

# RMIT Career Advisers' Update

October Update

## Inside this issue

- Parents to parents panel
- Interior design presentations
- RMIT Future Careers
- New virtual tours
- RMIT Extension
- Women in STEM cadetship
- Recent prize winners
- And much more!

## Parents to parents session

We invite you to share this with all parents who want to hear more about how they can support their children in transitioning to university life.

Come along to hear from parents of RMIT students to get an insight into the busy and exciting time that is studying at university!

[Register here](#)

## Food for your thoughts!

We're hoping you can generously give up 5 minutes of your time to fill in our survey as we look to improve our services and offerings going into a busy exam period.

All feedback is welcome and is completely anonymous, so we'd greatly appreciate your time to help us better serve you going into the future, and you'll go into the draw to win dinner on us with a **\$100 Uber Eats Voucher!**

[Fill in the survey](#)

## Interior design presentations

We are excited to offer a short presentation on the Bachelor of Interior Design (Honours) at RMIT from Dr. Olivia Hamilton, who coordinates the first year and is the Selection Officer for the program.

*Alex Pestrivas - Bachelor of Interior Design (Honours) student*

This is a great opportunity for your students to learn about the discipline, areas of study, and folio expectations and processes. Sessions are available to be booked in on Tuesdays, Wednesdays, and Thursdays by emailing us at [student.recruitment@rmit.edu.au](mailto:student.recruitment@rmit.edu.au)

## New virtual tours

Join our student guides as they take you on a virtual tour of RMIT's campuses and facilities. Get a taste of what life is like as a uni student at RMIT, as we point out the best spots to eat, study and hang out.

The suite of videos covers our Melbourne campuses, with a look inside specific interest areas including media, art, engineering, and health science.

## RMIT invites you to Future Careers

Starting next Monday 11 October, RMIT is hosting a month-long series of webinars, career conversations, masterclasses and industry panels designed to help you explore future career options.

These sessions are geared towards a non-Year 12 audience and will give you the opportunity to speak directly with academics, industry partners and alumni who can provide personalised advice on RMIT programs, pathways, and career outcomes.

The first Future Careers session, held on Mon 11 Oct

## Women in STEM cadetships

RMIT has partnered with the Federal Government to offer fully funded Diplomas of Information Technology to interested teachers who identify as women.

The cadetship is for part-time study in 2022 alongside their employment and interested applicants can email [stemm.women@rmit.edu.au](mailto:stemm.women@rmit.edu.au) for more information.

## RMIT Extension

Applications are currently open for Year 11 students who are interested in completing subjects alongside their Year 12 studies. There are 9 subjects to choose from which can be credited towards your future studies at RMIT, all of which are free of charge!

## RMIT Deadly Day of STEM

The RMIT Deadly Day of Stem has been moved to the 17 November due to COVID restrictions. The event is aimed to inspire young indigenous Australians (Years 7-10) with a full day of interactive in food science, health sciences, chemistry, and laboratory science. You can contact Jordan at [jordan.carter@rmit.edu.au](mailto:jordan.carter@rmit.edu.au) for more information.

## Pilot training at RMIT

RMIT Flight training has released a video for students considering studying at either the Point Cook or Bendigo training sites. The video details the course structures for both the Associate Degree in Aviation (Professional Pilots) and the Bachelor of Applied Science (Aviation) programs.

Head of pilot training, Mike Heffey stated that career outlook in the industry are set to improve as both domestic and international restrictions are slowly being lifted.

“Boeing’s 2021-2040 workforce outlook forecasts that around 612,000 newly qualified pilots will be needed worldwide, with pilot shortages in Australia already looming”.

## Coursework scholarships

A limited number of scholarships are still open for application direct to RMIT for 2022. Study areas include technology related degrees (computer science/studies, data science, information systems/technology, game design, software engineering), geospatial science and surveying.

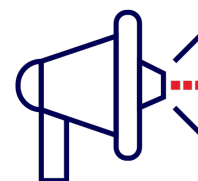

For asylum seekers, the RMIT Welcome Scholarship is still taking applications until the 14 December 2021. Visit the RMIT website to see what scholarships are still open for application

## VE Collide 2021 - Live recorded music

RMIT's Music Industry and Live Production programs in the College of Vocational Education produced Collide 2021 last month. This was live recorded music from various Melbourne's artists using our world class TV studios.

Click through to the video below showing the 'making of' this project from our amazing students in our Diploma of Live Production & Technical Services and Diploma of Music Industry (Sound Production) programs.

## Recent prize winners

### Term 3 Prize Draw

Congratulations to our winner, Felimena S who is in Year 12 at Our Lady of Mercy College! RMIT Student Recruitment gives away a \$200 voucher of the student's choice from a range of options when students elect to stay in touch with RMIT.

Not only do students then receive communications from RMIT specific to their interest area, they also go in the draw and could be the next winner!

### RMIT Trivia Tuesday Winners

On Tuesday, September 28th we hosted our very first Trivia Tuesday. It was a fantastic session and we were truly amazed at the knowledge on display from all involved!

Congratulations to our winners who came away with some exciting cash prizes:

- Fatima M (Kambrya College) - \$250
- Lily P (University High School) - \$150
- Dana B (McKinnon Secondary) - \$100

## James Dyson Design Award WINNER! Industrial design's Aaron Nguyen

It's such an exciting moment when promising graduates go onto great things, and its even better when they get recognised for such outstanding awards. We are celebrating Aaron Nguyen's achievement of winning the James Dyson Design Award for his honours project Luna.

The LUNA Modular AFO is a new approach to Ankle Foot Orthosis design, targeted at young and growing individuals with Hereditary Spastic Paraplegia. The unique design allows the device to adapt and conform to growing the users through a toolless modular system. A big congratulations to Aaron, and to his supervisor, Emma Luke.
