for self-employment

Whether you want to lead or be a problem solver, learn new skills or build on existing knowledge, RMIT's business courses can help you make an impact. Our industry-focused courses are designed with your future in mind. RMIT's business management and administration courses provide you with fundamental skills such as accounting, marketing, project management and finance.

Electives in persuasive communication, cross-cultural awareness, operational leadership and strategic decision-making allow you to specialise in your area of interest and set yourself apart from the crowd. Our courses offer opportunities to work on industry projects, in professional practice or in simulated work environments, preparing you for your future career.

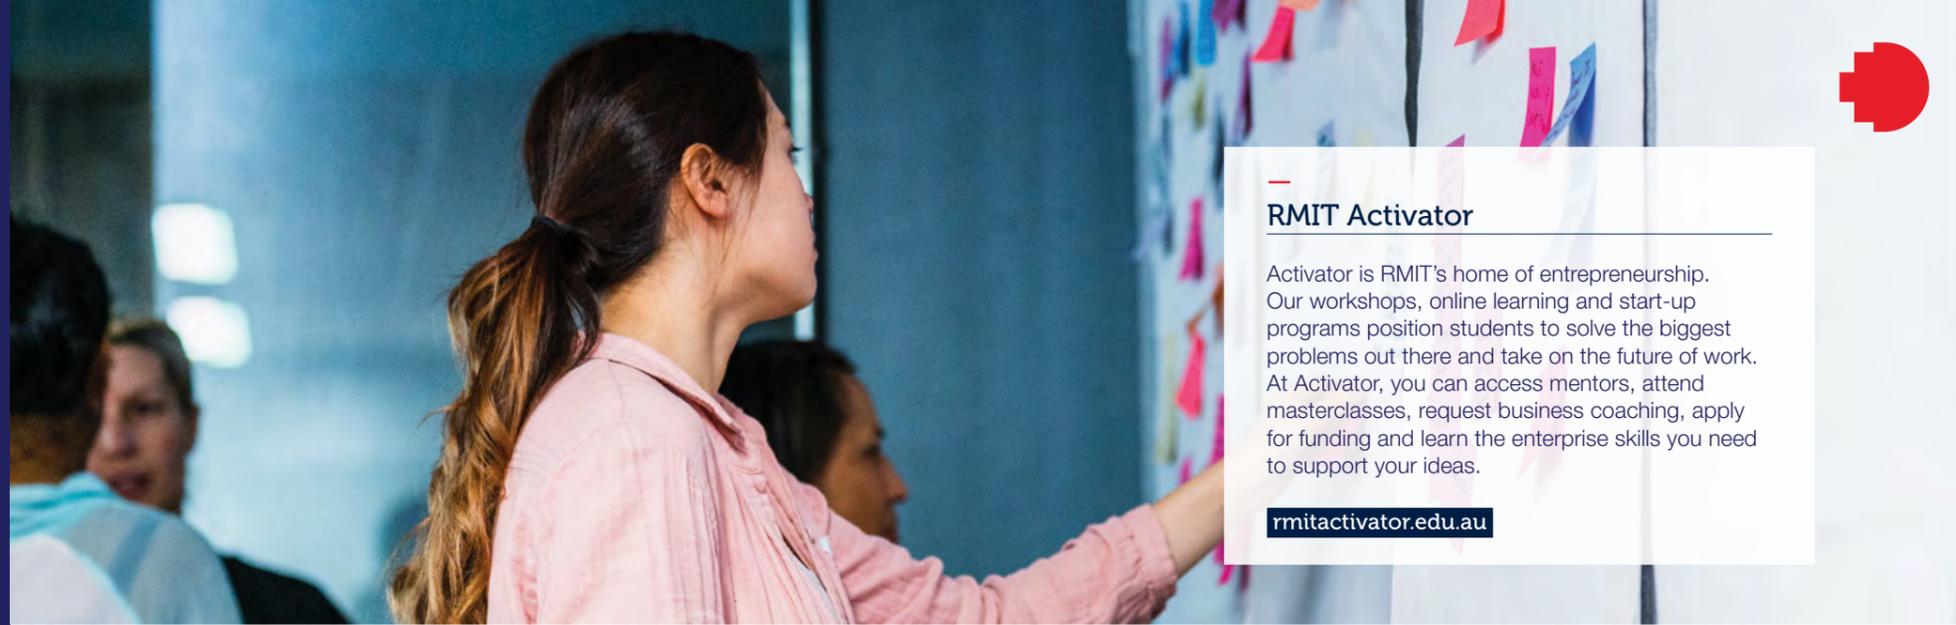

Work-integrated learning

From ASX-listed companies to non-profit organisations, RMIT partners with organisations of every size to provide our students with industry-relevant learning. The Co-op program is a paid, 8-to-12 month, full-time work placement as part of a four-year Bachelor of Business degree.

Co-op provides students with opportunities for mentorship, leadership and management and a dedicated RMIT team member supports each student throughout the Co-op journey.

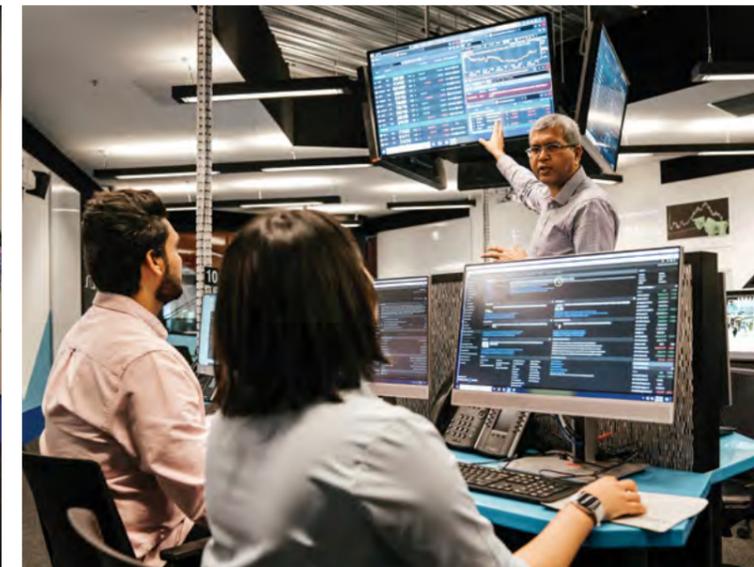

For more information visit
rmit.edu.au/business

RMIT Activator

Activator is RMIT's home of entrepreneurship. Our workshops, online learning and start-up programs position students to solve the biggest problems out there and take on the future of work. At Activator, you can access mentors, attend masterclasses, request business coaching, apply for funding and learn the enterprise skills you need to support your ideas.

rmitactivator.edu.au

Fastrack

Innovation program

Fastrack is a university-wide elective available to students of all disciplines. It partners with leading industry experts from business, design and technology to co-design and deliver solutions to complex challenges.

Fastrack has worked with partners including NAB, ANZ, Deloitte, Kmart, Crime Stoppers and Victorian Legal Aid. Our partners sponsor the innovation challenges that students work on and allocate subject-matter experts to Fastrack teams, who serve as valuable mentors to participating students.

Behavioural Business Lab (BBL)

The BBL is a multidisciplinary team that applies psychological insights to study people's decision-making in business contexts. Members of the BBL have expertise in psychology, economics and marketing and employ qualitative and quantitative techniques to generate a deep understanding of the process of decision-making. The team designs strategic interventions using creative problem-solving tools such as design thinking.

Our industry

partners include

Deloitte.

Mirlinda Aliu
Economics and Finance student

I love the City campus, how it's in the middle of everything and I've definitely loved working with my tutors.

One especially really helped me with one of my subjects. She sat me down and spoke to me as if we were friends and that she wasn't my superior. It shows tutors aren't just your teachers, they are real people too and they want you to succeed.

We have group projects and in the Co-op year we have internships that I feel are creative because we're learning differently, in a different world than just the classroom.

Learn more about Mirlinda's time at RMIT

ACCOUNTING

Bachelor of Business (Financial Planning) / Bachelor of Business (Accountancy) DOUBLE DEGREE

This double degree is the only one in Victoria that combines financial planning and accounting to develop your knowledge and capabilities in providing business, finance and wealth advice to individuals and organisations.

Excellence in research

RMIT's research in communication and media studies is rated as well above world standard, one of only two Australian universities to achieve this rating⁴

At RMIT, you'll develop the communication and writing skills you need to succeed in a rapidly evolving media and publications landscape. Our courses are designed to enhance your communication and creative skills, provide media and communication training and allow you to move fluently between the classroom, studio and workplace.

We bring industry into the classroom and regularly partner with international and local communication organisations and media festivals so you can network with working professionals and get a head start on the competition.

Work-integrated learning

RMIT's communication and writing courses foster rewarding relationships with industry, including cultural and community partners. Students work with industry during placements on collaborative projects and in workforce development and research. Our students have worked with organisations including:

- Ogilvy
- ACMI
- Film Victoria
- SBS Radio
- The Jakarta Post
- La Mama
- SingLit Station Singapore
- Emerging Writers Festival

rmit.edu.au/communication

Advertising Pitch Night

Pitch Night is an annual networking event for RMIT's advertising students and industry professionals. The event is planned, developed and run by final-year students to promote their cohort to industry in a fast-paced, speed-dating setting. Students are given the opportunity to pitch and present their ideas to high-profile agencies and many are offered graduate jobs as a result.

Students contribute to Senate inquiry

Last year, *The Conversation* (a world-leading publisher of news and analysis) took part in an RMIT Professional Communications class as an industry client.

Students pitched the client ideas on how to grow its audience, particularly among younger readers. Their research involved surveying more than 200 young people and data from external studies.

In November 2020, the Australian Senate established an inquiry into the state of media diversity and independence in Australia, calling for public submissions. *The Conversation* made a submission to the inquiry, referencing the research conducted by RMIT students that highlighted the importance of public interest journalism in Australia.

RMIT Media Precinct

RMIT's Media Precinct offers students access to state-of-the-art facilities that support current and future trends in media production. It includes five TV studios and control rooms and supporting spaces such as green rooms, makeup rooms and production offices. Used for live broadcast, recordings and audio mixing, the studios include virtual and augmented reality set technologies, where broadcast and gaming technologies converge.

Our industry partners include

THE CONVERSATION

Hardie Grant PUBLISHING

CLEMENGER BBDO

Melbourne Writers Festival

Bowen Street Press (BSP)

BSP is an independent, student-led publishing house at RMIT. It produces a range of fiction and non-fiction projects, from flash-fiction zines to literary anthologies, magazines and everything in-between. With an emphasis on high-quality editorial work, design and production, BSP takes every project from the initial idea through to the finished product. BSP works in collaboration with emerging student writers, industry professionals and not-for-profit organisations.

Learn more
about Keira's
time at RMIT

Keira Hastings

Communication (Advertising) student

I thought [advertising] would be an awesome way to express my creativity, as well as influence and participate in the world around me. I got a lot of advice from family, friends and the career advisor at school that RMIT was the best uni to attend for a creative and business degree, so it was at the top of my preferences.

We had a really influential teacher in our final semester who was a rock for us in those stressful last weeks. We were considering what we would do after graduation and she gave us great advice from her industry perspective.

Bachelor of Communication (Professional Communication)

This career-oriented degree is one of the world's premier professional communication qualifications. It produces multiskilled communicators with cross-platform skills in digital, broadcast and print media. The degree will develop your skills and knowledge in the key professional areas of journalism, advertising, media and public relations.

PREREQUISITES

At RMIT, our vision is to reimagine the future and design a more resilient world. Our students are immersed in hands-on studio learning to invent, visualise and prototype design solutions. Our impressive academic team, close industry connections and cutting-edge facilities allow us to provide leadership in new and emerging fields of design.

Through your studies, you'll expand your design skills and gain valuable experience by working on client projects, learning from industry mentors and design experts. At RMIT you will investigate contemporary, cultural and environmental aspects of design and technology and graduate as a highly trained designer and visual problem solver.

Work-integrated learning

At RMIT you'll expand your design skills and gain valuable experience by working on client projects and learning from industry mentors and design experts. Internships are offered in many of our courses and past students have either interned or worked on client projects with:

- ANZ
- Penguin Books
- Mecca Cosmetics
- Australian Red Cross
- Noise Art Records
- Australian National Academy of Music

RMIT Design Archives

The RMIT Design Archives actively collect material relating to Melbourne design from the 20th century onwards. The collections represent historical and contemporary practices that tell the story of Melbourne as a design city and provide the resources and support for research into Melbourne's designed environment.

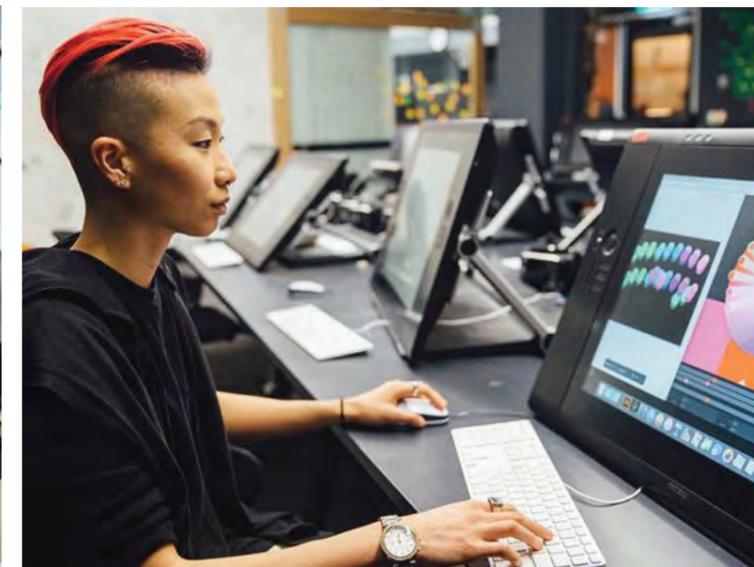

Industry projects

Since 2014, RMIT's animation students have created animated music video releases for Nuclear Blast, the world's largest independent heavy metal music label. They have also been involved in creating large-scale projections selected for the official White Night exhibition for two consecutive years.

Industrial and product design workshops

Complete with CNC machining, modern manufacturing equipment, 3D printers and traditional hand and power tools, our workshops allow students to learn critical skills, prototype new ideas, produce scalable models, create and manufacture products or furniture and explore their creativity.

Animation Lab

RMIT's newly built animation labs are custom designed for teaching our students best practice animation skills. Desk spaces accommodate Wacom Cintiq for on-screen drawing and the labs are equipped with state-of-the-art 2D and 3D animation software.

Rubinden Kumar

Communication Design graduate

During my studies, most of the projects I'd work on in class were in collaboration with industry partners. I was given opportunities to work with ACMI, EY and Australia Post.

It was a great experience for me, as we were able to tackle challenges for them and communicate the solution through design. Getting to showcase my work to industry and present my process and getting their feedback really helped build my critical design thinking.

Star graduates

Graduates of our health and physical education course include two AFLW captains, an Olympic silver medallist and a Commonwealth Games marathon runner

#1

RMIT has the highest graduate satisfaction rate in Victoria²

RMIT is ranked in the top 100 universities in the world for education studies³, utilising both new and established teaching methods and classroom technologies. When you study education at RMIT, you're joining a university with an established reputation for providing educational and vocational leadership in the field of knowledge creation.

Aside from traditional educational settings, our education graduates have the skills, knowledge and experience to work in private enterprise, government agencies and community service organisations. As a teacher, no matter what discipline you choose, you're in a position to shape minds and foster a lifelong love of learning.

Work-integrated learning

Teacher education courses at RMIT are designed to provide a minimum 100 days of supervised professional experience, so our students graduate with confidence. We encourage students to experience education in a range of settings and offer opportunities for placements in different cultures and countries. As part of the curriculum, students complete a placement in a disability setting, allowing them to develop strategies for managing challenging behaviours. Placements in third year may be taken overseas and placements in fourth year are selected by students and may include rural or interstate settings.

For more information visit
rmit.edu.au/education

100+ days of work-based learning

RMIT's undergraduate teaching courses incorporate a minimum 80-100 days of supervised professional experience, ensuring you graduate classroom-ready. We offer opportunities for placements in different cultures and countries in third year, as well as placements in disability settings that will help you develop strategies for managing challenging behaviours in the classroom. Placements in fourth year are selected by students and may include rural or interstate settings.

Yirrkala

Homeland School

In 2019, six of RMIT's Bachelor of Education students undertook a three-week placement at the Yirrkala Homeland School in the Northern Territory.

Students experienced life in remote communities in Arnhem Land, teaching children and learning about Indigenous culture from Yolngu people.

Health, physical education and sport

Learn from experienced teachers and academics in both the classroom and in RMIT's exceptional sports facilities — the Bundoora Netball and Sports Centre, tennis courts and our cutting edge FIFA-approved synthetic playing fields.

The Urban School

The RMIT Urban School offers a personalised pathway from secondary school to tertiary study. Try a range of units and subjects — take your time to figure out what you really want to do. With our Urban School, you have the opportunity to blend VCE subjects, Vocational Education subjects, Higher Education subjects and micro-credentials in an adult learning environment. You'll get personalised career guidance and may receive a guaranteed pathway into some of our courses.

- VET in VCE or VCAL secondary school teacher
- Vocational education teacher

Hanin Wehbe

Education (Primary) student

I came into the Bachelor of Education (Primary) fresh out of high school and had, until that point, lived only through the eyes of a student.

During school, I noticed a correlation between the relationship I had with a teacher and my grades. I learnt firsthand the lasting effects of a teacher's influence. It was this experience as a student that motivated me to dedicate my life to empowering young learners through education.

Pathways

A range of RMIT advanced diplomas and associate degrees provide pathways into engineering bachelor degrees

Flexible first year

Explore different engineering fields through elective options in first year, preparing you to choose a specialisation in second year

Globally recognised

As a signatory to the International Engineering Alliance, RMIT's degrees are recognised by the Washington Accord

RMIT's engineering courses are co-designed with industry to give you practical experience and training. From the very beginning of your studies, you'll build the professional and technical skills you need to put your innovation and creativity into practice.

There are many career paths for an engineer and with RMIT you'll develop internationally recognised skills in the areas that interest you most – designing and creating products, systems, structures and services that transform the world and improve lives.

Not sure what kind of engineer you want to be?

Are you more interested in how a smartphone works or what makes an aircraft fly? Do you prefer bridges or engines? Who has more fun – a civil engineer or an aerospace engineer? RMIT has developed a game to help you find the right course for you. Play it now at

trueengineer.rmit.edu.au

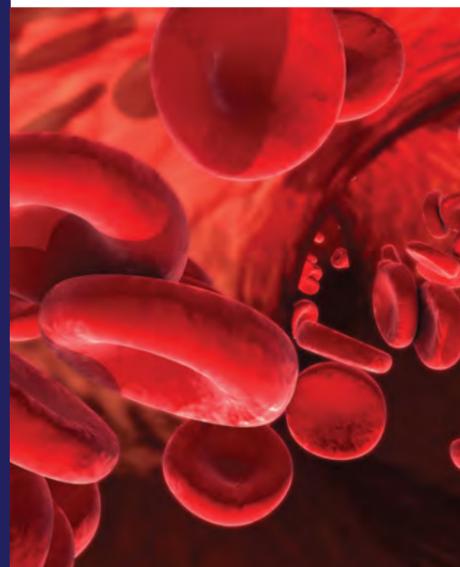

For more information visit

rmit.edu.au/engineering

Advanced Manufacturing Precinct (AMP)

Housing some of the most advanced manufacturing technologies available, the AMP brings together design and engineering, from digital design to digital manufacturing. The precinct offers high-speed multi-axis machining centres, 3D printing of advanced products and components, selective laser melting and many other cutting-edge technologies.

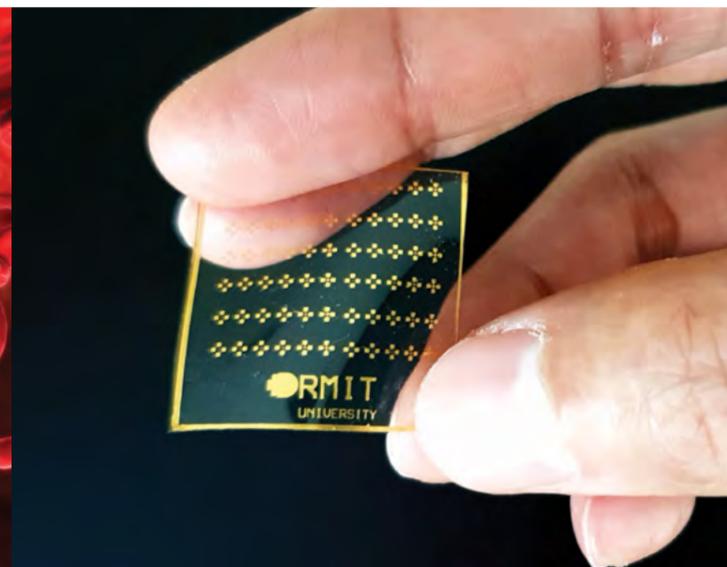

Students create blood clot detection device

A device that could help save the lives of patients who develop potentially deadly blood clots while on life support has been co-developed by RMIT engineering students.

The handheld automatic device uses light rays to scan the tubes attached to ECMO machines – which act as vital organs for people needing critical care – and detect if a clot has formed.

The project was a collaboration between RMIT, the Royal Children's Hospital (RCH) and Jayson Papadopoulos, a final year electrical engineering student at RMIT, who was the project lead. Mr Papadopoulos began designing the device during Melbourne's strict COVID-19 lockdown as part of his final year project.

Microelectronics fabrication

RMIT's Micro Nano Research Facility (MNRF) houses comprehensive resources for the design, modelling, fabrication and packaging of micro and nano-scale devices. The facility supports a broad range of research outcomes, and recent developments include gas sensing capsules that can send data from inside the gut direct to a mobile phone, as well as electronic artificial skin that reacts to pain like human skin, opening the way to better prosthetics and non-invasive alternatives to skin grafts.

Heavy Structures Lab

The Heavy Structures Lab at our Bundoora campus is equipped with extensive civil engineering facilities. The lab features: compression and tensile testing machines; controlled humidity chambers where structures and materials can be subjected to sustained loads over a long period of time; and a corrosion chamber for testing material degradation in harsh environments. It also houses structural testing frames that can accommodate beams up to six metres in length.

Our industry partners include

¹ QS World University Rankings by Subject 2020

Benjamin Stylianou
Mechanical
Engineering student

I love the idea of innovation. I like the idea of building something and making something custom, something that's mine, and having a bit of an impact.

Making life a little bit easier for people.

ENGINEERING WITH OPTIONS	
<p>Bachelor of Engineering (Honours)</p> <p>Know you want to be an engineer but not sure what specialised degree you're interested in? Spend your first year of study experiencing the breath of engineering options available at RMIT University before entering your specialised course in second year with a strong technical foundation.</p> <p>PREREQUISITES</p> <p>VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL and a study score of at least 20 in any Mathematics.</p>	<p>BH126</p> <p>City</p> <p>4 years</p> <p>VTAC 3200310711</p> <p>ATAR (2021: 78.05)</p>

- Environmental engineer – contaminated land
- Environmental engineer – land and groundwater
- Environmental engineer – mine closure
- Environmental engineer – renewable energy
- Environmental hydrogeologist
- Environmental scientist
- Waste management engineer

Eve Smolinska
Civil and Infrastructure
Engineering graduate

As engineers we're creating something that is being used by every person, every day. You can see the value of it, you can see how important safety in design is and how many design concentrations there are.

It's very interesting and very broad. In my current role I learn a lot, but I've actually done some of the material previously at RMIT. For example, in the steel structure course, I was able to learn how to calculate the section and member capacity of a beam and that's actually something I've worked on at Robert Bird Group.

Top 11

RMIT's Bachelor of Fashion (Design) (Honours) is ranked in the top 11 undergraduate fashion design courses in the world¹

UN Sustainable Development Goals

All undergraduate fashion courses at RMIT are underpinned by the UN Sustainable Development Goals

Exchange partnerships

with Parsons The New School of Design, NYC, Amsterdam Fashion Institute and London College of Fashion

Intensive workshops

in Paris and the US focus on the development of technical skills such as pattern making and embroidery

RMIT is a global leader in fashion and textiles education. Our courses are internationally recognised, with graduates making an impact across the world. We offer certificates, diplomas, associate and bachelor degrees in our state-of-the-art facilities at RMIT's Melbourne campuses.

Our students gain real-world experience working with local and global companies on projects that bring together design, technology and enterprise. Exploring contemporary approaches to materials, the body, environments and economies, we prepare our students to contribute to the rapidly transforming global fashion and textiles sector.

Brunswick Design District

RMIT, Moreland City Council and Creative Victoria have led the establishment of the Brunswick Design District. As a long-standing hub for creativity in Melbourne, Brunswick has a thriving designer/maker community. The establishment of this precinct aims to leverage and support the local design community, as well as encourage creative start-ups and other enterprise businesses to set up in the area. RMIT's School of Fashion and Textiles is situated in the heart of Brunswick and maintains strong relationships with studios and makers in the area, including:

- Otto and Spike
- DenimSmith
- Lois Hazel
- Kuwari
- Siteworks
- Space Tank

For more information visit
rmit.edu.au/fashion

Sustainable practices

Fashion students learn about ethical and sustainable practices through a variety of hands-on projects. From exploring natural dyes and textile waste in RMIT's garden studio to rapid prototyping of smart textiles and wearables in the makers' space, sustainability is embedded in all learning experiences.

Textile design and Politix

Last year, students of RMIT's Bachelor of Textiles (Design) were tasked with producing a range of original textile prints for an iconic Australian brand, Politix.

Working with the brand's themes of the season, students created mood boards reflecting their chosen direction, developed hand-illustrated designs or digital imagery and documented their development work in a process book. They then took their designs into CATD to produce and develop textile repeats and different colourways.

Design by Isabelle Rees

Custom footwear

RMIT offers the only dedicated footwear course in Australia, where students develop the technical and practical skills to design and produce custom-made shoes. Students develop skills in freehand sketching, computer-aided design and technical drawing and learn how to prepare, cut and sew the necessary components to create uniquely original footwear.

Our industry partners include

MELBOURNE FASHION FESTIVAL

POLITIX

COUNTRY ROAD

OUTLAND DENIM

Fashion and textile workshop spaces

RMIT's workshop spaces immerse students in hands-on design processes using traditional and hi-tech materials and equipment. Students learn digital and artisanal techniques such as printing, dyeing, knitting, weaving, pattern-making and all aspects of garment design and fabrication. Throughout their studies, students present their work to industry in purpose-built exhibition and display spaces, gaining vital feedback from professional designers.

¹ 2019, the Business of Fashion review of the Best Fashion Schools - RMIT's Bachelor of Fashion (Design) (Honours) course was ranked in the top 11 of the undergraduate 'Fashion Design' category, receiving all four badges of merit: Best Overall, Best in Global Influence, Best in Learning Experience and Best in Long Term Value.

FASHION AND TEXTILES

Bachelor of Fashion (Design)

Highly regarded by the international fashion community, this course challenges the boundaries of fashion. It embraces the latest design directions and explores potential future practices of fashion design. This degree allows you the creative freedom to develop original ideas through to final designs and challenges you through exploration and reflection to develop the skills and knowledge to formulate your voice as a designer. Collections are showcased at premier Australian and international fashion festivals.

about Julia's
time at RMIT

Julia English

Fashion Design (Honours) student

With my fashion experience I think I would like to challenge the way we view sustainability. I'm really passionate that the way we wear clothes should inform what sustainable design solutions we have.

Particularly looking at big brands that I think have a lot of power to have a huge impact on the industry. I think we need to get where we are going faster and be more sustainable sooner.

3000+

RMIT has successfully trained more than 3000 pilots since 1994

Qantas and RMIT

have partnered to offer an exciting career path to aspiring pilots through the Qantas Future Pilot program

RMIT conducts flight training at Bendigo and Point Cook airfields. Point Cook is the oldest operating airfield in the world and the birthplace of the Royal Australian Air Force

Learn to fly in single and multi-engine aircraft

RMIT Flight Training has successfully trained more than 3000 pilots since 1994. Our renowned flight training course is designed to help you meet the commercial pilot licensing requirements of Australia's Civil Aviation Safety Authority, the pathway to gaining a commercial pilot licence.

Throughout your studies, you'll develop the necessary knowledge and skills to apply for a recreational pilot licence (RPL), a private pilot licence (PPL) and required knowledge for an air transport pilot licence (ATPL).

Qantas Future Pilot Program

This partnership program offers an exciting career path to aspiring pilots, providing selected students with access to experienced pilots during their degree with an intensive 12-week airline transition course and employment with QantasLink as first officers flying the airline's Dash 8 200/300 or Q400 fleet.

For more information visit
rmit.edu.au/learn-to-fly

State of the art learning facilities

Both RMIT flight training sites include state-of-the-art FM210 flight simulators, which serve as training tools for student pilots. The equipment enables students to practise in all phases of flight, in different weather conditions and at any time of day, before taking to the skies.

Kerry Phillips

Aviation (Professional Pilots) graduate

Everyone says their first solo flight is the really memorable one. My favourite flight was my second solo, when I got to do a few laps. I had the realisation that 'wow I can actually fly a plane' and it's something I'm doing and I'm doing it well. It's not something I've fluked.

Industry leader

RMIT is the only tertiary provider of Chinese medicine education in Victoria

Demand for innovative health professionals is high as our medical system moves from "sick care" to "health care". As a result, there's a focus on wellbeing, prevention, early detection and treatment. Health science at RMIT boasts strong industry links and purpose-built facilities, producing health practitioners with skills that are valued all around the world.

Our diverse range of health, medical and wellbeing courses teach you practical solutions to global health issues. Courses are developed in consultation with practising professionals and many offer industry placements, student clinics and work experience in Australia and overseas. Whether you're studying in our anatomy labs, nursing wards, nuclear medicine workstations, or on sports fields, our equipment, facilities and teaching staff are purposefully chosen and designed to help you get the real-world skills employers are looking for.

RMIT Health Clinic

RMIT's Health Clinic in Bundoora provides clinical training for students. It prepares them for independent practice when they graduate and meets registration requirements. The clinic is open to the public and offers Chinese medicine, chiropractic, osteopathy and psychology services. It provides clinical diagnosis, health advice and treatment for a range of conditions.

rmit.edu.au/healthclinic

For more information visit

rmit.edu.au/health-science

Supporting WHO

RMIT's expertise in Chinese medicine supports a World Health Organization program to integrate traditional medical practice into public healthcare around the globe

Cutting-edge facilities

Practise on cutting-edge equipment that is widely used in clinical centres around Australia

Nursing simulation labs

RMIT's nursing labs teach students how to safely put theoretical nursing concepts into practice. The simulated health environment mimics a clinical setting and provides students with the chance to practise a variety of patient care scenarios by role-playing with classmates and working with high-fidelity manikins. Students may administer injections, measure vital signs, care for wounds and more.

Treating elite athletes

Myotherapy students at RMIT are given opportunities to work alongside elite athletes and performers during volunteer placements.

The National Institute of Circus Arts (NICA) allows students to attend placements in block times, where they work alongside the institute's highly skilled physiotherapy and myotherapy teams. Students are able to observe, treat performers and be mentored by the other therapists at NICA.

Radiation treatment room

Study in facilities with the latest medical radiations and IT equipment. This includes a Virtual Environment of Radiation Treatment Room (VERT). Through captivating 3D views and life-size visualisations, VERT offers radiation therapy students a unique platform through which to learn.

Chinese medicine clinic

Chinese medicine students use acupuncture, herbal medicine, manual and dietary therapy to treat a range of health problems. As part of their clinical training, students develop diagnosis, treatment and herbal dispensing skills by undertaking supervised clinical observation and practice at the RMIT Health Sciences Clinic.

Runu's time at RMIT

Runu Hann
Pharmacy (Honours) student

I came to [RMIT's] Open Day, saw the Bundoora campus and it was beautiful. The staff were so helpful. Everyone was lovely. It had really good vibes.

One of my highlights at RMIT was receiving the Pharmacy Guild of Australia's Rural Pharmacy Scholarship Scheme. That helped me get financially set up and get me ready for study.

Top 150

Global universities in computer science and information systems¹

Excellence in research

RMIT's research in artificial intelligence and image processing is rated as above world standard by the ARC

Flexible majors

RMIT's Bachelor of IT offers a range of specialisations, allowing you to tailor your learning to meet your aspirations

Pathways into bachelor degrees

The Associate Degree in IT provides pathways into several of RMIT's bachelor degrees in ICT

Information and communication technology (ICT) is a multi-billion-dollar industry that underpins almost everything we do in today's digital age. Computer scientists and IT specialists are vital to every industry and help to manage data, provide network support and maintain security.

RMIT's IT courses let you design systems and solutions that use technology to meet the needs of the user. Combining theory and project experience, an ICT qualification from RMIT allows you to explore or specialise in the rapidly growing areas of app development, cloud, mobile, social media, web systems or multimedia. Our courses give you the skills to develop IT infrastructures and support the people who use them, from network and data administration, programming and client support, to specialised skills to help lead innovation in IT.

Work-integrated learning

RMIT's information technology courses are designed to provide you with practical experience that prepares you for a career in industry. From year-long internships to projects that simulate an industry environment, RMIT is committed to providing you with opportunities to build on your knowledge and apply your learning in a professional context.

For more information visit
rmit.edu.au/it

Virtual Experiences Lab (VX Lab)

The VX Lab is a multidisciplinary space for students and industry partners to access advanced technology in visualisation and automation. Users explore design, operation and testing of cyber-physical systems.

Robocup 2020

RMIT proudly competed in Robocup 2020, the largest robotics and artificial intelligence competition in the world. The squad, which competed against teams from 45 different countries, featured AI researchers and two enthusiastic RMIT students from computer science and software engineering.

The headline event was humanoid football using fully autonomous Nao robots that can act and think for themselves.

The event is a great platform for students to learn about the challenges of autonomous robotics, as the problems they have to solve in this competition are similar to those we face in solving large-scale robot applications such as autonomous cars.

Artificial Intelligence Lab (AI Lab)

The AI Lab develops ideas and solutions to improve our quality of life through artificial intelligence. Specialists use models and algorithms to refine the user experience in games, interactive storytelling and machine learning and work with the latest technology to manage vast amounts of data.

Our industry partners include

¹QS World University Rankings by Subject 2020

Esports at RMIT

RMIT has two dedicated spaces for esports and gaming and frequently hosts professional teams and live-streamers on campus. RMIT's esports team participates in large-scale competitions, including those at Australia's largest gaming convention, PAX Australia. Esports is also included in the RMIT Elite and Emerging Athlete program, supporting students to balance the high demands of elite sport and university life each year.

COMPUTER ENGINEERING

COMPUTER SCIENCE

Bachelor of Computer Science

Gain the practical and theoretical knowledge and skills to build innovative software applications, such as those for mobile devices, social media, intelligent robots and more. You will graduate with excellent programming skills and the ability to design, implement and maintain complex software systems.

Majors available: Application Programming; Artificial Intelligence; Big Data; Cloud Computing; Games, Graphics and Digital Media; Mobile Computing; Security; and Web Systems.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 25 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics.

Bachelor of Engineering (Computer and Network Engineering) (Honours) / Bachelor of Computer Science

See page 56 for details

INFORMATION SYSTEMS

See pages 35 for details

INFORMATION TECHNOLOGY

Bachelor of Information Technology

Learn to develop, support and troubleshoot IT systems while gaining skills in business applications, multimedia, social media and systems administration. This course prepares you for careers in commercial organisations, software development companies and diverse industries.

Majors available: Application Programming; Business Applications; Cloud Computing; Mobile Computing; Multimedia Design; Social Media; System Administration; and Web Systems.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 20 in any Mathematics.

GUARANTEED PATHWAYS

- **Assoc Deg in Information Technology** (2 years) plus **Bachelor of Information Technology** (additional 1 year) = 3 years' total study

Associate Degree in Information Technology

By studying practical, industry-current subjects, you will develop the knowledge and technical skills essential for work in the IT industry. This course provides a pathway into relevant degrees to further strengthen your analytical and practical skills.

PREREQUISITES

VCE Units 3 and 4 – a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in any Mathematics.

PATHWAY OPTIONS

- **Cert IV of Information Technology Networking** (1 year) plus **Assoc Deg in Information Technology** (additional 2 years) = 3 years' total study
- **Dip of Information Technology Networking** (1 year) plus **Assoc Deg in Information Technology** (additional 1.5 years) = 2.5 years' total study

Law

Study areas

- Criminology and psychology
- Legal administration and policy
- Justice

30+

RMIT has more than 30 years of experience in justice training and education

50-day work placement

Undertake a 50-day work placement in a criminal justice organisation

Law Students' Society

The RMIT Law Students' Society runs social, education and careers events year-round

Diverse electives

- Forensic studies
- Drug-related crime
- International policing
- Youth justice
- Terrorism

From resolving disputes to reforming criminal justice policies and developing early intervention programs, at RMIT you can help your community while making your mark in the field of law. You'll explore all perspectives of the legal system, including policy, business, politics, sociology and criminology in contemporary Australian and international society. You'll learn how policies are formed and get the technical skills you need to administer justice.

Our courses are known for incorporating real-world experiences. Justice and legal professions allow you to practise, enforce and reform the law across courts, legal firms, businesses, policing and security agencies.

Work-integrated learning

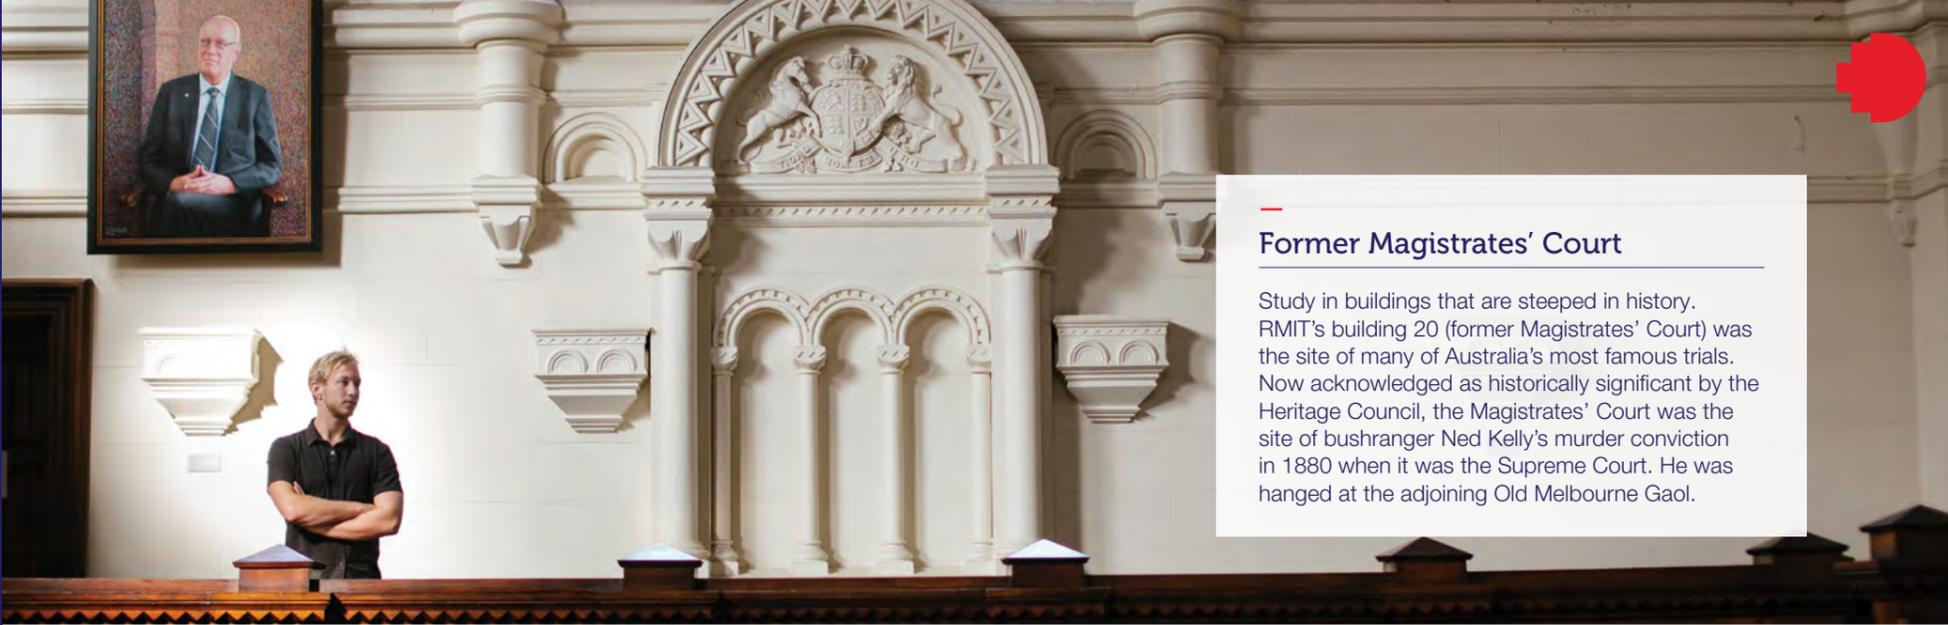

Employers seek graduates who are adaptable and ready for work. Many of RMIT's legal courses offer an internship elective, which gives students the opportunity to apply their skills in a relevant justice organisation.

Past students have completed placements or internships with:

- Victoria Police
- youth justice services
- welfare and victim support services
- Magistrates', Children's and Supreme courts

For more information visit rmit.edu.au/law

Former Magistrates' Court

Study in buildings that are steeped in history. RMIT's building 20 (former Magistrates' Court) was the site of many of Australia's most famous trials. Now acknowledged as historically significant by the Heritage Council, the Magistrates' Court was the site of bushranger Ned Kelly's murder conviction in 1880 when it was the Supreme Court. He was hanged at the adjoining Old Melbourne Gaol.

Innovative learning

As part of the course Enterprise Law: Designing Legal Solutions, students studying the Bachelor of Laws are involved in an industry project that sees them consulting with tech start-ups through RMIT Activator.

Students are tasked with proposing innovative legal solutions to the start-ups, with a panel of industry experts involved who will give feedback on their proposals.

The first part of the course teaches students about intellectual property law. The second engages in a simulation where students work on legal issues for a fashion technology start-up, using 'design thinking in law' to solve legal challenges.

Centre for Innovative Justice (CIJ)

RMIT's CIJ researches and advocates for innovative ways to improve the justice system, with a particular focus on therapeutic jurisprudence, restorative justice and dispute resolution. The centre provides students with placements and courses that expose them to new ways of thinking about our country's legal system. The CIJ conducts projects aimed at improving the justice system's response to mental health and disability, as well as projects designed to improve the experiences of Children's Court users.

Our industry partners include

JUSTICE

Bachelor of Criminal Justice

Whether it's at the front line of Australia's border protection or working with the Australian Federal Police, criminal justice opens up all kinds of local and international career options. Graduates have also gained work in corrections, courts, customs and other government agencies.

about Law at RMIT

Angelique Maloney Ray
Criminal Justice student

I picked RMIT because I went to Open Day and into the legal studies room. I spoke to one of the lecturers and went over what I did in high school, what I liked and what I hadn't liked and he said maybe this degree (Bachelor of Criminal Justice) would be a good match.

It offered a lot more of the practical aspects like internships and going overseas with a lot more support than my current university was offering.

#4 in Australia for communication and media studies¹

#44 in the world for communication and media studies¹

Exchange partnership

with renowned University of the Arts London (London College of Communication)

Excellence in research

RMIT's research in communication and media studies is rated as well above world standard, just one of two Australian universities to achieve this rating²

Live music capital

Study in Melbourne, which has more live music venues per capita than any other city in the world³

Study the news, make films, create innovative sounds and produce cutting-edge digital content. Studying media at RMIT opens up a whole world of creation. At RMIT you will learn from industry practitioners with years of experience and researchers working at the cutting edge. You will also benefit from our state-of-the-art media suite and work with professional-grade technology and materials.

You'll blend theory with hands-on tutorials, connect with industry contacts, learn to tell stories, build strategies and execute creative projects. RMIT allows you to choose your specialisation in journalism, music, screen media and more. Join a vibrant and intellectual community at an institution that's globally recognised for its outstanding graduates.

Work-integrated learning

Students are encouraged to take advantage of the opportunities offered by RMITV, our student-run television station broadcasting on Channel 31. Students may also work with independent radio broadcasters 3RRR FM and SYN FM. Many of our students work on industry-linked projects or placements. Organisations that have hosted students in the past include:

- Networks 10, 9 and 7
- ABC
- SBS
- WTFM
- The Australian Open
- Ghost Films

For more information visit
rmit.edu.au/media

Capitol Theatre

Designed by celebrated architects Marion Griffin and Walter Burley Griffin, The Capitol is one of the most important cinemas in Australian history. The venue, constructed in 1924, has been reimaged by RMIT and Six Degrees Architects as a contemporary hub for education and culture. The Capitol hosts screenings, talks and workshops and gives our media students the opportunity to participate in live productions and screenings.

CityLoop

Music Festival

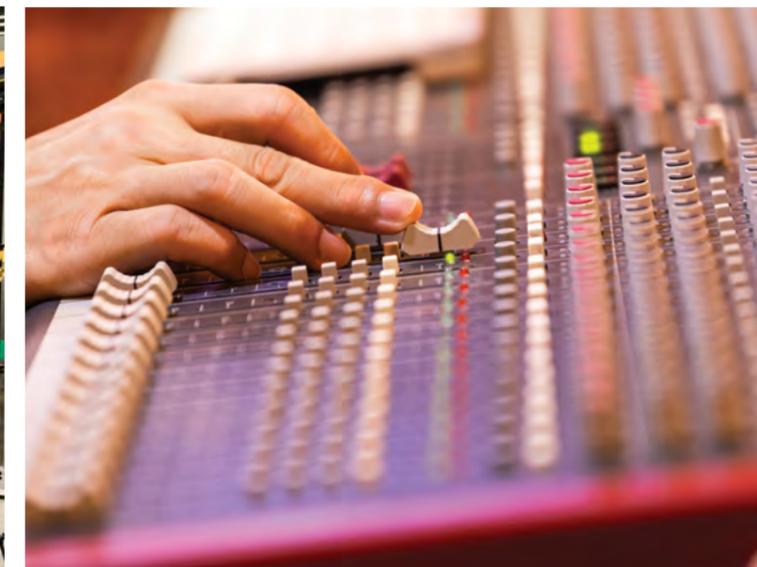

RMIT has partnered with Mushroom Group to deliver CityLoop, a large-scale music festival that takes place at RMIT's City campus.

Students of the Bachelor of Arts (Music Industry) help to organise and run the event as part of their studio class. Working on curation, marketing and artist liaison allows them to gain valuable skills that prepare them for dynamic careers in the music industry.

ABC Fact Check

RMIT has partnered with ABC News to create the award-winning news service Fact Check. Based in RMIT's Media Precinct, journalism students and industry professionals work together to examine the claims made by public figures and groups in public debate, providing an essential service in the effort to maintain factual journalism in today's changing media landscape.

Our industry partners include

Sound production

Learn to amplify, enhance, record, mix or reproduce sound with RMIT's renowned sound production courses. We provide students with studio, lab and live venue-based training to help them develop in-demand skills in sound design, post-production and broadcast audio. RMIT's recording studios feature state-of-the-art facilities, including a NEVE Genesys Console, the first of its kind in the southern hemisphere, allowing students to experience industry-standard equipment to prepare them for a dynamic career in sound production.

Learn more
about Aaron's
time at RMIT

Aaron Farrugia

Screen and Media graduate

What I really enjoyed about [my] course was that I tried everything out so early on. I realised that the directing and writing side of things wasn't for me. I liked shooting short films, getting behind the camera and all the practical hands-on stuff, so I decided on cinematography.

I learned a lot about photography and shooting, so that when I applied for an attachment on a film, I was able to start in the camera department and knew what I was doing.

Work placements

Industry projects and placements expose you to real-world challenges

Science is about exploration and discovery – both in the lab and in the field. From monitoring the spread of infectious disease to exploring the depths of the ocean, every area of science plays a crucial role in helping us understand why and how things work. While RMIT offers extensive facilities and laboratories on campus, our students go beyond the classroom and apply their learning to real-life problems.

Working in teams during field studies and excursions that take place all over the world, our students gain hands-on experience in all aspects of scientific practice. Whether you want to study mathematics or data, food technology or chromatography, RMIT has the cutting-edge facilities and experienced staff to help you make a scientific breakthrough.

Work-integrated learning

At RMIT, industry and community projects give you the chance to put your skills into action and gain practical experience before you graduate. These include local field trips, mapping the environment, exploring the aquatic environment and even going overseas to tackle environmental challenges in other countries.

For more information visit
rmit.edu.au/science

Microscopy and Microanalysis Facility

The RMIT Microscopy and Microanalysis Facility houses high-quality electron microscopy and microanalysis equipment for the imaging and analysis of a range of specimens – from chocolate and aluminium to biological and plant material.

Overseas study tours

As an RMIT science student, the world is your oyster. You could be heading interstate or overseas to embark on a field practicum on the Great Barrier Reef; an environmental assessment project in Fiji; a professional experience in Vietnam; or an expedition to Costa Rica to study the biology, ecology and conservation of local sea turtles.

Food Innovation and Research Centre

The RMIT Food Innovation and Research Centre enables students to develop practical skills in an industry-standard setting. The centre includes a production facility, commercial kitchen, sensory evaluation lab and research lab. Students have access to a modern pilot plant that simulates industrial production, as well as a range of high-tech food preparation and processing equipment.

Our industry partners include

Centre for Nanoscale Biophotonics (CNBP)

The CNBP brings together a team of physicists, chemists and biologists. The team aims to control nanoscale interactions between light and matter, enabling it to probe the complex nanoenvironments within living organisms. This allows our team of biological scientists to understand how single cells react to and communicate with their surroundings.

Diploma of Conservation and Land Management This program will introduce you to the skills used by land managers, park rangers, site assessors, water quality assessors and conservation staff. Learn how to survey animals and plants, monitor waterways, assess and restore natural sites and undertake cultural studies relating to land management. NCC AHC51116	C5367 City 2 years VTAC 3200372384 ATAR Not applicable
FOOD SCIENCE AND TECHNOLOGY	
Bachelor of Science (Food Technology and Nutrition) Learn the science of large-scale food manufacturing and how to apply nutrition to food product development. You'll also be able to develop novel, healthy and functional food products that meet consumer demands and comply with government and industry's strict safety and health guidelines. Graduates can choose from a broad range of career roles in the food industry. PREREQUISITES VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 20 in any Mathematics.	BP199 City and Bundoora 3 years VTAC 3200433441 ATAR (2021: 66.95)
Bachelor of Science (Food Technology) / Bachelor of Business (Management) <small>DOUBLE DEGREE</small> Gain the technical knowledge to work in the food industry and the management and marketing skills to design and promote innovative products. Develop skills to manage global and large-scale food processing companies with a global operational focus. PREREQUISITES VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4 – a study score of at least 20 in any Mathematics. Learn more about
Science at RMIT

Charlize Snyman
Food Technology and Nutrition student

In my final year at RMIT, I partnered with a fellow student and we entered and won the Australian Institute of Food Science and Technology (AIFST) student product development competition.

The support provided by lecturers and staff during the preparation was just amazing – they really went out of their way to support us throughout the journey.

Career outcomes

Food science and technology

- Agricultural scientist
- Food scientist

- International studies
- Languages, translating and interpreting
- Social work
- Youth work
- Psychology

#1

RMIT is ranked number one in the world for its efforts to reduce inequalities²

Top 100

Among the world's top 100 universities in development studies¹

40+

RMIT has been teaching social work for more than 40 years

Learn from experts with strong links to industry

Engage with the challenges of a rapidly changing world and prepare for a career in local and international organisations, businesses and government agencies. Social science at RMIT spans multiple fields and gives you the opportunity to work with youths, provide psychological services, act as an interpreter between cultures and much more. A career in social science can be immensely rewarding.

Be the voice of the marginalised or a part of finding solutions that address global problems. Lead the debate on social issues or be the crucial link between people of culturally and linguistically diverse backgrounds. You'll learn from passionate and engaged academics and teachers who actively work towards a fairer world for all.

Work-integrated learning

Social science courses at RMIT work closely with industry partners to provide real-world learning experiences through field education and the close involvement of our partners in teaching and research. Human service and community service organisations, NGOs, advocacy groups and government agencies are all part of RMIT's extensive network of partners.

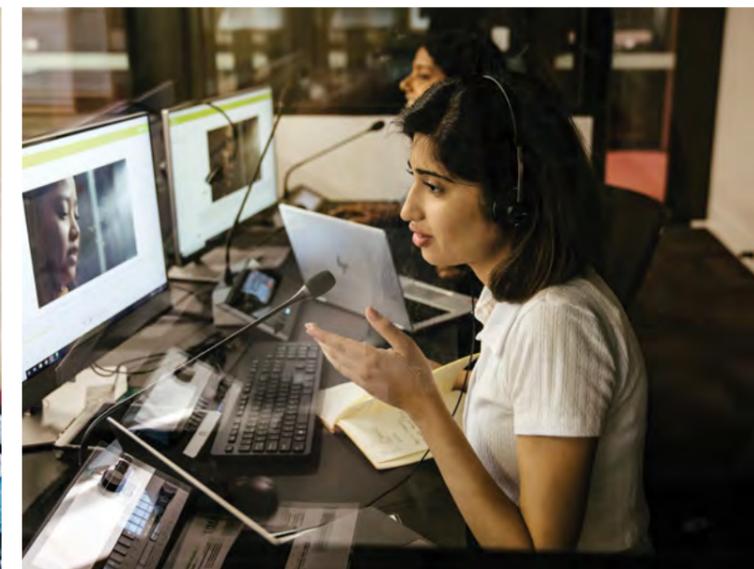

For more information visit

rmit.edu.au/social-science

International studies

Each year, students in the Bachelor of International Studies are given the opportunity to take part in The Big Issue's 'Big Idea' program as part of an assessment, which encourages them to develop a nuanced and empathetic understanding of disadvantage. Students first identify an important social issue, then propose a social enterprise in response to it, with the aid of industry mentors, social entrepreneurs and thought leaders who come into the classroom to work with them.

Youth Projects

RMIT proudly partners with Youth Projects, an independent charity providing front-line support to young people and individuals experiencing disadvantage, unemployment, homelessness, alcohol and other drug issues.

Certificate IV and Diploma of Youth Work students are offered virtual work-integrated learning experiences with the organisation, including the development, planning and evaluating of fundraising projects for the homeless.

Social and Global Studies Centre

The Social and Global Studies Centre undertakes research and promotes public debate on key areas of social change and social policy. The centre works closely with a range of community organisations, government departments, local governments and the union movement. The centre explores contemporary issues such as crime, gender, violence, inequality, humanitarianism, homelessness, development and governance.

Translating and interpreting

The translating and interpreting facilities at RMIT include a suite of modern teaching spaces, a world-class Televic interpreting lab and a moot court. The moot court allows students to take part in mock trials with LOTE speaking defendants and witnesses, practising simulated legal proceedings in a court or tribunal setting.

Our industry partners include

¹ QS World University Rankings by Subject 2019

² Inaugural Times Higher Education University Impact Rankings. This ranking focuses on measuring universities' social, environmental and economic impact and progress towards the United Nations' Sustainable Development Goals.

Daniel Godinez Lambert
Youth Work and Youth Studies student

RMIT stood out to me for many reasons that included their services and accessibility, but what sold me was that RMIT appeared to be incredibly forward thinking.

In a field such as youth work, it is important to be constantly growing, adapting and improving as each person is different and the world is constantly changing. I wanted to immerse myself in a university that would not only teach me how to be a good youth worker, but also show me how to adapt to changes within the field.

COMMUNITY SERVICES	
<p>Bachelor of Youth Work and Youth Studies</p> <p>Youth work is about realising justice for young people. In this degree you will learn about youth work practice, advocacy, planning, management and making policy decisions. Youth workers have roles in government, health, youth services and housing courses.</p> <p>PREREQUISITES VCE Units 3 and 4 – a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.</p> <p>PATHWAY OPTIONS</p> <ul style="list-style-type: none"> ■ Dip of Youth Work (1 year) plus Bachelor of Youth Work and Youth Studies (additional 2 years) = 3 years' total study 	<p>BP322 City 3 years VTAC 3200333371 ATAR (2021: 62.40)</p>

Support services

Disability support

We aim to make study and exams more accessible to students with a disability or long-term illness by offering Equitable Learning Services. These services may include classroom adjustments, interpreters, technology aids, or more time to complete assessments.

rmit.edu.au/student-support-ELS

Counselling

Counselling at RMIT offers students a safe, friendly and confidential environment to seek help. Whether you're struggling with personal issues, mental health, or you just have something you want to talk through, we offer counselling in person or over the phone.

rmit.edu.au/student-support-counselling

Financial assistance

If you require financial assistance due to unforeseen circumstances, you can apply for an interest-free student loan with RMIT. We also offer student hardship assistance for urgent and unexpected short-term expenses.

rmit.edu.au/student-support-finance

Safer Community

At RMIT, we are committed to providing a respectful and safe place to study. If you are feeling unsafe or unsure what to do about threatening or unwanted behaviour, you can talk to a member of Safer Community about your concerns and options, even if the behaviour happened off campus.

Email us
saferscommunity@rmit.edu.au

Call us
[03 9925 2396](tel:0399252396)

RMIT's support services and networks are there to help you succeed at university, while ensuring you stay healthy and happy. They will support you through every step of your RMIT journey.

Support for Aboriginal and Torres Strait Islander students

The Ngarara Willim Centre helps Australian Aboriginal and Torres Strait Islander students to feel supported and reach their potential with a range of study, living and cultural services.

rmit.edu.au/student-support-ngarara-willim

Chaplaincy

The Chaplaincy provides compassionate help and spiritual support for all students, whatever their religious beliefs may be. We offer a listening ear, quiet spaces and a warm welcome; drop by for a tea or coffee.

rmit.edu.au/student-support-chaplaincy

Legal advice

RMIT Student Legal Service offers free, confidential advice to students who need it. We provide assistance and information on issues such as transport fines, renting and tenancy problems, employment law, criminal law, debt matters and more.

rmit.edu.au/student-support-legal

SafeZone

Your safety is our priority at all times. To help you feel safe on campus, download SafeZone, a free app that is available for any smartphone. SafeZone allows you to instantly access support and help if you need it. It includes an emergency alert button, instant help calls to campus security and a first aid request button.

rmit.edu.au/safezone

Accommodation

Purpose-built student accommodation

Want to live somewhere fully furnished, reasonably priced and with other students? RMIT has selected a number of student apartments, located close to the City, Bundoora and Brunswick campuses, that meet our quality standards.

Alternatively, if you'd like to have RMIT right on your doorstep, UniLodge at our Bundoora campus provides state-of-the-art student accommodation with a range of self-contained apartments or studios to choose from.

To view our recommended accommodation options, visit rmit.edu.au/accommodation

Renting and sharing

You can rent a house, apartment or studio in Melbourne through a real estate agent or private landlord. Here are just a few places to look for private rentals:

realestate.com.au

realestateview.com.au

domain.com.au

Explore your accommodation options

Whether you're joining us from overseas, interstate or leaving home for the first time, RMIT can help you find accommodation that feels right for you.

Shared accommodation

Shared accommodation is a popular choice for students looking for reduced living expenses and the opportunity to meet new people.

Students looking for an existing household can find advertisements on shared accommodation websites, but it is important to inspect rooms and meet all the people you may be sharing with before moving in.

flatmates.com.au

flatmatefinders.com.au

melbourneexchange.com.au

realestate.com.au

sharehouses.com.au

Need help with housing?

Student support advisors at RMIT Connect can help you with:

- information on housing options that suit your budget
- advice on rental and tenancy issues
- information about moving in and out of your property
- advice on finances, housing, welfare and Centrelink
- referrals to support services.

RMIT Connect
[03 9925 5000](tel:0399255000)

Scholarships and equity

RMIT is committed to enriching and transforming the lives of our students. To make our courses more accessible to students of all backgrounds, we offer around 2000 scholarships every year.

RMIT offers scholarships for:

- academic achievement
- equity
- Aboriginal and Torres Strait Islander students
- accommodation
- discipline-specific learning
- travel.

Learn more about RMIT's scholarship programs and how you can apply at rmit.edu.au/scholarships

Access and equity

RMIT Access and VTAC's Special Entry Access Scheme (SEAS) will take into consideration disadvantages and circumstances that may have had an impact on your academic performance.

Eligible applicants can receive an adjustment to the calculation of their selection rank, which can increase their chances of receiving an offer.

To apply for equity consideration, you must be:

- applying to study a certificate IV, diploma, advanced diploma, associate degree or undergraduate degree, and
- an Australian or New Zealand citizen, or
- an Australian permanent resident, or
- an Australian permanent humanitarian visa holder, or
- a person seeking asylum.

Individual equity access schemes have their own eligibility criteria.

rmit.edu.au/equity-access

Applying to study at RMIT

For key application and offer dates via VTAC, visit vtac.edu.au

There are two main ways to apply to RMIT: either through VTAC or direct. If you are in Year 12, you will use VTAC for almost all courses. If you are not in Year 12, it can depend on the course you are interested in. To find out which method you should use, go to the course page and click the 'Apply' button.

2000+

new scholarships awarded to our students in 2020, including:

220+

laptops for students in need

250+

scholarships awarded to Indigenous students

70+

scholarships awarded to assist students moving from rural, regional or interstate locations

100+

grants to support students undertaking work-integrated learning placements

200+

scholarships awarded to current or former refugees

Fees

Associate, bachelor and honours degree tuition fees

Commonwealth Supported Places (CSP)

A Commonwealth Supported Place (CSP) at university means your tuition fee is jointly paid by you and the Australian Government.

Your share of the fee (student contribution) is set by the government and determined by the discipline area (band) of your individual enrolled subjects, not the overall course.

The table below indicates what your annual fee would be for a full-time study load in 2021 (if you enrol in subjects from a single band).

Student contribution band	Maximum student contribution amount in 2021
Band 1: humanities, behavioural science, social studies, clinical psychology, foreign languages, visual and performing arts, education and nursing	\$6684 per year \$835 per 12 credit point unit
Band 2: mathematics, statistics, computing, built environment, allied health, other health, science, engineering, surveying and agriculture	\$9527 per year \$1190 per 12 credit point unit
Band 3: law, accounting, administration, economics, commerce, dentistry, medicine and veterinary science	\$11,155 per year \$1394 per 12 credit point unit

rmit.edu.au/fees-local

Commonwealth assistance (HELP loans)

As a CSP student, you may be eligible to apply for a HECS-HELP loan, which can be used to defer payment of your student contribution to the Australian Tax Office up to your HELP limit.

For more information and to check your eligibility, visit studyassist.gov.au

Certificate, diploma and advanced diploma tuition fees

If you enrol in one of RMIT's vocational education courses, how much you'll pay will depend on whether you're offered a Victorian Government subsidised place or a full-fee paying place.

Subsidised places

You will be offered a government-subsidised place if you meet the eligibility criteria based on your citizenship, age, state of residence and educational history.

Full-fee places

If you don't meet the criteria for a government-subsidised place, you'll be offered a full-fee place.

Fee concession

The government subsidises student fees in select courses. If you meet the eligibility criteria, you may be able to access a 'fee concession'.

rmit.edu.au/programs/fees/vocational

Other fees

In addition to tuition fees, you will be charged a student services and amenities fee. You may also be required to purchase items related to your course.

For more information visit

rmit.edu.au/programs/fees/other
